was indicted for an assault and bat-tery upon Miss Maria Rau. The prisoner appeared to be a Swiss or Frenchman, aged about 40, and was mx feet in height. When askin extenuation of his conduct, he in broken English, told a long and curious tale. He stated that he had not come into this wooden country for land nor money, but to get himself a wife. He had resolved when 12 years of age, that no minister should ever marry him, but that the ceremony should be performed in open court before all the people. He had been all over Europe, and the United States and never before he saw Miss Bau, met With a lady that in every point of view, he liked so well as he did her, and he was resolved to marry her. He was at work in a distillery for Mr. Keyser, and he had just been showing a Dutchman how to make geast, when on going home, he entered the house just at the moment when Miss Maria was stooping with her back towards him, when, he stepped up and struck her with his fist, and so enraged her as to bring him to court, that he might then carry his long conceived plan into execution, to make the matter up with her by marrying her. He had already been in prison 4

Miss Maria did not seem to relish the prospect of matrimonial life with such a partner, and such ex bubitions of the tokens of his affect tion. The court after giving him a suitable reprimand, ordered him to be imprisoned for 60 days, pay the tust, &c. and stand; committed. When the sentence was pronounced upon him, he made a low bow to he court and said: "Gentlemen. Judges, I honour your judgment."

> Raleigh (N. C.) Feb. 24. INFLUENZA.

We are concerned to learn, that this disease is very prevalent, and in a number of instances has proved fatal, in the lower counties of this State. We have heard of several deaths in Nash. Edgecomb, Martin and Bertiet some of them after a sickness of a few days only. In Winsor, a negro woman expired at once in a fit of coughing. Persons are variously afflicted; some are taken with pains in the head, face, cars or throats others are seized with pains in their limbs. This disease being somewhat of a new character, the Physicians, we believe, have been at some loss how to treat it. Blood-letting has proved fatal. At the North, we learn, that Calomel, with some active adjunct, is used, and powerful Sudorifics; and when the throat is affected, gargling ought not to be neg-lected. We have pleasure in stating that the some slight catarrhal affections have been experienced, no serious attack of this epidemic has occurred in this city or vicini-

The writer assuming this as fact, wishes a successor nominated immediately. The sort of man wanted for this station, according to the writer, is one devoted to internal improvements a man whose extension of mind will rival De Wift Clinton himself; as Georgia possessch as grei natutural advantages for internal im provement as New York.
