COLUMBUS, OHIO, DEC. 12.—The mail from Zanesville, on Thursday last, is supposed to have been lost, and the carrier drowned in the Big Walnut creek, seven miles east of this place. The circumstances are these, and it is from these only, that the conclusion is drawn of its having been thus lost. The weather being extremely cold, the carrier, an elderly man, by the name of Fry, had stopped in the afternoon at a tavern, about a mile on the other side of the creek, since leaving which he has of the creek, since leaving which he has not been seen. His horse was found on Saturday morning on this side of the creek, with evident marks of having been in the water, ice being on and about the saddie. The creek was not too deep to ford at the usual place of fording, but was very full of ice and much frozen on each side, and entirely over immediately below The mail nor the carrier have not yet been found, though considerable search been made, and we understand many of the citizens of this place and those of the neighbourhood where the accident is supposed to have occurred are now in search

The nature of the climate in New York at this season of the year, affords an easy way of proving the quantity of water with which the milk may be diluted. Put a tumbler full in a situation exposed to the at-mosphere; as milk and water freeze at difterent temperatures, they will therefore separate in the act of freezing, and the quan tity of each can be easily ascertained.

This experiment, it is said, was first made by one of the Fellows of Trinity lege Cambridge. He refused to pay a larger proportion of the Milkmaid's weekly mand, than the proportion of pure milk a mounted to, wisely remarking, if he had wanted the water he could have added it

At Hamburg there is an annual festival. in which troops of children parade the streets, carrying green boughs, ornamented with cherries, to commemorate a remarka-ble incident, which occurred in 1432 When the Hussites menaced the city with immediate destruction, one of the citizens proposed that all the children from 7 to 14 years of age, should be clad in mourning and sent as supplicants to the enemy Procopius Na-sus, the Hassie Chief, was so touched with this spectacle, that he received the young supplicants, regaled them with cherries and other fruit, and promised to spare the city. The children returned crowned with leaves, holding cherries, and erging Victory.
