Tran the Federal Republican. To the People of the United States.

Having in my two last communiations to you, called your attentin to the conduct of our executive ulers relative to the illegal contract made with col. James Johnton, of Kentucky, for the transportation of troops and provisions up the Missouri river; to the exorbicant and unconstitutional advances of the public money to that individual; & to some of the consequencs which have already flowed from hese iniquitous proceedings, I now ke the liberty of bringing to your view some other facts relating to he War department, from which ou may be enabled to form an opiion for yourselves of the "wise ystem [I quote the words of the ourt paper-the National Intelligencer, as used the other day] of reponsibility, of competition and economy, so happily introduced by the present Secretary" into that depart-

By the statement which I shall ow make and exhibit to you, it will be perceived, that the public functionaries have without right or authority seized upon the public property and public money of the nation entrusted to their care, and loaned or given the same to indivifuals-but for what consideration s, as yet, a profound secret: No one can know that except the parties

directly, or indirectly, concerned.
1. To George W. Murray, of New York, there was loaned of lead belonging to the United States the quantity of 23 tons, 2 qrs. and 10

2. To the same G. W. Murray, there was subsequently loaned of lead belonging to the U. States the quantity of 28 tons, 4 cwt. 3 qrs. and 4 lbs. This property thus illegally loaned has not been returned; nd although the loan was made several years ago, no steps appear to have been taken by the government to recover back the property or the

alue of it-and Murray is now understood to be insolvent. S. There were loaned at the city of Washington, to Messrs. Stull & Williams, 600 barrels of musket powder, containing sixty thousand pounds-value 21,600 dollars. Out of the 600 barrels of powder loan-

ed 200 barrels only appear to have

been returned by Stull & Williams. They became insolvent. 4. To one Daniel Bussard, of Georgetown, D. C. there was loaned or advanced by the present Secretary of War, the sum of ten thousand dollars "to enable him to erect works on Point Creek, suitable for manufacturing powder." This loan of the public money to Bussard, for three years, and 'without interest,' was to enable him to make good the deficiency of Stull & Williams, with whom he was originally concerned. He had, however, in February last, delivered but 187 barrels of powder on account of Stull & Williams. For the 10,000 dollars loaned to him, without interest, he has promised, within three years from the date of the loan to deliver, on his own account, 40,000 pounds of pow-

5. To Messrs. Dupont, de Nemours & Co. of Wilmington, Del. there were loaned in June, July and August, 1817, the enormous quantity of three thousand five hundred and twenty eight barrels of powder, containing 352,902lbs. This unlaw ful loan appears to have been made by lieut, col. Bumford, with the conent or by the direction of George Graham, then acting secretary of war, now President of the U. States Branch Bank at Washington cityand doubtless, with the privity and consent of his particular friend ames Monroe, President of the United States, whose constitutional duty it is, to "take care that the aws are faithfully executed." The considerations which induced this can of the public property are not generally known. Certain, howeer, it is, that the government, or he country, has received no pecu-
