For publishing in the City of Baltimore,  
**A DAILY NEWSPAPER,**  
TO BE ENTITLED,  
**THE BALTIMORE TELEGRAPH AND**  
**MERCANTILE ADVERTISER.**  
BY ALLEN AND HILL.

The subscribers, while they solicit a candid and generous public to patronize the project which they have now undertaken of establishing a daily paper in the city of Baltimore, feel with no common sensibility the delicacy and difficulty of the undertaking. Many have supposed that the citizens of the United States, are so enflamed by party animosity that it behoves every patriot to frown on every new champion who enters the field of political controversy. This hypothesis, if rigidly examined, will be found to end in this absurdity, that the condition of our country both abroad and at home, is so deplorable, that all attempts at reformation become criminal. If the national treasury is exhausted, commerce extinguished, public credit impaired, executive power enlarged while executive responsibility is lost, if our representatives in congress have so far forgotten their own dignity and the sanctity of their constitutional trust, as to declare that the will of an individual forms the law of the land; if in addition to this host of calamities, we are involved in a foreign war by which nothing can be gained and every thing is put in jeopardy—are we to be told that it is criminal to speak the words of honesty and truth? On the contrary, it is conceived that the arguments directly the other way; for in proportion to the desperation of our public circumstances, should be the zeal of our attempts to reform.

The subscribers would propose to attempt, but it would in them be the height of arrogance and presumption to say that they will be able to make their paper an interesting repository of intelligence. They have no hesitation in declaring that its character will be purely federal—by which they would be understood to mean, that neither the pride of power, or the insolence of office, shall prevent them from speaking salutary, although unpalatable truths. Having seen our political circumstances growing hourly more desperate; as the precepts and example set by Washington have been hourly abandoned, they deem it no less a right than a duty to raise one more warning voice, and apprise their countrymen of their danger while it is yet in their power to escape.

Influenced by such considerations they respectfully solicit the patronage of their countrymen to aid their undertaking.

**MR. WEBSTER'S SPEECH**  
In the House of Representatives  
bill to repeal the Embargo  
Mr. Webster of N. H. was happy, that it had fallen to his lot to be present at the office they were about to perform, of reading general obsequies of the reformed system. He rejoiced in moderation he felt a temperate exultation in this system, which he considered pernicious as to ourselves, and as to foreign nations, about to be consigned to the all the Capulets. He congratulated his friends who had predicted, that they had lived to see the existence terminated, &c. on to speak figuratively of a restrictive system, which he considered something like a system of being acted, not to be deliberated, it seemed to have been believed essential to our political leading, and any departure from it, and he did not believe a in the Calendar ever had followers less disposed to some enquiry, than the following this restrictive system. Thors of this system however well understood its object, and its also understood that it had failed to effect the late message of the sufficiently proved. The of the system, like that of other things, would not be known or generally understood it was destroyed. It was ing off with general execration features would now be seen, its true character understood. The opposition system had always told it that it was not a system truly American. The he now been told this was a measures connected with the of Europe which should and rise and fall with the that country. This had gently said by its opposition never before acknowledged friends. On what ground system now proposed to be but this—That the state created by the predominate French power on the continent Europe has ceased, and which depended on it ought also? That, in fact, no one expected from it but operation with the views of Mr. W. said he should not into a view of the coin which might be traced, on occasion to show that the bargo was laid at the command of the continental system. From the nature of things, the measure could have but from such coincidences was it to operate on Br denying to her a market for manufactures. To what amount speak, did we refuse a market manufactures? In this point he said, we consumed a portion of her product, or one six export, though the amount estimated much lower. He supposed, that by refusing this small amount of manufactures, we could to comply with our terms not be supposed that whilst we at the same time our own citizens of the whole of their surplus. The truth however was no deduced as a system had with France. [Mr. C. asked what the gentleman's co-operation? In one sense self had not used it, and ed its application.] Mr. said he did not allude to man's speech particular say that the effect to be by the restrictive system its pressure operating a time and in the same m
