CURIOSITY. There is now in the possession of E Chauncey Woodruff, of this place, a stort found in the village, which is pronounced found in the village, which is pronounced those who have examined it, to be a perfaction of the human head. In fact, the outlines of the organs, and the exact profition of their location, is almost demostrable proof of the fact. The situation the eyes and nose, as regards each other point of locality are perfect—the nose, a though nearly even with the rest of the fact is plainly to be traced, and the nostrik vs. ble—the forchead is in very good kepts with the whole of the stony profile. Or with the whole of the stony profile. with the whole of the stony profile. One are is perfect, that is, in its place; the concha is almost as correct as in the living heat. On the other side, where the stone mentary rested for ages, the ear is not so perfect, but still a part of it is discoverable. Mr. Woodruff purchased the stone at considerable expense, and intends preserving for the gratification of the curious, who are pleased to examine it. pleased to examine it.

INFLUENCE OF EXERCISE AND DIET ECT. ON RESPIRATION.

time to come lev. Lott Cary bu any informa-oring out here, say that num-ed upon your ch for placing enjoy so many not our own sany necole on ECT. ON RESPIRATION.

It has been found that the quantity of a deteriorated by respiration in a given time will vary with the degree of exertion make by the animal confined to it.

Thus Lavoisier states, that a man, take sany people on ess and prosper liged friend. L. WARING. items of intellire obtained by ide a passenger

Thus Lavoisier states, that a man, under ordinary circumstances, consumes abor 1,300 or 1,400 cubic inches of oxygen in a hour, but that if he be engaged in violet exercise (as in raising weights) the consumption may rise to upwards of 3000 in ches in that time.

The practical interference to be deducted from this fact is obvious, namely, that when it is an object to economise the eary gen of the air we should remain tranquil was accordingly observed in the black-bal at Calcutta, that those who were quiet an orderly suffered the least. And in his manner it has been affirmed, that a person who falls into the water in a state of type cope will remain a much longer time subtinerged with impunit schan one who is in
