HOUSE of REPRESENTATIVES MONDAY, JANUARY

Mr. WRIGHT, after some motions, moved the following resolution:

Resolved, That a committee of the whole house be instructed to inquire into the expediency of the 2d section of the act, for the establishment of rules and regulations for the government of the army of the United States, relative to the citizens of the United States.

Mr. STOCKTON hoped the house would not sanction the resolution so far as to deliberate on the principle contained in it. Mr. STOCKTON, is so monstrous, I do hope no reference will be made to it. The amount of it is, whether the citizens of the United States, who are entitled to all the benefits and privileges of the constitution, are to be under the jurisdiction of martial law, and subject to military law, without the least principle without the least necessity of subjugating our country to martial law? If any person be found aiding and assisting the enemy, in the language of the constitution, he is guilty of treason, and can be tried for it in our courts of justice, where he is entitled to the inestimable privilege of a trial by a jury of his peers. This resolution strikes at that great bulwark of our liberties, the trial by jury, and I hope that this house will not sanction such a resolution. I do not here, sir, to defend spies, but I shall not be charged with the defence of any violators of the laws of my country. I am the defender of the rights and liberties of the people of these United States, and with the help of God I will defend them. I have a seat on this floor, and I shall not be contented to see a resolution go to subvert the principle of civil liberty, to subject our citizens under the ban of martial law, to prostrate courts, and the trial by jury, which is guaranteed by the constitution. I hope the house will not sanction it as to refer it to another day.

Mr. YANCEY moved that the resolution lie on the table.

Mr. TROUP observed, that the present subject as was referred to the committee on military affairs as some other cases had been referred. He had stood that there were a number of cases which occurred in various parts of the United States, and he mentioned a case where he was the only good spring water in the American army had been twice, no doubt, by some who had been lurking in the camp. Among other cases enumerated, he stated that the doctor, that while General Wilkinson's army was sojourning in the British information, he had no knowledge of the matter, he had heard it, he had under Judge Ford was a very virtuous man, but in other respects a good character.

Mr. MASON said that there appeared to him one that better settled by referring to a committee of the whole house, than by a reference to a committee, because the latter make any report, it is settled in a committee of the whole. If it is now refused to the whole, it is a
