SOMERSET COUNTY. Democratic. 851 Brattan, 778 Ryder, 808 X

For the Maryland Gazette.

The Election. When it was confidently expected but the result of the recent election rould be favourable to federalism. ithad not been calculated that there would be in any section of the state, a want of activity and exertion on the part of its friends. In many counties, however, the effort which it was thought would be made, has not been made. And to this it is oring that counties, of which the most sanguine hopes were entertained, have returned democratic deleples. In other counties, which rere really considered doubtful, and h which, of course, every voter . lit that his vote was of importance, the federalists gained an honourable riumph. Surely, what has happendinsome of the counties, will prove ball, that no man has a right, in my county, to be certain that his rde will not vary the result, and of corse will induce all, in any future dection, to do whatever it is in their power to do.

Another circumstance which contibuted to give to democracy the acendancy in our councils for another Jear, was, that many federal ben entertained the opinion, that it vis expedient not to make any serioss druggle until the electoral electher opportunity of judging how tant the men now in power are to gorern the state. With such notions it may well be supposed that tery great exertions would not be

With respect to the duty and necessity of making an united and viprous effort at the next September ection, but one opinion can be entertained. Now indeed, we have medranch of the legislature to that the other, and therefore no ery serious evil is to be apprehendd. But if the now dominant party hoald gain the senate, then indeed ber will remain no longer any diffally in the adoption of thise ruinautiles, of the change which is takinplated in the expresentation Marconiles—a reduction of the heater of delegates in almost every heater of delegates in almost every heat in an area of the number in Buttimort. This question, thich has been an dien before agitale, receives its despitember next. enecratic senate will be ready, Wit always has been ready, to intress by every means, the infla-ex of Bultimore, to give her an access representation, and to se-

der sections execution. Ano- assemble vin caucity to regulate the roch perfect and full set, pro- the votes of the democratic part of the legislation is the legislation. der juch person and in the Unit the legislature, the interests of Balhay cianot be rough, A.M. a timore have uniformly provailed, Street. At 9 o clock, Ann. a more mave uniformly provailed, in opposition to those of the state. I fet, sat before 12, a more thand. The counties cease even to be repet, sat before 12, a more thand. The counties cease even to be repetent sum was subscribed and presented by their own delegates. whitent sum or delegates. What more glaring proof of this the nere carefully boxed up the can be furnished, than in the votes use afternoon and sent to the Spin of successive legislatures, upon the mistry. This augurs well for the proposition to tax sales at auction

with the administration of the general government, and therefore, why continue the opposition in the state? Now in answer, to this, we would take lead to say, that we do not distinctly understand how it is to be made out, that the federalists united with the democrats in the support of Mr. Monroe and his administration. That they are not hostile to his course of policy, may with truth be said, because as yet none have been able to discover what his course of policy is. If we are to judge from the fate of his recommendations in congress, we must be least of the conclusion, that no man has less influence than t e prosident in the councils of the nathor. It is true, that he has made known to us his hostility to any law for the appropriation of public money to the inturnal improvement of the country. but with the exception of this, who knows of any a.t of president Morroe's either to

condemn or approve The grave and weighty matters which have been debated in congress, have been opposed by many of the democrats, and advocated by many federal members; but of the president's system, no man can'approve. because what that system is, no man has ever heard. It is believed fudced, that he can do but Little harm, because, with his party, divided and subdivided upon every material question, he is without power to do either good or harm. He is not opposed by the federalists, as a party, and he has yet to obtain the confidence and support of

his own party. But it is allowed to no man to tell how long this state of things may continue to exist; and if in the course of the next presidential term. he should be able to unite his party, and should attempt any measure, ruinous to the liberties and welfare of the country, will it not be a source of unmingled regret to the federalists, if by their own inactivithey have lost all power to resist the adoption of them? Or if the sections of the democratic party, increasing in numbers, should attempt to force him into the adoption of any course of policy which ought to be reprobated, ought not the federafists to be able to support him

and the nation?

But why continue the opposition in the state? We answer, that even if Mr. President Monroe, had our entire confidence, and all his measures and principles our warmest approbation. we perceive in the doings and designs of our state rulers. enough to demand of us to strain every rerve in order to have abler and fitter men in their places. What has been done by them to silence opposition, or to induce federalists to approve of their policy? Is it for federal man to admit that the interests of the whole state ought to be sacrificed to gratify the daring views of Battimore? Is it for them to suffer the influence of the counties to be diminished in our councils, in order to give an additional number of representatives to a place, in which a fair expression of the the legislature will be diminished, and fall expression of the public opinion cannot be had? Is it for federal men to continue in powers and falliumore will dictate to the participation in office, all who will not do them reverence? Already was taking parted in Already and the people of the several statemplated in Already and the property of the change which is a several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the people of the several statemplated in Already and the several statemplated in Already and the several statemplated in Already an to rid the councils of these who at

present rule them!

With the proper effort there is every reason to calculate upon success, and we trust, that in a struggle which involves the interest and prespectly of the state, then will be anwilling to discharge their duty.

bark at a moment's warning.

WILLIAM TUKESBURY. At about 7 o'clock on Sunday evening, David Bias swam on shore from the outer head of Wintrop's Bar, to Point Shirley, with information that a boat was stranded on the outer end of the Bar, and that four men and a boy were on the wreck, the sea constantly breaking over them.

This information was immediately communicated to Mr. T. at Deer Island, by his son, Mr. Abijah Tukesbury, from Point Shirley .-They immediately manned 2 whale boats, that were at the Island, belonging to a person who was curing fish there, and providentially suc-ceeded, about of bock, in rescuing from death four men and a boy .-The boy had placed himself on the shoulders of one of the men, who kept him in that position, although wave after wave passed over them.

In their perilous situation, when hope seemed to have deserted them, and almost exhausted by the terrors of the watery element, and the darkness by which they were surrounded. ness by which they were surrounded, their cries were neard, and the fear- and fortunately rose up in armsless and humane hand of was stretched out to their relief. they were brought to the shore, and through the kind and hospitable treatment of this generous man aided by his family, they were with

difficulty restored to animation. This is the third instance, within three months, that we have had the pleasure to record similar acts of heroism and humanity performed by this excellent citizen-and we state with pleasure, that, with the number saved on Sunday evening, twenty one of our fellow creatures owenthe prolongation of their existence, under the smiles of Heaven, to his benevolent and skillful exer-

tions. The frequent hazards to which Mr. I. exposes himself, whenever an occasion offers in which he can render a bervice in the cause of huparticipation in office, all who will not do them reverence? Already we are told of the changes which are to be made in order to toward the partizans of democracy. Every puny whipster can ascertait for us who is to be in, and who is to go out. And yet, forsooth, there is no valid reason, why federalists should struggle to rid the councils of these who at the whale boats were at the island—had they not been, in all human promanity, may, we fear, deprive society of one of its valuable members. bability the men rescued on Sunday evening would now be the tenanta

of a watery grave. A subscription has been opened to raise the means-to build a suitable Box is a present to Mr. Tukes-bury. It is understood that the and esteem of those who knew her,

pers have been received from Cadis, stated to be copies of two representations addressed, on the 11th inst. from the Isle of Leon the Cortes and to his Majesty, by the Officers at the head of the Army of Observation of Andalusia, Gens-Riego, Lopez de Banos, and Arcoss Aguero. The representations here directed against an order for the breaking up of that army, which was lately transmitted by the War Minister to the Captain General of the Province. This measure the three Generals conceive to be fraught with danger to the country, to the King, to the Army, and to themselves, upon the following grounds, viz: that the Cortes have scarcely set about the ardnous and important task which they are to go through; that none of the given Delinquents of 1814, or of March last in Cadiz, have y t been punished :- that the fundamental law of the State and the public sucurity are threatened by Associations which meet with protection abroad, and by disturbances at home which are combined with the criminal machinations just alluded to in foreign countries; -that neither the National Malitia, nor the new system of finances is yet organizedthat not one of those reforms, which are likely to excite so much discontent among the wealthy and powerful classes, has been so much as commenced; and, that the Constitutional Institutions have not acquired that stablity which time alone can confer upon them, with the as-sistance of a partecting force, capable of defeating the attempts of the disaffected, whose number cannot but increase upon the introduction of an order of things so different from that which has lately been laid aside. Under these circumstances. and taking for granted that the operations of the ministry, are directed by a hostile hand; that the him has been imposed upon; and that an order, pregnant with such ruinous consequences, has been issued without the knowledge of the Cortes, at the suggestion of weak, if not ill designing advisers, who wish to be rid of an army which is his Majes. ty's shield, and to dislodge it from a position which they dread to see remain; the generals, trusting, that the services, which they and their troops have rendered to the country, will prevent their intentions from being misconstrued, or their patrio-tism suspected; request, this majesty will be pleased to pend
