LETTERS FROM THE WEST.

CHILLICOTHE, AUG. 19. One regiment of riflemen under Lt. Colonel John Allen; the 11th reg. of Infantry under Lt. Col. John M. Scott; and the 5th reg. of Infantry under Lt. Col. Wm. Lewis, have marched from Kentucky to join the north western army in Canada.

tion of Upper Canada. Our citizens have voluntarily left their wives and children; their property and every thing which can be dear to man, to encounter the hardships of a camp in the wilderness; and the ferocity of savages and the discipline of British veterans in the field of battle.

On last Thursday, two companies of Gallia volunteers, under Capt. Shepherd and Butler, and one company of Athens volunteers, under Capt. Gregory, arrived in town. They marched for Canada on Sunday completely armed and equipped.

The battle of Brown's-town was fought on the 8th day of August, between a detachment of the 4th reg. and Ohio volunteers, under Lt. Col. Miller, amounting to 650 men, and British and Indians, amounting to upwards of 600.

Mr. Lyons, the messenger who started from this place sometime since, was in the late engagement at Brown's-town. He has brought a number of letters from the officers and soldiers of the army.

The alarming prospect before us, you can have no idea of—horror and dismay has given to every countenance the most gloomy appearance; but a few days ago we landed triumphantly on the shores of our enemy, and now we have precipitately fled under cover of the night to Detroit.

August 10—[Battle ground] Yesterday Col. Miller's regiment of regulars, and about 300 volunteers and artillery, who had been ordered to escort the Chilli-cotheans from the river Raisin to Detroit, were attacked by about 400 Indians and 150 British regulars, who had erected a breast work within two miles of Brown's-town;

COLLEGE OF MEDICINE OF MARYLAND. Having been appointed a committee to prepare a statement with regard to the condition and prospects of this Institution, to the progress of the building for the accommodation of the class of the courses of lectures to be delivered here next winter, &c."

We proceed to state, that from the number of students which attended our college last winter, under numerous temporary inconveniences, with which we then had to contend, but which will have been entirely obviated by the commencement of our next course, we deem the conspicuous merit of our graduates last spring, from the zealous sup-

port of which we have been assured by physicians in various directions, from our central situation, and from other local advantages, we calculate on having a very respectable class next winter.

We are, moreover, enabled to state with confidence, that the building for the accommodation of the professors & students, which is already in great forwardness, will be prepared for the reception of the class by the 1st of November; and that the lecturing rooms will be convenient, comfortable, and capable of containing from 600 to 800 persons; and that there are apartments in the same building, well calculated to favor the cultivation of practical anatomy, by students.

We think it proper to remark also, that for the purpose of rendering the whole course of instruction in this Institution more complete, several changes have been made in the professorships, and some additional professorships have been created and filled. The permanent arrangement of professorships is as follows:—

- Of Anatomy, &c.—by Jas. Cooke, M. D. Of the practice and theory of Medicine—by Nathaniel Potter, M. D. Of Chemistry—by Elisha De Butts, M. D. Of Materia Medica—by S. Baker, M. D. Of the Institutes of Medicine, or Principles of Physick—by John B. Davidge, M. D. Of Surgery—by Wm. Gibson, M. D. Of Obstetrics, including the diseases of women and children—by John B. Davidge, M. D. and Richard W. Hall, M. D. adjunct.

We are happy to inform the Regents, that from the personal attention of Dr. De Butts in different parts of the United States, considerable improvements have been made in the apparatus attached to the Chemical department.

The course of instruction in the College of Medicine of Maryland will commence annually on the first Monday in November, and will be concluded by the last day of February.

JAMES COCKE, JOHN B. DAVIDGE, WM. GIBSON.

It was resolved by the Regents, that the above statement and the two following resolutions should be published in the newspapers as extensively as possible.

Resolved, That as an expression of the estimation in which the College of Medicine of Maryland holds classical learning, and as an encouragement to medical students who may attend this Institution to possess themselves of such attainments, the Regents will give annually to the graduate who shall present the Thesis best written in the Latin language, a Gold Medal.

Resolved, That all graduates in the arts and sciences who may take degrees in Physick in this Institution, shall be exempt from the ordinary expense of graduation.

JAMES COCKE, M. D. Sec'y. Baltimore, 24th August, 1812.

The Editors of newspapers throughout the United States are particularly requested to give the above an insertion in their papers,

LONDON, JULY 14.

Letters received by the last Anholt mail, not only confirm the news of the conclusion of peace between the Turks and Russians, but add that the cabinet of Petersburg some time ago, abandoned the war with Persia, in order that the attention of the government and the power of the empire might be directed exclusively against France. The same letters encourage the most flattering hopes of the Crown Prince of Sweden. He is said to have 60,000 Swedish troops under arms, excellently disciplined, beside a reserve of 25 thousand men. There is also a squadron of eight ships of the line and some frigates which it is reported will take 15,000 Russians on board in Finland, and land them on the Continent. An expedition against Denmark, the ally of France, is spoken of as the first operation of these troops, in conjunction with those of Sweden.

The latest letters from Liebau, brought by the Anholt mail, are of the 22d—They state a report that a corps of 10,000 French was expected at Memel on that day. An order had been received at Liebau to collect all the grain in one spot, in order that it should be burned in the event of the approach of the French.

Advices were yesterday received from Gibraltar, stating that the British commander in Sicily had taken advantage of the absence of Murat from his dominions, and had ordered the embarkation of 6,000 troops, under the command of Gen. Maitland. These forces were to proceed to Minorca and Majorca, where they were to be strengthened by about 4,000 Spaniards, and the whole to make a descent on the province of Catalonia. The effect of this enterprise will probably be to prevent Sachet from reinforcing either Drouot, in Andalusia, or Marmont in Castile, and also to obstruct the sending of any reinforcement to Madrid.

JULY 15. An American ship which had been detained two years at Dunkirk, arrived at Dover, and brought 20 passengers, French, English and Americans; of whom four were permitted to land, and of them, a Mr. Bamber, set off immediately for London. The passengers give a Munchausen account of the Grand Army. It is computed at Dunkirk at nine hundred thousand men.

A gentleman, we understand, a Mr. Douglas, arrived last night at the office of the Secretary of State for foreign affairs, in Downing-street, with despatches from our minister at Constantinople. We understand they bring a confirmation of the report of the conclusion of peace between Turkey and Russia.

JULY 16. We continue our extracts from French papers received yesterday. We give this day the third Bulletin of the French grand army. The bulletin contains but a summary of corps commanders, positions, and movements, which however exhibit such an amount of force, of combination of plans, of experienced direction and able execution, as to add considerably to our already serious apprehensions for the issue of the conflict, if it comes to be decided by the fortune of arms. Our only hope is that the system adopted by Russia, being entirely defensive, and the means of subsistence being removed from the country thro' which the French are to advance, famine will accomplish what we profess to entertain no hope from the sword.

Government have deemed it expedient to make an alteration in the licenses granted to Americans. American ships were allowed to export only goods of British manufacture; they are now as liberty to export such articles as by law may be exported. The licenses will, besides, protect the return of the said articles to G. Britain, should the government of the U. S. refuse admission into the ports of America.

JULY 17. As we anticipated yesterday the Russian army is retreating to the Dwina. An Anholt mail arrived this morning, with papers from Gottenburg to the 12th inst. which state that it was falling back upon Riga; which is at the mouth of that river. Admiral Martin's squadron is off that port. He had a very friendly communication with the governor. Peace between England and Sweden is expected to be proclaimed on the return of the new courier from this country. The following is an extract from the Gottenburg papers, Gottenburg, July 11. Some trifling skirmishes have taken place and the Russians are retreating towards Riga.
