New Arrangement of Days.

THE STEAM BOAT MARYLAND,

will continue to run as heretofore until the last day of the present month. But afterwards she will take her routes as follows: On Sunday the first of April, she leaves Easton at 8 o'clock, and will proceed to Annapolis, leaving there at half past 2 o'clock, for Baltimore, and arrive at 6 o'clock the same day; leaves Commerce street wharf, Baltimore, on Wednesday at 8 o'clock, and returns by Annapolis to Easton at 6 o'clock, the same evening; and so leaves Easton at the same hour, and by the same route, every Sunday and Thursday, and leaving Baltimore in like manner, every Wednesday and Saturday. In every route she will touch at Todd's Point, the Mills and at Oxford, if hailed, to take and land passengers. On Monday of every week she will leave Baltimore at nine o'clock for Chestertown, and arrive there in the afternoon; and on Tuesday morning leaves at 9 o'clock Chestertown and returns to Baltimore; touching in both routes at Queen's town, to take and land passengers. She will take freights from and to the respective places above mentioned, so as not to inconvenience the passengers, their Horses or Carriages. Passengers wishing to go to Philadelphia will find it the most convenient and expeditious route, as she meets the Union line of steam boats, when they can be put on board, and arrive in Philadelphia the next morning by 9 o'clock. All baggage, of which due care will be taken, will nevertheless be at the risk of the owners as heretofore.

FEMALE ACADEMY.

At the request of the Misses Marshall, we attended on Monday last the public examination of the pupils in their Female Academy, and were much gratified with the result. The several classes underwent a strict and careful examination—calculated by its manner not merely for a public exhibition but to try effectually the extent of their knowledge. It would be useless to name the classes or the individual young ladies who distinguished themselves in this examination. All of the classes gave the most satisfactory proof of their own industry, attention and improvement, and of the care and skill of the ladies by whom they have been instructed.
We make this publication as an act of justice to the respectable and deserving ladies who have established among us this useful Seminary, and who have so conducted it as to merit a large share of the public patronage.

Fifty Dollars Reward.

Ranaway from the subscriber, living near Brookville, Montgomery county, Maryland, on the 31st July last, a **Negro Man** who calls himself
JOHN TRIP,
Aged about 19 years; thin face and high thin nose, light made, straight black, and very active, looks down and stammers when spoken to, about five feet eight inches high, had on a cotton shirt, old hat and linen trousers.
He was raised on the Eastern Shore near Cambridge, and will probably endeavour to get there by the way of Baltimore or Annapolis. I will give the above reward for securing said negro, if taken out of the state, so that I get him again, and Twenty Dollars if taken in the State, and in either case I will pay all reasonable expenses if brought home.
Ephraim Gailher,
N. B. All owners of Vessels, and others, are forewarned from receiving, harbouring, or carrying off said negro at their peril, as they will be dealt with according to law.

50 Dollars Reward.

Ran away from the subscriber living on the head of South River in Anne Arundel county, on the 4th day of September instant, a **Negro Man** named **Bill**, about 25 or 26 years of age, five feet four or six inches high, a scar above each eye, also one between the fore finger and thumb of the right hand, has a long head, large teeth, pleasant countenance, active and intelligent for a negro. Had on a grey coat, with black buttons, the covers nearly worn out, the coat patched at the elbows, with new cuffs, unken waistcoat with black buttons; he has no doubt changed his clothes. I am induced to believe he has been enticed away by a young white girl, about 15 years of age, with whom it appears he has been on intimate terms. He took with him a dark bay Mare, saddle, bridle, and saddle bags—the mare has a star in her forehead, and a small snip on her nose—paces, trots and gallops, two hind feet white above the hoof, also the fore right leg white. Thirty dollars will be paid for the man and mare, if taken in the state—if out of the state, the above reward, if secured so that I get them again.
RICHARD TUCKER,

50 Dollars Reward.

Abandoned from the farm of **Mrs. Sarah Clements**, on the South side of Severn River, near Annapolis, on the 8th instant, a **negro man** named
JACOB,
He is about 5 feet 9 or 10 inches high, and his person though slender is muscular; his colour is not remarkably black nor lighter than usual; he has a stern, suiky, bold expression of countenance; speaks promptly when spoken to, and is rather more intelligent than plantation negroes generally are; his motions indicate considerable activity and strength, and he walks remarkably fast and with great ease to himself. He has large nostrils and a flat nose; has lost two of his front teeth, and has a small scar on his left hand just below the third finger. He has a wife living in Baltimore named **Leah**, the property of **Mrs. Cave's W. Elder**, whether it is likely he has gone. The above reward will be paid to any person who will deliver the said slave to the subscriber at the before mentioned farm, or who will secure him in the Annapolis goal.

FEEDING STOCK.

As a further improvement in feeding of cattle, I would recommend the shucks to be well wet with brine, as they are stowed away in the fall. This was recommended to me the last winter, and was done in this way; as many shucks were thrown in the house at a time; as would raise it six inches; after being well trod down; and as soon as they were sufficiently trod, the surface was well sprinkled with brine, as many more were then put in, and the same process observed, until the whole were put away. In this way one bushel and a half of salt were applied to the shucks taken from a hundred bushels of corn, and the consequence was, my shucks were heartily eaten by my cattle, and until last winter, they never would eat them, as long as they could get peas vines. This is not all the advantage resulting from salting them; it was very evident that they were rendered much more nourishing, as the dry cattle which were fed on the shucks alone, were in nearly as good order as those which were fed on the vines. To do this properly they should be made so wet as to heat and mould. The expense need not be counted at all, as cattle, while those shucks are given to them will require no other salting.

As there is so little economy observed in fattening hogs in this part of the country, I beg leave to notice the subject, and point out a better and cheaper mode.

The common practice is to put them in a large pen and throw the corn on the ground, in wet season they are soon up to their knees in mire, and not a dry spot to lay on. In this situation there must be much corn wasted, and they cannot possibly thrive but very slowly. My practice has been to make two square pens adjoining; they are both floored with rails, and one of them is so covered as to turn the rain and is well littered with leaves or straw, and fresh litter added at least once a week. In the other pen a trough is placed in which they are fed from twice to three times a day. One meal they are fed on peas, and the other two on corn; it is sometimes boiled and well salted, and at other times raw.—This has been my practice for three winters; and my hogs have always fattened very fast and ate much less than those fed in the uncomfortable manner above described.

Last winter after killing off half of my fattening hogs, the others were fed altogether on fine corn meal, and although the weather had got much more severe, they fattened much faster than they had done before, and ate much less.

Last winter when my fields were cut, I commenced feeding my little stock of out hogs on corn; their allowance was six quarts; but when the weather became severe, they fell away fast on this allowance. I then laid the corn aside, and had four quarts of corn meal boiled every day, ten gallons of water, until it boiled down to about eight; in this a half pint of salt was occasionally thrown while boiling; when done it was taken up in a large tub, and given them the next day, and in one week from the day this practice was adopted, they looked much better, and from that time increased in flesh. When the spring opened, they were fed only three times a week, in the same manner, and in the month of May, reduced to twice a week; and by the middle of June, it was discontinued. Had I persisted in giving them the six quarts of raw corn, I am satisfied more than half would not have seen the spring. I have also adopted the practice of grinding all my horse corn to fine meal, and find that I save a third when paying the mill.

L. D. GALLARD,
