## WRYLAND GAZETTE AND POLITICAL INTELLIGENCER

ANNAPOLIS, THURSDAY, DECEMBER 14, 1820.

No. 45.]

IN COUNCIL,

Annapolis, December 4, 1820.

tran of the Senate, and Gentlemen of the House of Delegates, The time having arrived when you are assembled for the The time marine legislative duties, we avail ourselves of the demance of the second to lay before you an account of such proceedings hat period by us, in relation to the several subjects to hate been adopted has been directed by the legislature at its last

Freeding the resolution relative to the claim of Richard Activating the President Leaving to the Calmi of Richard Activation we determined, upon a full and particular investigation of the nature and value of the services rendered, for which of the nature and value of the services renuered, for which seems asked, that he was entitled to the sum of one and dollars. This we deemed a sufficient renuneration for which cought to have been supplied to the sum of t sork done by htm, which ought to have been performed by predecessor in office, who has since paid the same into the is proceed to be issued against him in the event of his failing so to do. Rothing has been done under the resolution having reference date debtors, no application having been made to this depart-

at for the benefit thereof. the transmission of Conformably to the resolutions directing the transmission of Conformation of the United States, and can literary societies therein mentioned, as also the Baltimore party Company, we have sent to the department of state of the Line States two copies of Kilty's compilation of the laws of state, and two copies of the new compilation; to each of the grary societies in Pennsylvania and Massachusetts, we have car, escape set of each compilation of said laws, and to the blimore Library Company one set of the last compilation; the ript of all the above mentioned books has been acknowledged has department, with the expression of thanks to the legisla-

Toder the resolution relative to the total or partial extinguishthe loans made to this state in the years eighteen hundred nd oranteen, and eighteen hundred and eighteen, by the Far-Bank of Maryland, and sundry banks in Baltimore, we bing received information from the treasurer, that the finances the state, independent of the debt due from the general governand account of disbursements of monies by the state, for poses of defence during the late war, were adequate, after wing a sufficient surplus in the treasury, for ordinary purposes, truckarge and satisfy the loans due to the banks in Baltimere. pricipal and interest, passed an order that the treasurer should, without delay, extinguish the said loans by the payment of the macipal and interest due thereon, amounting in the whole to the and thirty-one thousand and sixty dollars. No part of the had due to the Farmers Bank of Maryland has been discharget; the officers of that institution preferring that the monies which could be spared out of the treasury, should be applied in the manner abovementioned; and that payment of the debt due by the state to them, should be postponed to a future period.

The resolution directing the executive to have printed and disributed, four hundred copies of the election laws to the justices the lery courts, has been complied with, and the proportion witto each county was regulated by the number of districts: that is to say, one copy was sent to each judge of every election istrict. Finding the number of copies directed to be printed nore than sufficient to supply the judges of elections, we sent three to each county, and there are now in this department, twen-

there copies, of which no disposition has been made. For the information of the people, the law relative to the stay executions has been printed in such and so many of the public respapers, as we deemed sufficient to give it general publicity. nd an authenticated copy forwarded to the clerk of each of the

omly courts of this state. In pursuance of the resolution relative to the purchase of an agine and hose for the security and protection of the public proerr at the seat of government, we ordered the treasurer to pay bthe mayor of this city the sum of one thousand dollars, which as been appropriated to the above mentioned purpose, as far as trould suffice; the residue of the purchase money, according to be tenor of the resolution, has been furnished by the corpora-

Copies of the resolution of the legislature concerning the purbase of a suitable portion of territory on the African coast, as a reliement for such free people of colour as may be willing to go Wither, and the supply of the means by the general government for their transportation, and also copies of the resolution relative othe claims of the surviving officers engaged in the service their country during the war for our independence, have been test as directed to our representatives and senators in the conper of the United States, communicating to them the desire of the general assembly, that their best exertions should be used for the purpose of obtaining such laudable and important objects.

The resolution requesting the governor and council to direct e district afterney for Baltimore City Court, to take immeditely such legal measures as he may deem necessary to enforce deexecution of the provisions of the act laying a tax on brokers adlettery office keepers, has been duly attended to, and the said Marney instructed accordingly.

In pursuance of the resolution respecting the claims of the ignts employed in the collection of the public arms, we investirated the several accounts exhibited by them, and paid Benjamin Findle the balance due him for collecting and delivering arms to the armourer at Annapolis, amounting to one hundred and ninetyare dollars and fifty cents; to Alemby Jump. for collecting and Chrering arms to the armourer at Easton, the balance of his actant, amounting to the sum of four hundred and thirty-nine dolha and fifty cents, including fifty-six dollars and fifty cents, for arms delivered by him to the armourer at Easton in 1819; and Colonel Richard Waters the balance of his claim, amounting the sum of seventy-three dollars and twenty-five cents, for colketing and delivering arms to the agent at Baltimore. There being a balance of five hundred and forty-four dollars due to the the from Henry Wayman, of the sum of one thousand dollars advanced to him; after crediting him with compensation for the trus he had collected, and not being able to bring him to a final settlement otherwise than by compulsion, we directed that suit should be instituted against him, which has been accordingly tone. At the eight thousand dollars, appropriated to the purpose of collection the d'ollecting the public arms, have been expended, except the the balance due from Henry Wayman, we have directed the Bether agents to stop the further execution of their functions. Mether an additional appropriation shall be made for the pur-less of collection such as are still in the hands of the militia, it is for the wilding the legislature to determine. We will fur-be remark about this subject, that when the debt due from Henry and many been recovered, it will refund to the state the opinion, and harmony of sentiment at nome, in relation to the and interesting scenes which have fately been netted, and some of which are still acting, upon the moral and the other agents under the resolution of the ability, integrity and patriotism, with which our internal and explanation of the ability, integrity and patriotism, with which our internal and explanation of the ability, integrity and patriotism, with which our internal and explanation of the ability, integrity and patriotism, with which or internal and explanation of the ability, integrity and patriotism, with which our internal and explanation of the ability, integrity and patriotism, with which are still acting, upon the moral and the state of the control of the ability, integrity and patriotism, with which our internal and explanation of the ability, integrity and patriotism, with which our internal and explanation of the ability, integrity and patriotism, with which our internal and explanation of the ability, integrity and patriotism, with which our internal and explanation of the ability, integrity and patriotism, with which our internal and explanation of the ability, integrity and patriotism, with which are also account to the action of the ability, integrity and patriotism, with which are also account to the ability of the action of th

twenty-five cents.

In virtue of the resolution authorising and empowering the governor and council to cause the arms and accourrements in the several arsenals on the western and eastern shores to be cleaned and repaired, under the direction of this department, we have caused the number of two thousand six hundred and seventy, to be cleaned and put in complete order, and four hundred and soventy to be repaired; the sum appropriated by the legislature not being adequate to defray the expense incurred in effecting the object of this resolution, there remains due to the armourer at Annapolis, for his services, the sum of four hundred and seventy-tydollars and fifty cents, to pay which a further appropriation will be necessary. There are still in the said arsenals one thousand one hundred and twenty-seven stand of arms, which want cleaning, and cleven hundred and twenty-five wanting repairs. As there are also eight hundred and seven stand which are in such bad order as not to be worth repairing, we would submit to the general assembly the propriety of authorising the sale of them. and of making a further appropriation for the purpose of putting the whole of those deemed worthy of repairs in complete order.

During the late war, it was deemed necessary by the executive authority of the state, to appoint an agent to reside in Baltimore. whose duty it was made to take care of the arms entrusted to his custody, and to deliver out the same as occasion might require. Since the termination of hostilities, the agency has been continued, though for a time without salary; but as the militia of Baltimore are fully supplied with arms, and those there deposited will be taken care of by the armourers at Frederick-town and at the seat of government, and the salary of the late agent at Baltimore, and the expense of storage, will be thereby saved to the state, we have dispensed with his further services, and have caused the arms to be placed in the armouries in Frederick-town, and in this

We have forwarded to the governor of Pennsylvania a copy of the law incorporating the Octorara Navigation Company; and have caused the several acts of assembly, repealing certain parts of the constitution and form of government, to be duly published, also the act empowering the judges of elections to administer oaths in any enquiries which they may deem necessary touching the right of suffrage of any person offering to vote.

Under the resolution relative to the appointment of commissioners to view and inspect the United States turnpike road running through Allegany county, we have filled up the vacancies occasioned by the resignation of two of the former commissioners, with the names of Jesse Tomlinson and George McCullock, Esquires, who have not yet made any report of their proceedings to

We deem it proper now to draw the attention of the general as sembly to the situation of the claims of this state upon the government of the United States, for monies disbursed during the late war, for purposes of defence against the common enemy.-The national authorities have assumed the reimbursement to the state of the sum of one hundred and fifty-six thousand nine hundred and ninety-seven dollars and sixty-seven and an half cents, expended in the payment of the militia, so far as the necessary vouchers for the same should be presented; for that sum, in the first instance, the requisite vouchers were produced, according to the views of the third auditor of the war department, except a balance of twenty thousand nine hundred and eighteen dollars and fourteen cents, which was suspended for want of such proof as he deemed necessary. Of the sum of one hundred and thirty-six thousand nine hundred and ninety-five dollars, ninety-seven and three quarter cents, expended for rations and other necessary purposes, the reimbursement of which to the state has been assumed by the general government upon the production of proper vouchers, all was allowed except the sum of eighty-eight thousand six hundred and seventy-seven dollars, which was suspended by the third auditor to the department of war, until the vouchers required should be transmitted, and the further sum of eleven thousand eight hundred and forty-eight dollars and forty-three cents, which was rejected as inadmissible upon principle. Since the suspension of these two sums, a letter has been received from the above mentioned officer, communicating the information, that he has audited the accounts, and that according to his report, there is a balance due the state of ninety-four thousand seven hundred and ten dollars and twenty-one cents, which report has been laid before the second comptroller of the treasury for revision. The state has received, on account, the sum of one hundred and eighty thousand dollars; and the sum of fifteen thousand one hundred and submitted to the better judgment of the legislature sand nomers, and the sand twenty-five cents, has been rejected as inadmissible upon principle, which item is formed in part by the tion of this important duty, and every other trust sums rejected in the account for payment of the militia, and the account for the purchase of rations and other articles. Thus it appears, that of the entire claim of the state against the general government, there remains only the sum of nineteen thousand two hundred and eighty-three dollars and forty-six cents, which has not been allowed.

Entertaining a high and well merited confidence in the head of the war department, and believing that he feels every disposition to do us ample justice, we cherish the flattering expectation, that nearly all, if not the whole of our claims, will ultimately be allowed. Accounts of other expenditures during the late war have been placed in the hands of the state's agent, which he will present to the general government for allowance and payment, so far as the payment thereof may be deemed right and proper. To Mr. Pinkney, the clerk of this department, much praise is due for the great industry and ability with which he has drawn light out of darkness, and extracted system from chaos, in so arranging the vouchers and proofs of some of our claims heretofore suspended, as to obviate the objections of the accounting officer, and render them ultimately admissible; it was a work of great labour and difficulty, on account of the confusion in which they were involved, and could only have been accomplished by unwearied perseverance, untiring efforts, and a warm feeling of devotedness to the interests of the state.

Of the great importance of education, and a general diffusion of knowledge in a government constituted like ours, you, gentlemen, are no doubt deeply sensible; for "in proportion as the structure of a government gives weight to public opinion, it is essential that public opinion should be enlightened." Under this impression, you will no doubt take especial care, as far as our resources are adequate, to foster the interest of science, by charishing and supporting literary institutions for the cultivation and improvement of the human mind; for under every form of government, the intellectual wealth of a nation is of great and primary importance to the advancement of its happiness, prosperity and welfare. We congratulate the general assembly upon the happy posture of our foreign relations, and upon the general union of

last general assembly, except a balance of sixty-four dollars and ternal affairs have been conducted. The general prevalence, of such spinions, and such sentiments, is the highest reward, which our able and virtuous chief magistrate, and those associated with him in the management of our national cuncerns, can receive at the hands of a free and an enlightened people; stands ing muon this high and exalted eminence, in popular opinion, scarcely a speck of party has been visible in his re election to office.

It is an abundant cause of gratitude to Almighty God, that during the current year, we have been assailed but by a small portion of those calemities and misfortunes which so frequently fall to the lot of suffering humanity. Our principal commercial city has been happily free from the dreadful visitation, with which it was afflicted by the hand of an awakening Providence during the last year; and the earth has been-unusually liberal, throughout our state, in the product of the most necessary and indispensable articles of our home consumption. This bountiful dispensation of an all wise and good Providence, has considerably mitigated the pressure of our pecuniary difficulties, arising from the depressed state of our foreign commerce, and from other local causes. In aid of this dispensation, alike advantageous to the individual interests of the people and the commercial prosperity of our state, we respectfully beg leave to recommend to our fellow citizens, a laudable spirit of economy in all their expenditures, and the encouragement of those manufacturing interests established throughout our land, which can only exist and flourish by the fostering support of the commu-

Upon the subject of internal improvements, we would only remark, that while our sisterstates, by the means of creating and increasing the facilities of navigation, and transportation by land, and by calling into action all their physical advantages, are endeavouring to draw within their bosoms the wealth . of the extremities of the union, we ought not to be unmindful of the great benefits which are to be derived from the adoption of such a policy. As connected with this consideration, we take the liberty of calling the attention of the general assembly to a subject of great importance to the interest of our state. It is generally understood to be in the contem plation of the government of the United States, to cstablish at this place, a depot for provisions, and other articles necessary for naval purposes; this alone would be of great benefit and importance, if not to the whole, certainly to a very large portion of our state, by opening an additional market for vending such articles as the public wants might require; but if an object of still higher importance, which has for some time occupied the public mind, could be obtained; if the constituted authorities of the union should deem this a proper place for the establishment of a Naval Depot, where our ships and vessels of war would rendezvous, when wanting repairs, or not engaged in actual service, or on foreign voyages, it would be to our interest and prosperity a great and splendid acquisition, which so far/from being local in its effects, would be sensibly felt in every vein and artery of our state. Under this impression, the legislature a session or two since, authorised the expenditure of twenty-five thousand dollars, for the purpose of removing an impediment to the entrance into Severn River, arising from a bar which has been formed some little distance from its mouth. The restriction imposed upon the executive in this resolution, is of such a nature, as to prevent any measures being taken towards the accomplishment of this important object, until such assurances are received in relation to the establishment of a Naval Depot, at this place, in the event of the bar being removed, as perhaps, it would be difficult, if not impossible, to obtain. Whether this restriction ought to be qualified, or altogether removed, or what other measures upon this subject should be adopted, it is judgments we conceived to be best calculated to conserve the general interest of the state; and if the course which has been pursued should not meet the. approbation and sanction of all, the only merit we presume to claim, is the credit of having acted with upright views and honest intentions.

The portrait of the father of his country, and his companions in arms, which adorns the walls of the house of delegates, having become considerably defaced by the hand of time, we employed Mr. Raphael Peale, who was on a visit to this city, in the prosecution of his profession, to restore it. as far as was in the power of his distinguished skill, to its original freshness of appearance, and strength of colours; which he has done for the moderate compensation of twenty dollars. This we deemed propers although we knew that his memory was not to exist by the aid of perishable canvass alone, but will continue to live as long as time shall last, in the hearts of his grateful countrymen, and the veneration and

applause of an admiring world. It has been our fortune to live at a period, which has been marked by the most awful struggles and convulsions in the old world, and although the spectacle which Europe at present exhibits, is not as sanguinary and distressing to the feelings of humanity as it was a few years past, when the different national of that quarter of the world, were marshalled in line. tile array against each other, yet there is abundant reason to believe, that the minds of the people, in many instances, are greatly dissatisfied with the internal condition of their affairs, which has prompted from to the adoption of measures and proceedings in some countries, which seem to menace the duration of their fundamental laws, and most important political institutions. We advert to those solenm and interesting scenes which have lately been acted,
