THE MORNING CHRONICLE, A NEIY DAILY PAPER,

TO BE ESTABLISHED IN THE CITY OF BALTIMORE.

It is with unfeigned reluctance that the subser ber begs leave to solicit the attention of the Public to a New Daily Paper, which establish in Bazimore, to be denon THE MORNING CHRONICLE.

With regard to the political character of this publication, he coins any concealment -it will be decidedly of the Federal cast: That federalism, which was known and practised in the day of Washington—that fede ralism, for which Hamilton wrote fought, and for waich Montgomery fell-that fede ralism, which, with a large and comprehen-sive view, embraces a I characters, so far as they augment the prosperity, and, the gran deur of their country, and which turns an eve of the most transcendant disdain on the ittle, despicable, mean personal bickerings for office—teat federalism, which would raise, equoble, and aggrandize the character of our dear and beloved country, and in ralism, whose only aim is to raise and to ag grandize private families—that fideralism, that exults in the spectacle of our country's greatness; that delights to behold the star spangled banner glittering over every seasour commerce bounded by no other restriction tions than those of the ocean -that federal sm, that cheers the honest husbandman at is plough, the merchant at his desk, and the mechanic at its anvil. He is too old, and the grave too near, for the subscriber to irn an apostate now; to lend himsel to t. e scurvy meanness of individual ambition: or to mistake his own welfare for the welfare o his country. These are the federal sen-timents of the Edi or, and such as he will be governed by until the hour of his dissolu-tion. He seeks not individual pat onage.
