

Hair Restorative

And Preservative Vegetable Cerate. FACTS ARE STUBBORN THINGS. I have now in my possession a certificate from a gentleman to whom reference will be given to those who wish positive proof of the powerful effect of the Hair Cerate.

JOHN LOVE, Sole Agent for the state of Maryland, March 22

Having observed in the Baltimore and Philadelphia papers the wonderful effects the Vegetable Cerate has produced on numbers of persons, and having the misfortune to lose my hair about two years ago, I purchased some of the article and made use of it according to the directions, and in about four months I had an elegant coat of hair, and I can safely say it is one of the greatest discoveries ever made as it respects restoring the hair.

JAMES WOOD, Long-Island, March 25, 1824. I saw in the New York Patriot a remedy for the hair, called the Vegetable Cerate, and being bald on the top of my head, I purchased a box, and after using about three-quarters of it, I perceived my hair coming out; I shaved it off according to the directions, still using the Cerate, and in about three months I had a fine head of hair; I have, therefore, no hesitation in recommending it to the public.

J. GARDNER, New York, March 20, 1824. As I had heard from numbers of persons the great benefit they had received from the use of the Vegetable Cerate, and having lost nearly all my hair, and tried every thing to restore it without effect, I purchased some of the Cerate of Dr. James H. Hart, and continued its use about three or four months, and found it answered the most salutary effects. To those who are desirous of preserving and restoring their hair, I therefore cheerfully recommend it to the public in general in the highest terms.

WILLIAM PATTEN, North-Moore street, March 1, 1824. With the greatest satisfaction, I do recommend the Vegetable Cerate. Having lost almost all my hair, by its falling off, I made use of the Vegetable Cerate and found the greatest benefit, it has cured my hair entirely, not only that, it softens the hair, and gives it a most elegant glossy appearance.

Dr. James H. Hart of New York, is well acquainted with me, and can testify to the above.

ELIZABETH HUGHES. TO THE PUBLIC.—In justice to the discoverer of the celebrated Hair Restorative and Preservative Vegetable Cerate, (which is advertised in this paper) as well as for the benefit of such as may be afflicted with the loss of hair, I feel it my duty to give publicity to the following facts. About four years ago my hair all came out and left my head entirely bald; I used a great variety of means, among which were all the imported oils that are generally used for restoring the hair, to restore it again, without effect. Having seen the Vegetable Cerate last summer, I procured some of it, and after using it about four months, night and morning, my head is now covered with a beautiful and vigorous growth of hair.—It has had the desired effect with me, and I earnestly recommend it to those who have unfortunately lost their hair, as being the only effectual restorative now in use.

WILLIAM SMITH, Of Burlington county, N. J. Newark, March 12,

TO THE LADIES. New York, Varick st, Feb. 20, 1824. As it respects the Vegetable Cerate that has been published in our New York papers for this sometime past, and the many benefits it has produced on various persons, I therefore purchased some of the article to try its effect, and I can safely say, it is the only thing that has ever been of benefit to me, it not only prevents the hair from falling off, but gives the most stubborn hair a most beautiful natural curl, and I highly recommend it to all the ladies in the highest terms.

ANN THEA. The original copies of the preceding certificates, can be seen at the store of Dr. James H. Hart, corner of Chamber street and Broadway, New York.

SHERIFFALTY. ROBERT WELCH, (of Ben.) Still continues to be a candidate for the office of Sheriff for Anne-Arundel county, and respectfully solicits the votes and interests of his fellow-citizens.

MARYLAND AND STATE REGISTER.
