It is therefore, respectfully proposed, that the Commissioners of the Sinking Fund be authorized to purchase the seven per cent. stock, during the ensuing year, at the following rates above the principal sum purchased:

1. For all stock purchased before the 1st of April next, at a rate not exceeding \$1.25 on every \$100, in addition to the interest due on such stock on that day.

2. For all stock purchased between the 1st of April and the 1st of July next, at a rate not exceeding 75 cents on every \$100, in addition to the interest due on the last mentioned day.

3. For all stock purchased between the 1st of July and the 1st of October next, at a rate not exceeding, on every \$100, the amount of interest which would have accrued on the last mentioned day.

4. For all stock purchased between the 1st of October, 1824, and the 1st of January, 1825, the principal and interest due on the day of purchase.

In proposing to the consideration of Congress this application of the surplus means of the years 1823 and 1824, the probable demands upon the government, in providing for the awards of the commissioners under the treaty with Spain, of the 22d February, 1819, have not been overlooked.

It is believed, however, that funds may be advantageously supplied for the discharge of those claims, the issue and sale, at not less than par, of five per cent. stock, redeemable in 1831, and it is respectfully proposed that authority be given for that purpose.

Of the \$10,331,000 of 6 per cent. stock, redeemable in 1825, about \$5,000,000 will probably be redeemed in that year, and there will remain unredemmed, after the application of all the means at the disposal of the commissioners of the Sinking Fund, about \$5,331,000. This sum, it is believed, may be readily exchanged for 5 per cent. stock, redeemable in 1833, and it is respectfully suggested that provision be made, by law, for such an exchange of so much of the 6 per cent. stock as shall not be redeemed during the year 1825.

The views which are herein presented, are founded upon the idea, that no extraordinary expenditure is to be incurred. If, however, it be deemed advisable to give increased extension or activity to the Navy, or to aid in objects of internal improvement, it is believed that such additional means as may be required, may be obtained by a judicious revision of the tariff. Such a measure was recommended in the last annual report, with a view both to the increase of the revenue and the promotion of manufactures, and is respectfully submitted.

All which is respectfully submitted. WM H. CRAWFORD, Treasury Department, December 31, 1823.

NEW-YORK ELECTORAL LAW. A letter to the editors of the New-York American, dated at Albany, Jan. 21, says: "The Committee of Nine met last evening, and, alarmed at the indignation expressed by the press at their late doings, modified their intended plan so far as to provide that two of the electors, who were to be chosen by the Legislature, should be chosen by the 31 when they come together. But observe!-the 34 must be chosen by a majority of all the votes of the people. If not, the whole are to be chosen by the Legislature."

GENERAL JACKSON, has been nominated by a meeting at Salem, New-Jersey, as a candidate for the next presidency.

NEW-YORK. At a meeting of the members of the Legislature of New-York, held at Albany on the 16th inst. there were 23 senators and 71 representatives present. A resolution on requesting the Senators and Representatives in congress from that state to meet in caucus for the purpose of nominating candidates for the Presidency and Vice-Presidency of the United States, was unanimously adopted by the meeting.

There were sixty-three members absent; forty-six of whom, including all the federal and self-nominated members, constitute the whole strength of the opposition to the Republican party."

GIBRALTAR. Advice from Gibraltar to the 3d Dec. have been received in this country. The following vessels are ordered to be ready by the 15th December, to leave Cadiz for the coast of Peru, to aid the Royalists cause; and it is rumored that the French forces in the Pacific are to co-operate Ships, Asa, 64 guns; Arcturion 34; Caulda 31; Descubierta 22; Agules 20.

ANOTHER COMET. For some nights past, after ten o'clock, a comet has been visible in the heavens, in a north-easterly direction. The observations of those who have marked its appearance course, &c. prove that it is not the same which has been recently described in the public prints. Balk. American.

AMERICAN FLANNELS. We have the following statement from a quarter entitled to confidence. The quantity of flannels manufactured within 40 miles of Boston the last year, have exceeded fifteen thousand pieces of 46 yards each, comprising the various qualities and colours usually imported; and the new establishments now going into operation, will manufacture more than thirty thousand pieces the present year. Beside these are others in Connecticut and New-York of considerable extent; and all of them will be sufficient, within eighteen months, to supply the wants of the country. Boston Daily Adv.

The number of deaths in Boston the last year was 1154. Of these 544 were adults, 580 children, 109 still born, and 121 age unknown. Males 531, Females 514. Of consumption 183, fevers 91, old age 29. The number of deaths in 1822 was 1203, & in 1821, 1420.

INDIANA WINE. 15,500 gallons of wine were made in Indiana in the past season by 6 persons only.
