They could never yield their opposition to a provisional army of which Hamilton was the commander, even when predatory war was actually ravaging our commerce. But they are now first in favour of a much larger force during undisturbed peace. Not meeting with the President there, they clapped spur to, and hastened off to his country-seat in Virginia, via Bladensburg. Since then, they have not been heard of; and as it is believed the President will send off some half a score of them with a "flea in their ear," it is not unlikely they may have got bewildered, and missed the way back. THE FINE ARTS!

We have just had the pleasure to re ceive Part 1 of Vol 1 of " Delaplaine's Repository of the Lives and Portraits of Distinguished American Characters," and we hasten to announce its publication, because we know there are many persons who, like ourselves, were painfully apprehensive, that owing to the want of encouragement, the want of funds, or some other cause, this national publication would not appear. It is three years since Mr D. has devoted himself and all his means, with the most persevering industry, to the ac-complishment of this desirable work: and we are now gratified in the belief that it will be accomplished in the spirit in which it was commenced. We have not now time to speak of the style and execution of the several Portraits in the present number, but pressed as we are for time and room, we cannot deny ourselves the gratification to call public attention to the busts of WASHINGTON and HAMILTON

They are executed in Mr. Leney's very best manner: that of Hamilton is uncommonly fine. Those two Portraits are worth the price of the whole number. The paper is good, and the Ty pographical part, which is executed by Mr. Brown, does him great credit. We hesitate not to recommend this Nati onal Work to the patronage of the nation. Pride, patriotism, and a love of the Fine Arts, unite as motives to cherish this valuable publication.

MISSOURI TERRITORY.

ST. Louis. June 15 - Indian News. -It is conjectured that the Indians who have committed the late depredations at the Boons Lick sottlements, are party of Sacks and 'Vinebagoes who were returning from an expedition a gainst some tribes of Missouri Indians, with whom they are at war Treaties will not bind these people, fear will only restrain them. Incidents in the proceedings of Brigadier General Smith fully illustrate this assertion The General with about 1000 regular troops ascended to Rock river a few weeks ago to erect a fort ; he chose a position on\* Rock Island, the most command. ing spot in that quarter, and immediately commenced. The Indian chiefs pressed him to desist, declaring that they could not be responsible for the conduct of their young warriors, who disapprobated building a fort in their neighbourhood; the Gen. treated them civilly but went on with the work and no doubt by this time has a fortress of great strength completed. A person who left there a few days ago, represent the Indians as friendly, and much attached to General Smith, who please insert this advertisement twice a week, was preparing to ascend to Prairie du till the day of fale, and forward his account to Chein to erect a strong fort in that neighbourheod.
Three hundred of the rifle regiment

have sailed from Belle Fountain to jion him.

Nicholas Boulvin, Esq. the Indian Agent resident at Prairie de Chein, in-forms us, that the remaining hostile bands of the Winebago and Falcavoine nations may be expected shortly to treat with the Commissioners.

Several white men have been lately murdered by the Pawnee and Osage Indians. The Pawnees justify the act as defeuding their lunting grounds from the whites Both the Osage & Paw-ness declare that the few whites who visit their country as hunters, kill more Buffaloe in one year than would support both their nations, (containing 10.000 persons) for the same period. It is said that 5000 Buffaloes were killed last fall to procure one boat load of tallow It is a well known fact, that thousands of those animals are killed for the sake of their tongues & tallow.

The Osages complain that settlements are forming in the midst of their hunting country, 500 miles west of the Mississippi. This is about half way to the Spanish villages in Mexico.
