From the New-York Evening Posts AFFRAY AT MOBILE.

We several days since published some particulars of an affray which took place a short time ago between commanded by a Lieutenant Beall, and the citizens of Mobile. The account, however, was so incomplete and imperfect, whether designedly or not we cannot say, that we were left entirely ignorant as to the origin of the quarrel. The New-Orleans Gazette of the SOth ult. received this morning, gives a history of the transaction, on the authority of a respectable gentleman at Mobile, which places the affair in quite a different light from what was to be inferred from the resolutions of the town meeting which we publish-

It appears that the county jail had been erected upon the public nospital lot of the United States, which lot had been placed under the special charge of the military commander at that post. Several days previous to the disturbance, Liett Beail addressed a note to the chief justice of the quorum, stating that the jail must be removed. The judge replied, that he had no authority to order it to be taken off. Subs quently, another note was addressed by lieut. B. to the judge, sur ing the necessity he should be under to remove the building, should the business be neglected by the proper authority. To this communication no reply was made. Lieut. B. thes called personally upon two of the judges, and made a representation upon the subject, to which they turned a deaf ear. He then notifi-

BALTIMORE HOSPITAL

24th August. 1818.

The board of visitors have much pleasur n announcing to the public, that within the last eighteen months, a large & elegant addition has been made to this xaluable institu tion, in the erection of the Last wing of the building. This wing is 152 feet in length, and of in width, with an extensive Southern protection at its extreme East end. It cor ains between 30 and 40 apartments, admir ably calculated for the accommodation every class of patients. Of this number are several large and airy wards, intended particularly for the reception of seamen, and well adapted to their various diseases. These different rooms and wards will be warmed by open fires, and by heated air thrown into them, from furnaces constructed on a sal and improved plan. Arrangements will al so soon be made, for lighting the apartment

in the entire building with gas.

The unwearied exertions of Doctors Mac-Kenzie and Smyth, the attending Physici ans of the Hospital in their attention to th construction of the building, and their care of the sick, have given a character to this Institution, which is now inferior to none in the United States. In the short -pace or six years, a most noble establishment has been erected—a thing without parallel in this country. It is well known, that above half a century has been consumed in bringing the Hospitals of New-York; and Phili delphia to their present size, and it is admitted by many gentlemen, who have visited the Institutions, that the Hospital here s ... v far the most extensive; the whole build

ings being now 300 feet in length.

The daily increase of the sick in the Hos pital, renders it absolutely necessary that the new wing should be furnished; and every exertion is now making to have it com pleied, before the cold weather shall set in.

The visitors at their late meeting, examin-

ed the Institution with much care the a-partments of the sick in the private infirmv-those in the lunatic asylum-and the wards of the sick and disabled seamen in the Marine Hospital—and they assert with confidence, that the sick and afflicted of e-very description are well accommodated and carefully attended. They have seen at their different meetings, the private patient com-fortable; the wretched marine humanely taken care of; and the sailor, disabled by age, wounds and sickness, well provided with suitable medical assistance. & with eve ry other comfort which his condition may require. Indeed the agreeable situation in which this very useful class of men are plac ed, does much credit, as well to the Director of the Marine Hospital, as to the attend ing physicians, to whose immediate care they are entrusted. Every praise too, which the visitors can bestow, is due to Mr & Mrs Gatchel, the Stewart and Matron of the Ho-pital, for the neat and clean manner in which the House is uniformly kept, and for their care and attention to the adminis tra ion of the internal econory of the es ablishment.

Before they conclude this account of the Hospital, the visitors would invite the at-tention of their fellow citizens throughout the United States to the ANATOMICAL CA BINET OF WAX PREPARATIONS, by CHI-APPI, which certainly far surpasses any thing of the kind ever exhibited in this country; and will afford to those whose cu riosity may lead them to see how "fearfully and wonderfully they are made," but more especially to the medical student, a fund of useful information.

The Hospital is under the care of the following medical gentlemen: Drs. COLIN.MACKENZIE, Attending
