NAVAL DEPOT.

BY THE RPORATION OF ANNAPO-LIS.

October 7. 1817. Resolved unanimously, That Mr. uzhes, Mr. Stephen, and Mr. yle, be a committee, to prepare report to this corporation, at eir next meeting, a memorial to General Government, upon the icy of further improving the bic works of defence for Annais, and the eligibility of the ie, to locate a Marine Hospital d Naval Arsenal.

Test, JOHN BREWER, Cik.

Oct. 18, 1817. At a meeting of the corporation . Hughes from the committee livered the following memorial: e Memorial of the Mayor, Becord-

er, Aldermen, and Common Council of the City of Annapolis, to the President of the United States. YOUR Memorialists, in behalf the citizens whom they reprent, beg leave to call your atten-on to the advantages which their y is considered to possess, and eligibility, as a place of defence, as a site for a Marine Hospital,

her public works connected with war and navyidepartments. In doing this, they are not unindial of the effect that such esdisnments would have in promotthe prosperity of the place, but

Navy Yard, or Navy Arsenal, and

ey are, at the same time, actuated a firm persuasion that they ould be equally beneficial, to the a:ral government. Annapolis is, irom its situation,

ore accessible from the ocean an any other port, within a connient distance, from the city of

It has been spontaneously selectwers, for their place of landing, dour own envoys have generally ade it the point of their deparre. In respect to the latter, it ers incalculable and exclusive adintages, in the celerity in which spatches, sent from the seat of vernment (a distance of only 30 iles) may be forwarded to the difrent courts in Europe, or to our

w, in its stations abroad. Our port might also be convenitly used as the place of embarkaon for troops, or stores, either by e way of Frenchtown or Elkton, the head of the bay, or to the uthern states, as was frequently e case, during the late war; and ders could be transmitted for ch. purposes by the heads of derements, without any material de-

The harbor is safe and commodi-, and it is believed that the wamay be rendered sufficiently ep, for the largest vessels. The ench seventy tour L'Eole, drawg twenty-one feet seven inches, ine in in the year 1807, when the de was not at its height. There a mile took fort Severn, a depth water than 50 feet. Another advantage attending be arbor is, that it is never obseruction by ice

by ice. In point of healthiness, Annapocarcely qualled, by any city in

not be enlarged on, either as it fe- | removed we see no probability of a gards those who miy be in active service, or those who may be invalid, or patients in the hospital.

The water is pure and good, and may, at a trifling expense, which the corporation would readily incur, be brought to a situation from which the shipping could be prompt-ly supplied, with little labour, and without any charge.

The market is well supplied, and the soil is peculiarly favourable to the production of vegetables and

Lumber of every description may be easily procured; and within 12 miles there are large forests of the hest white oak, fit for ship building, and pine timber for masts, spars, decking and other purposes, in any quantity that may be required, and as cheap as in any other part of the

On these topics, we annex to our memorial, a letter sent by Mr. Hamilton, while secretary of the navy, in reply to a communication made to him on the same subject.

The general government possesshas left a numerous family and es here, aiready, a valuable property, which was purchased for a small sum, and has been considerably improved, particularly by the present commanding officer of the post; to a part of which, the corporation reinquished their right, without receiving or demanding any compensation.

The ground not already occupied by the fort, and buildings, is suffici ently spacious for the erection of an Arsenal, a Hospital and any other establishment, there being more than seven acres, to which, if necessary, more might the added, or a situation (as St. John's Coilege and the ground thereto belonging) might be procured, distinct and separate, if it should be deemed more advisa-

In addition to the defence afford. ed by fort Severn, the channel is commanded by fore Madison, and Saned works might be easily erected, on the opposite side at Horn Point, as they were during the revolutionary war, or the present works at fort Madison improved at small expence, as by a statement heretosore made by Captain Reed, to Colonel Armstead, will appear. The river Severn also offers, within the protection of the forts, a secure refuge in case of necessity, for vessels of any burthen, as was often experienced during the late war.

Sensible, that (as demonstrated in your late tour) it is one of your great objects, to examine and determine the relative positions of the different sections of the U. States, with a view to protection and de tence, we have no doubt of your willingness to take into considera tion the remarks which we have thought it our duty to offer, & that our expectations will be realized, as far as they may be found compatible with the public good. Your memorealists pray that competent and proper officers be sent on to make the necessary surveys of the harbour, the entrance thereto, and the

adjacent grounds. Which was read and unanimously assented to Oct. 18, 1817.

On motion by Mr. Boyle, the following resolution was read and assented to.

Resolved, That Mr. Daniel Murray and Mr. John Mircer, be requested to wait on the President & present the said memorial.

November the 4th 1817, at a meeting of the Corporation, Mr. Hughes and before them the following communication from Messrs. Murray &

To the Mayor and Corporation of the City of Annupolis. Gentiemen.

We have had the honour, in conformity with your instructions, to present to his Excellency the President of the U. States, your memorial, &c. And are directed tosay that the earliest and most attentive consideration shall be given to it .instructions will be furnished to the Officers composing the Board of Commissioners for surveying the Chesapeake, &c. &c. to examine the harbour of Annapolis, and the executive will no doubt be governed in the selection of a site for a Naval

Arsenal by their report. Should the Officers and Engineers on this commission think favourably of the position for defence, there can be no reasonable objection made to it by the officers of the Navy. who are associated with them, except that th re is not a sufficient depth of water over the bar at the mouth of the harbour, to admit ships is not surpassed, and perhaps is of the line. This obstacle we are convinced will be considered as in merica. An advantage that need surmountable, and unless it can be Nov. 20.

report in favour of Annapolis.

At the suggestion of one of the Officers of the board of Navy Commissioners, we called on the person employed by the Corporation of George-town, to widen and deepen the channel of the Potomac & have the satisfaction of enclosing a statement furnished by him, by which it will appear that the bar may be cut through in a short time and at a trifling expense, compared with the object in view, and having understood from the highest authority, that a less depth of water than 25 feet will be deemed an insurmountable objection. we take the liberty of sug g. sting the propriety of immediate ly commencing this work, that it may be completed before the arrival of the Commissioners, and have the honour to be, gentlemen, with great consideration,

Your very obedient servants, D MURRAY, JNO. MERCER. West-River, Oct. 30, 1817.

George-Town, Oct. 28, 1817. Mr. Mercer,

Sir, Agreeable to your request, I commit to paper the information which I gave you. The usual price of removing sandor mud is \$ 5 per square of 216 cubic feet, but I am of opinion that it would be cheaper for you to have a machine made for the purpose, as it will not cost more than 7 or 8000 dollars, and the work will not amount to so much as it would if you were to employ me. The har you want to remove at \$5 per square will cost \$21,000, which you might accomplish at an expense of \$ 5000 upon the plan I suggest, in addition to the cost of the machine. Even if the machine cost \$10000 you would save & 6000 and the machine to boot by doing it yourselves. I am with respect,

Your humble serv't. JOHN EVELETT.

On motion by Mr. Boyle, Ordered, that the memorial respecting the Naval Depot with the accompanying documents, and the resolution on which they were predicated; be published in both Newspapers in this City, the National Interingencer and Baltimore Patriot.

True Copy, Test,

Informs all those indebted to him. that he has lodged the evidences of his claims with Henry H. Chapman, esq. who is authorised to receive and enforce payment of them.

George Town, D. C. Nov. 13, 1817.

JAMES F. BRICE.

Attorney at Law, has just published A Familiar Explanation of the Laws of Wills and Codicils, and of the Laws of Executors and Administrators, and the Rules whereby estates both real and personal descend, and are to be distributed, in case no will be made, with instructions to every man to make his . own will, the necessary form for that purpose, and the forms of other instru. ments relative to the estates of deceased persons. The whole written as much as possible without the use of law words or terms. The original work, whence this com.

pilation is derived, was, as this also is, chiefly intended for the benefit of those who are unacquainted either with the doctrines or the forms of law, & who wish to be instructed how to act, without subjecting themselves to the necessity of communicating the knowledge of their private concerns to any other person. This, among other considerations. has induced the author to compile this treatise, that a book may be always at hand, to which immediate application may be had in those cases of emergency, when every moment is precious; and by means whereof many at least of those mistakes and omissions. now daily committed may be avoided. law suits prevented, and the peace of families thereby secured. The compiler has in connexion with the original work, and in order to render the present system the more complete, incorporated therein that portion of thelaw of this state which is applicable to the estates of deceased persons, and subjoined thereto a digest of the testamentary laws.

This work may be had at this office, at Mr. George Shaw's book store in this city, and at the book store of Mr. Coale, Baltimore,

The editors of the American & Federal Gazette are requested to insert the above in their respective papers once a week for the space of six weeks. Annapolis, Oct. 16.

Public Sale.

Pursuant to an order of the honourable the county court of Prince George's county, will be offered at Public Sale, to the highest bidder, on Friday the 12th of December next, in the town of Upper Marlborough, in the county aforesaid, the following property, viz. The tavern at present occupied by John H. Hall, together with 16 acres of land attached thereto. The house is large and commodious, and well located for a tavern, being near the court-house-Also, two other small frame houses: one of them very near the court house, in south western direction, the other a

little further on the street leading from the court-house to the post-office. Also, a lot of ground in the said town, lying between the court house

and the Western Branch, called Carroll's Addition; containing 19 acres. At the same time and place will be sold, some negroes, stock, and household and kitchen furniture.

The above property is to be sold to satisfy the creditors of the aforesaid John H. Hall, an insolvent debtor, who has applied to the said court for the benefit of the insolventacts. The title of the said Hall to the aforesaid real property will be sold subject to his wife's dower right. The terms of sale will be cash, for all sums under 20 dollars, and a credit of one two and three years on all sums above, the purchasers giving bond with approved security, on

interest from day of sale.
