Implements of Husbandry.

I have on hand and intend keeping a constant supply of the following implements, to wit:

5 different sizes of Ploughs, made of the best materials and workmanship, and on the plan most approved of in Pennsylvania, having no cast iron about them except the mouldboard, and any part of the wrought iron easily repaired by the most common smith, without the trouble of taking the plough to him—price from 16 to 176.

5 sizes of the Cary Plough, made in a substantial manner, and I will insure them to run as well as any that has been received from Connecticut, and at the same prices.

1 of Bennett's Patent Drills, well known in Scotland, England, and some of the Eastern states, as a very valuable machine to sow clover, turnips, and other grass seeds. By the regularity of its sowing one fourth of the seed and labour may be saved and no stoppage on account of high winds—price \$25.

1 Patent Drill Machine, which opens the mellow ground, and drops corn, beans, peas, turnips, and most kinds of garden seeds any distance apart required—price \$15.

1 Patent Hillside Plough, which will be very valuable in ploughing on hill sides, as it is so constructed as in going and coming it will always turn the furrows down hill by altering the share and mouldboard at each end, which can be done in about ten seconds, and by that means avoid the loss of time in returning empty—price 20 to 25\$.

1 Double Mouldboard Plough, of small size suited for striking out the ground for tobacco hills, cultivating the same and vegetables, opening water furrows, &c.

1 Machine for Shelling Corn, which for simplicity of construction, durability, and quickness of despatch, surpasses any thing of the kind yet invented, as one man and boy can shell 15 to 20 bushels per hour—price 25 to 25\$.

I expect to have a Machine finished in a few days that will sow plaster, or plaster and clover seed mixed, with great regularity, of which due notice will be given.

The following articles will be made to order: A Drill to drill wheat, a Machine called the Hay Maker, Hinge Harrows, Cultivators; Scufflers and Hay Rakes.

Any orders directed to me will be promptly attended to, and thankfully acknowledged by, Robert Sinclair, Opposite Eilcott's Wharf, Baltimore. 1mo: 1821. law
