PROPOSALS

For publishing in the City of Balti-

A DAILY NEWSPAPER,

TO BE ENTITLED,

THE BALTIMORE TELEGRAPHE AND MERCANTILE ADVERTISER.

The subscribers, while they solicit a andid and generous public to patronize the project which they have now undertaken of establishing a daily paper in the city of Baltimore, feel with no common sensibility the delicacy and difficulty of the undertaking. Many have supposed that the citizens of the United States, are so enflamed by party ani-mosity that it behoves every patriot to frown on every new champion who enters the field of political controversy. This hypothesis, if rigidly examined, will be found to end in this absurdity. that the condition of our country both abroad and at home, is so deplorable, that all attempts at reformation become criminal. If the national treasury is exhausted, commerce extinguished, public credit impaired, executive power enlarged while executive responsibility is lost, if our representatives in congress have so far forgotten their own dignity and the sanctity of their constitutional trust, as to declare that the will of an individual forms the law of the land; if in addition to this host of calamities we are involved in a foreign war by which nothing can be gained and every thing is put in jeopardy—are we to be told that it is criminal to speak the words of honesty and truth? On the contrary, it is conceived that the argument points directly the other way for in proportion to the desperation of our public circumstances, should be the zeal of our attempts to reform.

The subscribers would propose to attempt, but it would in them be the height of arrogance and presumption to say that they will be able to make their paper an interesting repository of intelligence. They have no hesitation purely federal—by which they would be understood to mean, that neither the pride of power, or the insolence of office, shall prevent them from speaking salutary, although unpalatable truths. Having seen our political circumstances growing hourly more desperate; as the precepts and example set by Washington have been hourly abandoned they deem it no less a right than a duty to raise one more warning voice, and apprise their countrymen of their danger while it is yet in their power to

Influenced by such considerations they respectfully solicit the patronage of their countrymen to aid their under-
