**Implements of Husbandry.**

I have on hand and intend keeping a constant supply of the following Implements, to wit:

5 different sizes of Ploughs, made of the best materials and workmanship, and on the plan most approved of in Pennsylvania, having no cast iron about them except the mouldboard, and any part of the wrought iron easily repaired by the most common smith without the trouble of taking the plough to him—price from 16 to 17\$.

5 sizes of the Cary Plough, made in a substantial manner, and I will insure them to run as well as any that has been received from Connecticut, and at the same prices.

1 of Bennett's Patent Drills, well known in Scotland, England, and some of the Eastern states, as a very valuable machine to sow clover, turnips and other grass seeds. By the regularity of its sowing one fourth of the seed and labour may be saved and no stoppage on account of high winds—price \$25

1 Patent Drill Machine, which opens the mellow ground, and drops corn, beans, peas, turnips, and most kinds of garden seeds any distance apart required—price \$15.

1 Patent Hillside Plough, which will be very valuable in ploughing on hill sides, as it is so constructed as in going and coming it will always turn the furrows down hill by altering the share and mouldboard at each end, which can be done in about ten seconds, and by that means avoid the loss of time in returning empty—price 20 to 25\$.

1 Double Mouldboard Plough, of small size suited for striking out the ground for tobacco hills, cultivating the same and vegetables, opening water furrows, &c.

1 Machine for Shelling Corn, which for simplicity of construction, durability, and quickness of despatch, surpasses any thing of the kind yet invented, as one man and boy can shell 15 to 20 bushels per hour—price 25 to 35\$.

I expect to have a Machine finished in a few days that will sow plaster, or plaster and clover seed mixed, with great regularity, of which due notice will be given.

The following articles will be made to order; A Drill to drill wheat; a Machine called the Hay Maker; Hinge Harrows; Cultivators; Scufflers and Hay Rakes. Any orders directed to me will be promptly attended to, and thankfully acknowledged by,

**Legislature of New-York. GOVERNOR'S MESSAGE.**

THE HONOURABLE THE ASSEMBLY. [Continued from our last.]

The letter of Mr. Van Buren, ducced, the removal of Messrs. Amberlain and Smith, two of the masters mentioned in it. It is mentioned that Mr. J. R. Drake, then a member of Congress, interfered vigorously against a post-master officiously out of his district. And it is evaded that the removal of Mr. Howard, whose case will be hereafter mentioned, was a accomplished through his instrumentality: It appears that Mr. Drake cultivated a acquaintance when in Washington, sufficient not only to injure men much more respectable than himself, but to secure a contract with the government which he considered of consequence. Mr. Howell kept in his office by a personal acquaintance with Dr. Bradley of general post-office, who very liberally exerted himself to continue the services of this excellent officer for the benefit of the department. Mr. Holt was not removed until the 7th of December last, after the resolutions of a party meeting marked DD, held on the 30th of November last, were forwarded to the master general. It is said by post-master general, that Mr. Howell was considerably delinquent, failed for a number of quarters under his accounts according to the general post-office, who very liberally exerted himself to continue the services of this excellent officer for the benefit of the department. Mr. Holt was not removed until the 7th of December last, after the resolutions of a party meeting marked DD, held on the 30th of November last, were forwarded to the master general. It is said by post-master general, that Mr. Howell was considerably delinquent, failed for a number of quarters under his accounts according to the general post-office, who very liberally exerted himself to continue the services of this excellent officer for the benefit of the department.

In order to establish the reality of this reason, the application removal ought to exist in every case; but an intimation has been publicly and repeatedly made of great delinquency, and no notice has been taken of it; and I am fully mistaken if many cases do exist where the returns required by law have not been duly made, which have, notwithstanding, passed over without animadversion.

The papers marked EE, probably in the true statement of this nature. The papers marked GG, respecting the removal of the post-masters at the Little Falls; and the affidavit of the Honourable Robert Will and Joseph S. Lyman, marked HH, will illustrate the general character of the transactions. On the 5th April, 1820, Mr. Stephen Leonard was removed from the office of post-master at Owego. The following, to wit: Post Office Statement, 15th April, 1820,—four being a mail contractor, the only printer in the place where you reside, it is considered your holding the office of post-master, gives you an undue preference over other citizens and principally not justified by the usual practice of this department. With your object as post-master I am well acquainted. Respectfully, yours, &c. Meigs, jr.—Stephen B. Leonard, Esq. The report of the post-master general, marked III, made at present session of Congress, states that there are 58 post-masters who are at the same time contractors for carrying the mail; and it is well known that in three important cities, the post-masters are at the same time proprietors and publishers of newspapers; and it cannot be presumed that the circumstance of Mr. Leonard's being the printer in Owego, would increase the force of the general objection. In this case there would be an immediate rival establishment, he would be interested in favour, every attention will be paid to accommodate Travellers.

The case of Mr. Leonard is particularly mentioned in the paper marked II. The documents marked KK, LL, MM, and NN, are illustrative of the other proofs, which exhibit some interesting views on this subject.

There are in all probability thousands of equal if not greater turpitudes which cannot be exposed, on account of the peculiar situation of individuals, dependent for their livelihood, in maintaining silence, and in concealing abuses, dependent of screening personal or political friends, averse to encounter the imputation which will ensue—alternative of personal injury from
