PRINTING Of every description, neatly executed at this Office.

BALTIMORE HOSPITAL, 24th August, 1818. The board of visitors have much pleasure in announcing to the public, that within the last eighteen months, a large & elegant addition has been made to this valuable institution, in the erection of the East wing of the building. This wing is 152 feet in length, and 36 in width, with an extensive Southern protection at its extreme East end. It contains between 30 and 40 apartments, admirably calculated for the accommodation of every class of patients. Of this number are several large and airy wards, intended particularly for the reception of seamen, and well adapted to their various diseases. These different rooms and wards will be furnished by open fires, and by heated air thrown into them, from furnaces constructed on a safe and improved plan. Arrangements will also soon be made, for lighting the apartments in the entire building with gas.

The unwearied exertions of Doctors Mackenzie and Smyth, the attending Physicians of the Hospital, in their attention to the construction of the building, and their care of the sick, have given a character to this Institution, which is now inferior to none in the United States. In the short space of six years, a most noble establishment has been erected—a thing without parallel in this country. It is well known, that above half a century has been consumed in building the Hospitals of New-York, and Philadelphia to their present size, and it is admitted by many gentlemen, who have visited the Institutions, that the Hospital here is by far the most extensive; the whole building being now 300 feet in length.

The daily increase of the sick in the Hospital, renders it absolutely necessary that the new wing should be furnished, and every exertion is now making to have it completed, before the cold weather shall set in.

The visitors at their late meeting, examined the Institution with much care—the apartments of the sick in the private infirmary—those in the Lunatic asylum—and the wards of the sick and disabled seamen in the Marine Hospital—and they assent with confidence, that the sick and disabled of every description are well accommodated and carefully attended. They have seen at their different meetings, the private and comfortable care of the wretched marine, humanely taken care of, and the sailor, disabled by age, wounds, and sickness, well provided with suitable medical assistance, and every other comfort which his condition may require. Indeed the agreeable situation in which this very useful class of men are placed, does much credit, as well to the Director of the Marine Hospital, as to the attending physicians, to whose immediate care they are entrusted. Every position too, which the visitors can bestow, is due to Mr. & Mrs. Gatehel, the Stewart and Maron of the Hospital, for the neat and clean arrangement in which the House is uniformly kept, and for their care and attention to the administration of the internal economy of the establishment.

Be ore they conclude this account of the Hospital, the visitors would invite the attention of their fellow citizens throughout the United States to the ANATOMICAL CABINET or Wax Preparations, by CHARLES WAX, which certainly for seeing any thing of the kind ever exhibited in this country, and will afford to those whose curiosity may lead them to see how accurately and wonderfully they are made, but more especially to the medical student, a fund of useful information.

The Hospital is under the care of the following medical gentlemen: Dis. COLIN MACKENZIE, Attending Physician. JAMES SMYTH, 5 Physicians. Dr. Horatio Gates Jameson, Attending Surgeon.

Dis. GEORGE BROWN JOHN COULTER JOHN CAMPBELL WHITE SOLOMON BRICKHEAD Consulting Physicians. PETER CROMWELL PETER CLATARD ASHTON ALEXANDER JOHN OWEN WILLIAM DONALDSON
