nia, or Rupture. Dr. AMOS G HULL, having wit. nessed, during twenty five years practice in Surgery, the distress and misery attending the disease of Rupture and the fatal consequences fre quently incident to it, and being con-vinced that the unhappy effects were generally the result of badly con-structed Trusses, or the neglect to use ructed Trusses, or the neglect to use any, was prompted from feelings of professional duty, and an anxious desire to witness a more effectual remedy, to devote a share of his time to the construction of an instrument for that purpose. He is now satisfied that he has brought into succ saful opera tion a Truss, constructed on a new principle and adapted to all cases of Rupture in both sexes; always, with out an exception, fulfilling the indi cation of confining or keeping up the bowel, and often, especially in young persons and recent cases, effecting a

permanent cure.

Let it be observed that the pad of this truss, instead of being convex like that of all other Trusses, it slightly concave, like the open pain hand. This pad being placed over the rupture and the spring of the truss exerting its power upon the cen tre of it, the strong pressure is made by its circular margin, around the rupture opening and a diminished pressure by its centre. It thereby not only prevents the escape of the bowel, but approximates, and often unites the ruptured part so as to effect a radical cure of the complaint.

The following testimonials in its favour, are submitted to the public Extract from the second edition of "Thatcher's Modern Practice

of Physic," Boston 1826. Agrest variety of Trusses, form different principles, have been from time to time, introduced to put lie notice; but with one exception is may be asserted, that they have been altogether deficient in those ments ought to be formed. It is with in a few years that a Truss has been invented by Dr. A G. Hull, a respec York, and late President of the Onei da Medical Society, which is incom-parably superior in its principles and properties to any of those previously in nee. Dr. Hull is excusively entitled to the credit of first adapting the true surgical principle for the radical cure of Hernia He happily conseiv ed the idea that the pad of the Truss should be so constructed as simply to support the muscular fibres around the ring or sperture as much as possible, in the state in which they are maintained in perfect health. Unless this be attained the parts can never recover their natural tone, whatever may be the degree of pressure appl

Valentine Mott, M D Professor of Surgery in the University of New York deposes:

"The great and signal benefits which are produced by this Truss, and accordance with Scientific and Surgical principles. Its mechanical adaptation to the parts, the simplicity of its construction the limited motion nicely graduated by experiment, to and to the action of the muscles; the permanency of its location on the body, and its pressure on the circum ference of the abdominal ring, are

of all Trusses heretofore in use; which being convex tended ts enlarge the dimensions of the rupture opening. A have adopted it in my own practice to the exclusion of all others and and of opinion that the union of practical design and mechanical struc-ture in this instrument render it what lies long been the desideratum of practical surgeons in Europe and A

merica.

T. W. Hunter, M. D. of N. York deposes as follows. "In two very interesting cases of Scrotal Hernia (which is the worst and most difficult kind) that came under my care, it wind) that came under my care, it was worn with perfect comfort, and effected a complete cure of bum in less than twelve months. This russ is approved of by the most eminent Surgeous in the United States and European marticularly by the calches.

Europe, particularly by the celebrated Sir Astley Cooper, of London.

Joseph Evans, late of Philadelphia,
Leather Marchant deposes as follows "Having been suptured about seven years ago. I applied to Dr. Hull, in person, who furnished me with one of his Trusses, and after wearing it a bout six months, I found myself en tirel neured so much so that I can walk about with safety, without wear-ing the True and in my opinion it is one of the greatest improvements and blessings to mankind that is known. Extrapt from the Medical Review and

Ziograni, conducted by Professors
Eberle and M Clellan, Philadelphia,
"We have applied Dr. Hull's True
see upon sight different patients, two
of ghiph, were effected with Double
Scrotal Bernia, and the resultated our pe in to been to satisfactory

I that we cannot avoid offering our testimony id favour of the new Truss, which we consider as altogether the hest that we have as yet been made

acquainted with."
N B. Dr. Hull's Trusses adapted to the different species of repture, to which males, females and children are subject, are kept at the office of Dr. Knarr. No. 37 East Fayette street, The street of the opposite the First Presbyterian Church who will attend to their application. &c, and where those labouring under this disease are invited to call. Per sons residing at a distance can be fit ted by sending a measure of the body near the hip. Orders from Country near the hip. Orders from Country Physicians and Druggists, will be duly Baltimore, April 19.

OF THE COURT OF APPEALS OF

MARYLAND,

To be Reported by Thomas Harris Esquire, Chrkof the Court of Appeals, and Reverdy Johnson, Esquire. Attorney at Luw.

These Decisions will form a continuation of the first volume of Reports already published by Messrs Harris and Johnson, which closes with the year 1805. It is proposed to publish the Decisions in a Series of Numbers, each to contain not less than one hun United States, either by mail, (post dred and twenty five pages, and four numbers to constitute a volume last number of each volume will con tain a full and complete Index Thin mode of publication, it is conceived, possesses advantages which give it a decided preference to that of publishing the Reports in bulky volumes. It ensures the earlier publication of the Reports, and as not more than four numbers will be published in a year, the expense will not be so sentibly

TERMS The price of each number of the Reports will be \$1 25, payable on de-

. Subscriptions to the above work are received at GEO SHAW'S Store, the Maryland Gazette Office, and the respective Offices of the County Clerks of this State.
