**FOREIGN**  
**LATE FROM EUROPE.**  
The Packet ship Canada, Capt. Rodgers, has arrived from Liverpool, from which place the Editors of the New York Commercial Advertiser have received papers to the 2d Sept. and London to the 1st, together with a great variety of provincial papers to the latest dates, from which we make our extracts.  
**GREAT-BRITAIN.**—It is confidently alleged that a very evident improvement has taken place in the state of the trade, in every part of the country; but the distress is still very great. The returns of the late harvest in England prove that there now exists throughout the United Kingdom, the certain precursors of a scarcity of food. A multitude of reports were circulated, one of which was that the cabinet had resolved to issue an order in council for the admission of oats, beans and peas, of which a great scarcity is apprehended. Wheat and barley it is said are not to be admitted at present.  
The leading members of the British Cabinet, with the exception of Lord Liverpool, who was in Wales, were summoned to assemble at the Foreign Office on important matters connected with the disturbed districts.  
Official intelligence has reached the British Capital of the abdication of the Burmese war.  
We find in the *Loidodé* papers gratifying official document issued by the Austrian Government, respecting the traffic in slaves. The great object of this document is comprised in one single sentence of it. The first article runs thus: "Every slave shall become free the moment he touches the soil of Austria, or even one of its ships."  
£450,000 in gold bars have been brought to England in the Russian fleet, and transported to London.  
There has been a destructive fire in Pliemmer's Row, Commercial Road, London.  
A letter from Trieste, Aug. 14, says: "We expect with impatience the accounts from the Morea. The captain of a ship which arrived here yesterday from Constantinople, states, that on the 11th July, he heard a violent cannonade near the Island of Samos, and had heard afterwards, that the Captain Pachá had attacked that Island."  
Ibrahim Pachá has been some time engaged in negotiating with the Mainotes, but has not succeeded in bringing them to any terms. They have retired to their mountains.  
The Central Greek Committee at Brussels has received information, that four officers of the old French army, who, on pretence of going to Greece to enter the Greek service, had received money from the committee for their support and outfit, had been induced by promises made them at Marseille to engage in the Turkish service, which they had done, without returning the money advanced them by the committee.  
**TURKEY.**—The plague rages in several quarters of Constantinople, and does not even spare the Franks. It has shewn itself on board several vessels in port, and must be on this occasion, of a very pernicious nature. Three ministers, it is said, has been attacked with this fatal disease at the hotels. The Courier says, the news from the capital, is of an appalling character. Numerous executions are continually taking place. The Sultan appears resolute to exterminate not only all who have been, but all who might become his enemies. It seems that the Janissaries, when in a state of mutiny, extended their hostility from the government to the religious of their country. The Koran became the object of attack. The book they stated to have cut in pieces wherever they found it, while their cry was, "we will not have any exercise."  
Constantinople, July 25.—When the Sultan went on the 10th to the mosque to celebrate the holiday of Little Bairam, a great dejection was observed in the people. The Sultan was on that occasion accompanied by the new troops in uniform, and on the third day of the Bairam, instead of the customary rejoicings, there were grand masses of Dolma Bachtche of the three battalions of the new troops, with 24 pieces of cannon, which lasted several hours under the direction of the Seraskier. The Sultan and a great number of spectators were present.  
Several threatening placards have appeared in divers places.  
**RUSSIA.**—The Courier contains a long and detailed account of the preparations for the approaching coronation of the Emperor of Russia. The printed forms resemble those of the late English coronation.

**TRIBUTE OF RESPECT.**  
On the evening of the 23d September 1826, the inhabitants of Leonard-town met to testify their respect for their esteemed fellow-citizen General JAMES FORREST, deceased.—Doctor *William Thomas*, was called to the Chair, and *William H. Mills*, esq. appointed Secretary; when the following resolutions were adopted:  
*Resolved unanimously,* That the inhabitants of Leonard-town entertain the highest respect for the character of General JAMES FORREST, as a citizen and a man, are deeply impressed with a sense of those virtues which adorn domestic life, and which he so eminently possessed.  
That they sincerely lament that the meriting hand of death should thus have deprived them of so worthy a citizen, whose excellent qualities dignified and exalted, whilst they rendered him beneficial and beloved.  
That they lament his death as a serious loss to society and to his country.  
That as a testimony of respect, they wear crape on the left arm for the period of thirty days.  
It was further resolved, that the Chairman sign these proceedings, attested by the Secretary; and that the Secretary cause the same to be published in the National Intelligencer, and *Maryland Gazette.*  
**WM. THOMAS,** Chairman.  
**Attest,**  
**W. H. MILLS,** Secretary.  
**A SAD MISTAKE.**  
A rattlesnake was about a fortnight since discovered in the Canal in Warwick, by an emigrant from the land of St. Patrick, who supposing it to be a rat, without any ceremony grappled with it, exclaiming "An ale! An ale, by the powers!" Some bystanders soon perceived him, when it was found that he had been bitten three times by the poisonous reptile. By a timely application, however, the poison was extracted.

The brig Argus, at Providence from the African Coast, reports that the King of Ashantee still continues the war with the English settlements on the Gold Coast, to the detriment of all merchants and to the vessels which visited that Coast. The King of Ashantee, with his army of ten or fifteen thousand men, was at a place called Boom in the Aquapin country, about sixty miles from Accra. His intention was to attack the latter place; but, having been so slow in his movements since leaving Camasey, his capital, the English had collected a force equal to the enemy's, and superior in equipment, so that they did not fear his approach.—Had he been expeditious in his march, he would have overrun all Accra before a force could have been raised sufficient to withstand him.
