Every Prize payable in CASH, sixty days after the drawing-subject to a deduction of fifteen per cent.

MODE OF DRAWING:-The Numbers will be put into one wheel as usual—and in the other wheel will be rit, the prizes above the denomination of Four dollars, and the drawing to progress in the usual manner. The 20,000 prizes of 81 will be awarded to the odd or even Numbers of ded to the odd or even Numbers of the Lottery (as the case may be) de pendant of the drawing of the capital prize of Farty Thousand Dollars— that is to say, if the 40,000 dollar prize sould come cut to an Odd num-ber, then every Odd Number in the Scheme will be entitled to a \$4 prize. If the 10,000 dollar prize should come out to an Even number, then all the Even Numbers in the Scheme will be each entitled to a prize of \$1.

Old Numbers are those ending with 1, 3, 5, 7, or 9.

Even Numbersare those ending with 2, 1, 6, 8, or 0.

This mode of drawing not only enables the Commissioners to complete the whole Lottery in One Drawing, but has the great advantage of distri buting the small prizes regularly to every alternate number in the scheme. so that the holder of two tickets or so that the holder of two tickets or two shares of tickets (one odd and one even number) will be certain of ob-taining at least one prize, and to the same ratio for any greater quantity.

A ticket drawing a superior prize in this scheme, is not restricted from drawing an inferior one also; (many tickets the efore will necessarily obtain Two Prizes Each.)

The Drawing will take place in the City of Baltimore on Wednesday, the 27th July, and will finish on the same

The Brilliancy of this scheme is Altogether Unprecedented Adventurers will remark the low rate of tickets-the very trifling risk incurred, (there not being one blank to a prize) and that the capital prize of CORTY THOUSAND DOLLARS. magnitude hitherto unprecedented for sosmalla sum invested; above all, however, is the Certainty of Obtaining At Least One Prize by the purchase of two tickets or two shares—(one odd and one even number) and in the same ratio or certainty in the purchase of a greater number of tickets and

Tenders to his friends, patrons, and the piblic generally, his sincers securating among the property of the manificant patronage extended to him in the Fourth Clear of the Marriand State Lottery, and does himself the fleanure now of presenting the Fifth Oless of said lotteries, wherein its calculates, with liberal support, to have the satisfaction of distributing among the adventurers, as be old in the last class, a number of valuable prizes.

oid in the last class, a number of valuable prizes.

The scheme it is expected will elicit ges meral approbation, from the brilliancy of its capitals, the great number of valuable prizes contained in it, and the comparatively low rate of tickets, added to the very superior mode of drawing; combining expedition, connected with an object they last, by far not of the least importance, which is the simplicity of the principle of drawing; being such, as that it is presumed, there is more who can read this, but will tully comprehend it, by the explanawillfully comprehend it, by the explana-tion given in the scheme below. This ad-vantage (by the observations of many) it seems is not apparent to the generality of people in some of the recent devised lotte ries, however otherwise correct they may be in their principles of drawing. In short te in their principles of drawing. In short it is believed, and will no doubt be concided on all sides, that the present Stale Lottery of Maryland, is possessed of all the great essentials of a lottery, viz. A large proportion of prizes in the scheme, according to the number and price of tackets, with simplicity in plan, and despatch in drawing, from which it is presumed, that its extensive patronage will be in a proportionate degree

The certain and punctual payment of prizes is as in preceding Maryland State Lotteries, guaranteed by the State.
