PROPOSALS
For publishing, in the City of Annapolis, A Periodical Work, to be entitled, THE RELIGIOUS AND LITERARY REPOSITORY.

The leading views of the Editors are stated in the following note, by one of the persons, who will be actively employed in the selection of the matter for publication. The Religious Magazine which have been heretofore published by members of the church, are, some of them, very useful as far as they go. My objection to them is, that they do not attempt to give us information, of which the laity, and indeed clergy, stand in much need, and which is with great difficulty to be obtained. In this country the laity have a considerable participation in the affairs of the church, and ought to possess an intimate knowledge of its history, constitution and laws. As church wardens, and trustees or vestrymen, as well as delegates to the convention, they have important and very solemn duties to perform, and with a knowledge of these duties, it ought to be the business of these magazines to furnish them. The subjects usually discussed in them have already been explained and enforced by pious and learned divines, with as much ability as could be expected from more modern writers, and a knowledge of what we are to believe and do in order to be saved, may be communicated to our readers as well by selections, as by any original matter which we might be able to offer to them. From our writings of approved divines, not a few of them, even in possession of the clergy, we shall most frequently collect what is deemed necessary to give on Christian doctrine and duty. The magazine will aim to be useful, and desires no other reputation.

I am induced to hope that, besides furnishing the laity with useful information in regard to the duties which are imposed upon them, some hints, worthy of their attention, may occasionally be given to the clergy. While they act up to their ordination vows, endeavour to frame and fashion their lives according to the doctrine of Christ, to make themselves wholesome examples of the flock of Christ, and reverently obey their Bishops, following with a glad mind and will, their godly admonitions, they deserve, and there is in the laity of the church of Maryland generally, every disposition to honour and support them. It is however, at any time, easy for them to forget to pay due regard to their own solemn engagements, and instead of being to dwell to their unity, a design should be manifested to introduce disorder and misrule into the church, to oppose its legitimate authority, or to assume powers which do not belong to them, then it is not only the right, but it becomes the imperative duty of the laity, to animadvert upon such conduct with unsparing severity.

Approving entirely of the forms prescribed, and of the doctrines agreed to by our Church, it will be no part of the business of the Magazine to recommend or even to connive at any new inventions, whether in tenets, or discipline or worship.

The American Farmer.
The first number of the American Farmer was issued on the 21 of April, 1819. It may now be considered as an established National Work, adapted to all the varieties of our climate, since many of the most eminent citizens in all the states contribute, by their patronage and their writings, to its circulation and its usefulness.

To make known all discoveries in the science, and all improvements in the practice of Agriculture and Domestic Economy—and to develop the means of Internal Improvements generally, constitute the chief objects to which the American Farmer is devoted. It takes no concern or interest in any party politics, nor in the transient occurrences of the day.

The Farmer is published weekly, on a sheet the size of large newspaper, and folded so as to make eight pages—and to admit of being conveniently bound up and preserved in volumes. Each volume will consist of 52 numbers, a title page and an index; and numerous Engravings to represent new implements, and approved systems of husbandry.

Each number gives a true and accurate statement of the then selling prices of country produce, live stock, and all the principal articles brought for sale in the Baltimore Market.

Terms of subscription \$1 per vol but for the sum of Five Dollars, to be paid always in advance, the actual receipt of every number is guaranteed.

As the Editor takes the risk and cost of the mail—should subscription no new miscary, he holds himself, nevertheless, bound to furnish the paper.

All gentlemen who feel an interest in the circulation of a Journal devoted to these objects, and conducted on this plan are requested to transmit the name of subscribers—but \$3 in all cases the money must be remitted before the paper can be sent. It will, however, be returned in any case, where the subscriber, on a view of the paper, not being satisfied, may think proper to return it to the Editor within 3 weeks.

An allowance often per cent, will be made, when claimed, on all monies received for, and remitted to the Editor.

A few of the first volume, either in sheets or well bound, with a copious Index, remain on hand for sale.

Notes of the banks of North & South Carolina, Georgia and Virginia, generally, will be received at par. From subscribers residing in the states of Ohio and Kentucky, notes of the bank of Chillicothe will be received at par, and from such subscribers the notes of all other banks, which can be disposed of here at a discount of not more than ten per cent.
