**ANNAPOLIS.**  
**THURSDAY, MAY 3, 1827.**

The Communication of Mr. Wil-  
son, was received at too late a peri-  
od for publication in this week's  
Gazette.

**The Columbian Riflemen.**  
Captain Smith's Company "The  
Columbian Riflemen," from Fell's  
point, Baltimore, arrived here on  
Wednesday, and remained until yester-  
day afternoon, when they returned  
to the Maryland Steam-Boat. Yes-  
terday they paraded through our  
streets, and exhibited a very fine  
martial appearance. The precision  
of their movements, and the accu-  
racy of their evolutions, afforded a  
pleasing evidence, as well of the  
skill of their Commander, as of the  
discipline of the Soldier. They vi-  
sited Fort Severn and other public  
places in the city, and were invited  
by the Adjutant-General to his house  
partake of some refreshments; and  
to Mrs. Robinson's Boarding-  
house, by some of the citizens. Dur-  
ing their short stay with us, their  
conduct evinced, that to the cha-  
racter of the Soldier, they united  
that of the Gentleman.

**THE WEATHER.**—It is appre-  
hended that the early fruits have  
suffered serious injury from the cold  
frost which experienced through the  
last week. On Sunday night last  
the frost was so great that ice was  
observable on Monday morning; and  
Tuesday there was a momentary  
fall of snow.

Ad to build a new Poor's House in Cal-  
vert County.

[Passed March 12, 1827.]

1. *Be it enacted by the General  
Assembly of Maryland,* That the  
every court of Calvert county be and  
they are hereby authorized and em-  
powered, to levy upon the assessable  
property of said county, such sum  
of money as may enable them to  
purchase so much ground as they  
may think necessary, and to procure  
to be erected thereon, suitable  
buildings to answer for the re-  
ception of the poor of the county  
presaid; *Provided,* That the pro-  
visions of this act shall not take ef-  
fect until they have sold the present  
poor's house of that county, and the  
pertinences thereto belonging.

2. *And be it enacted,* That when  
said buildings shall have been  
procured or erected, they shall be de-  
ferred over to the trustees of the  
poor of the said county, and that the  
situation shall be liable to the laws,  
uses and regulations, prescribed for  
the government of the present poor's  
house.

**From Ceylon.**  
Extract of a letter from the Amer-  
ican Missionaries at Ceylon, dated  
15th, (Ceylon,) Oct. 27, 1827.—  
The number of Native Free Schools  
under our superintendence, is  
twenty; containing 2203 boys, and  
15 girls; making a total of 2268,  
number under the care of our  
Brethren of the Church and Wesley-  
an Missionary Societies is 564 boys,  
and 50 girls—making a sum total of  
2832 under a course of Christian edu-  
cation in the district, about 3300."  
N. Y. Observer.

**Line of Morality.**  
The line of morality is sometimes  
very fancifully drawn. A munici-  
pal law of Georgetown, S. C. de-  
clares to play billiards after 12 o'-  
clock at night, is dangerous to mo-  
rality, but playing before 12 o'clock is  
not. If a game there-  
of is begun a few minutes before  
12, and ended a few minutes after 12,  
the first part is correct and proper,  
and the latter damnable and corrupt.  
When the clock designates between  
vice and virtue, clock makers are  
the greatest philosophers.

A writer in the London Morning  
Gazette, in comparing the expenses of  
the British and American governments  
takes the following statement:  
"The annual expenditure of the U  
States amounts to only about  
\$18,883,000—that is to say, less  
than one twenty-fourth part of ours,  
which is \$35,000,000. The details of  
our expenditure bear a similar propor-  
tion. While our army costs eight mil-  
lions and a quarter, the U. S. army  
costs but \$468,000. Our navy costs  
\$10,000,000, and a half that of the U.  
S. only \$2,500,000. Our ordnance  
costs \$3,000,000, and three quarters of  
the American only \$2,000,000. Our  
civil list—namely, king, royal family,  
and courts of justice, two mil-  
lions and a quarter; the civil list of  
the U. S. only \$4,000,000. Our king  
costs \$1,000,000, and the president of  
the United States only \$200,000."

**FROM THE SANDWICH ISLANDS.**  
In the New York papers, we find  
the following late and interesting in-  
telligence from the Sandwich Islands,  
communicated by Captain W. R. Bow-  
ers, who left San Blas on the 1st  
of March last, and came through the  
interior of Mexico to Vera Cruz. Mar-  
kets at San Blas and Marzaton, were  
overstocked with almost every descrip-  
tion of merchandise. Captain B. left  
at San Blas, U. S. sloop of war Pea-  
cock, Capt. Thomas A. Jones, to sail  
for Lima about the 8th of March. The  
Peacock left Lima in May, 1826, on a  
cruise among the South Sea Islands,  
and in the course of which she visited  
the Marquesas Group, Otaheite, and  
other of the Society Islands, Sand-  
wich, and some other Islands, of mi-  
nor importance, in the north and south  
Pacific Ocean. Left Waohoe on the  
6th of January last, where she passed  
the three previous months. Captain  
Jones, and the officers of the Peacock  
speak in high terms of the peaceful  
and friendly deportment of the natives  
of the Islands visited by them, and  
more particularly those of the Sand-  
wich Islands, whose advanced state of  
civilization greatly exceeded their  
most sanguine expectations. Captain  
Jones also states, that the missionary  
efforts under the superintendance of  
the Rev. H. Bingham, at Waohoe,  
had succeeded far beyond the fondest  
hope of the most sanguine philan-  
thropist. Many of the natives now being  
able to write, and most of them can  
read the scriptures, which have been  
partly translated and printed, by the  
American Missionaries, in their own  
language. Thus do we see, that in  
less than six years, since the first mes-  
senger of God arrived at the Sandwich  
Islands, the whole population have not  
only embraced the religion of Christ,  
but they have evinced an earnest of  
their profession, in destroying their  
idols and abolishing all their former  
heathenish ceremonies. Capt. Jones  
has effected some friendly arrange-  
ments with the Kings and Chiefs of  
Otaheite, and of the Sandwich Islands,  
whereby many of the evils complained  
of by our countrymen employed in the  
whale fishery and commerce of the  
South Sea, are removed, and guarded  
against for the future. The officers  
and crew were all in good health and  
spirits, highly gratified with the ser-  
vice they had been engaged in, and  
expected to find their relief at Callao,  
and to return to the United States ear-  
ly in the ensuing autumn. Balt Amer

**MORE GOLD.**  
We learn that a rich, and appar-  
ently extensive deposit of Gold, has  
very recently been discovered on the  
land of James Capps, about five  
miles from Charlotte, on the Statesville  
road. Evidences of the presence of  
the precious metal were last season,  
for the first time, perceived in the vi-  
cinity of that place, and some persons  
commenced working there, but not be-  
ing very successful they abandoned it  
as a profitless business. Early this  
season, new efforts were made; the result  
of which has been, that considerable  
quantities of gold have been discover-  
ed, principally imbedded in the fis-  
sures of (apparently) a secondary for-  
mation of rocks. Mr. Capps was a  
poor man; he illegally possessed a free  
hold; but the poverty of the surface  
(or soil) of his land, yielded a misera-  
ble return for the labour bestowed in  
its cultivation. Since, however, his  
once sterile acres have proven so rich  
in their bowels, liberal offers, have  
been made for his little possession—all  
of which, we understand, he has yet  
declined closing in with. But he per-  
mits individuals to work the mine for  
a certain portion of their findings; and  
great numbers are daily availing them-  
selves of the privilege, and flucking their  
finds from all quarters, as is usually the  
case where a new discovery of the pre-  
cious metal has been made. Mr.  
Capps has already realised this season,  
from his share of the findings, a con-  
siderable amount of gold; so that the  
latter days of this age, and, hitherto,  
poverty-stricken man, may be as sun-  
ny (in a temporal sense) as those of  
the morning, and meridian of his life,  
were shadowy.

**PHYSIOLOGY.**  
The London Hunterian Society is at  
present engaged in the performance of  
a series of experiments on the subject  
of the human blood, its properties,  
component parts, operation in the en-  
tire system, and its co-existence with  
the vital principle. The experiments  
are intended to discover the truth of  
certain doctrines with regard to the hu-  
man blood, promulgated by Dr. Bar-  
ry. At the last meeting of the Society  
on the 27th ultimo, the result of a ve-  
ry curious experiment was detailed.—  
The stomach of a subject just expired  
was opened, and the pulsations of the  
heart were distinctly perceived for a  
short time after. This fact a  
line demonstrates that the cessation of  
vitality was not in consequence of the  
termination of the circulation in the  
blood. Several similar curious experi-  
ments were detailed, and it is in-  
tended when the result of all shall be  
ascertained, to submit it in an authen-  
tic form to the public.

**HALL.**  
Martinsburg, Va. April 26.  
Tuesday last a large quantity of  
Hail fell in the neighborhood of  
Black and Mill Creeks. It is said,  
that hail as large as partridge eggs  
fell, stripping the young pine and  
other growth of their foliage. Since  
that time, the weather has been re-  
markably cool.

**MEXICO.**  
We are favoured with papers from  
Mexico City, to the 1st of April,  
brought by the Eliza. It appears  
that a revolt broke out about the  
10th of March at Durango, the capi-  
tal of the state of that name, instigat-  
ed was said by a Priest named A-  
renas whose emissaries had seduced  
the troops to unite in a project for  
obtaining certain reforms. The  
troops had gone so far as to arrest  
the governor of the state, and to dis-  
solve the local legislature, but it does  
not appear that any blood had been  
shed. Placards had been posted,  
calling for the son of Iturbide to  
govern the country. The general  
government was adopting measures  
for the suppression of this insurrec-  
tion, which did not appear to excite  
much alarm. The Generals of Di-  
vision, Negrete and Echavarri,  
(Spaniards) suspected of being abet-  
tors of the revolutionary project, had  
been arrested and committed to pri-  
son.

The Mexican House of Represen-  
tatives had approved of the Treaty  
recently concluded with England,  
and it was believed it would be con-  
firmed by the Senate.

**FROM BOGOTA.**  
A Bogota paper of 15th Feb. (re-  
ceived by the Athenian, at New  
York), contains an official letter from  
Christoval Armeno, the Colombian  
Envoy in Peru to his government,  
detailing the insurrectionary move-  
ments of the Colombian troops in Li-  
ma, the substance of which is that  
the superior officers left in command  
by Bolivar, had been removed and  
sent home. The troops had renew-  
ed their oath of fidelity to the old  
constitution, and had retired from  
Lima to a neighbouring town to wait  
the directions of their government.  
A revolution in the Government of  
Peru, in the same spirit, had taken  
place; new officers, appointed provi-  
sionally, were managing the Govern-  
ment until the meeting of the Con-  
gress, and every thing was tranquil.  
The letter is dated at Lima 28th Jan-  
uary.

In one of the county courts of  
North Carolina, last week, a free  
boy of colour was convicted of forc-  
ibly breaking into a house, and steal-  
ing therefrom a few articles. In  
conformity to a law of the state,  
passed in 1806, sentence of death  
was passed upon him by the Court,  
to be carried into execution on the  
third Friday of the present month.  
The editor of the Raleigh Register,  
from whose paper we derive this  
statement, protests in strong terms  
against the sanguinary character of  
the law in question, which inflicts  
the severest punishment alike upon  
the culprit who steals a few shillings,  
and he who murders his father! The  
necessity of establishing a State Peni-  
tentiary, where punishment can be  
applied, proportioned to the degree  
of crime, is placed in a clear point  
of view, and urged in a manner  
which, we presume, can scarcely  
fail to have due weight with those  
who are more immediately interest-  
ed in the subject. American.

**A POST-MASTER ARRESTED.**  
The Postmaster at "Big Lick," in  
Virginia, has lately been arrested by  
an agent of the Post Office Depart-  
ment, on a charge of stealing money  
from the Mail. On an investigation,  
he was required to enter into a re-  
cognizance to appear and answer the  
charge, at the next Court.

An agent of the Department has  
recently detected the Assistant Post-  
master at Canandaigua, New York,  
in a similar offence.

**FROM NEW ORLEANS.**  
The New Orleans papers mention  
that five companies of U. S. troops  
belonging to the first regiment of in-  
fantry, arrived there on the evening  
of the 2d inst. from Pensacola, in  
the schooners Elizabeth, Thorn and  
Florida.

There are now six companies in  
New Orleans, four of which will be  
quartered permanently—the other  
two will proceed with Major Twigg,  
to St. Louis.

The names of the officers who ar-  
rived from Pensacola with the de-  
tachment, are Major Twigg, Doctor  
Macomb, Captains Cobbs, Loomis,  
Smith, and Kerr; Lieutenants Aber-  
crombie, Mackenzie, Reynolds, Page,  
Garey, and McKee.

**VIRGINIA CONGRESSIONAL ELECTIONS.**  
As far as the returns have been made  
the cause of General Jackson and the  
State Convention for amending the  
Constitution, which have been predom-  
inant considerations with the peo-  
ple, are triumphant.—Jackson Repub.

On Monday week, the house of  
Mr. Mathias Badgely, about eleven  
miles from Kingston, Upper Canada,  
was consumed by fire, and an inter-  
esting girl, a daughter of Mr. Elias  
Price, aged about seven years, and a  
grand daughter of Mr. Badgely, per-  
ished in the flames. A daughter of  
Mr. B. was much burnt in her en-  
deavours to save the two children  
from the flames.

Jamaica, L. I. April 6.  
On Tuesday night of last week, a  
man by the name of Burr, with his  
wife and son, formerly living in this  
place, but for the last year or two  
living at Hempstead, went to bed in  
a state of inebriety. Some time in  
the night a sense of suffocation aroused  
the father, who perceived some-  
thing on fire, he arose, and procur-  
ing some water extinguished the fire,  
and returned again to bed. In the  
morning when he awoke he found  
his wife lying in the fire place burn-  
ed to death! her head, one arm, and  
one leg was burnt off. When they  
retired to bed, some liquor was left  
in a bottle; in the morning it was  
empty—it is supposed she got up and  
drank what remained, sat on a chair  
by the fire, and fell in it. Her re-  
mains were interred on Thursday.

**ST. HELENA.**  
The captain of a British ship, which  
lately touched at St. Helena, reports,  
that Bonaparte's new house remain-  
ed unoccupied; and strangers, with  
permission, are allowed to view it  
during their stay. The room of his  
old residence, wherein he died, had  
been converted to a threshing barn,  
and the other part of the house into  
stables.

**ACCIDENT.**  
Lions, (France,) March 6.  
On Sunday, the steam vessel con-  
structed last year, according to the  
plan of M. Raymond, was to take ad-  
vantage of the increase of the Rhone,  
in order to reach as high as La Pape.  
Several of the proprietors who were  
expecting the success of their under-  
taking, along with a number of spec-  
tators, crowded the vessel, the power  
of which was that of 110 horses. The  
vessel having proceeded a short dis-  
tance, the boiler unfortunately burst  
and the vessel divided. The neigh-  
bouring quays were immediately cov-  
ered with the fragments of the quar-  
ters of the vessel, the effect was immen-  
sely to kill eight persons, and severely  
wound twelve others. On board,  
the mischief was less than might have  
been expected. The whole city has  
however, to deplore the loss of M. J.  
Guillard, one of the proprietors, who  
was immersed in the river, and with-  
drawn thence a few minutes after; M.  
Dereins the builder of the vessel, M.  
Steel, a skilful mechanic, and the  
person in their employ. It would be  
in vain for us to attempt to paint the  
consternation of the persons on board  
the vessel, who were out of the reach  
of the explosion of the boiler. The  
concussion was so violent, that several  
glasses were broken in the neighbour-  
ing houses, windows were shattered,  
iron balconies were twisted, and the  
explosion was heard from one end of  
the city to the other. It is appreh-  
ended that the part of the vessel which  
under water may contain some victims;  
and that a still greater number have  
been carried away by the current of  
the river.

**W. J. COMPTON.**  
Will be supported as a candidate to  
represent Anne Arundel county in the  
next Legislature, by *Many Voters.*

**OBITUARY.**  
COMMUNICATIONS.

Died, on the 2d of April, at New  
Orleans, in the 21st year of his age,  
Lieutenant SAMUEL H. RIDGELY, el-  
dest son of Col. Charles S. Ridgely, of  
Anne Arundel county. The death of  
this young man has penetrated the  
hearts of his family with a shaft of  
the most bitter affliction, and has cast  
a gloom over all who had the pleasure  
of his acquaintance. He had but just  
entered upon the busy scene of life,  
(having the past year graduated at  
West Point) when he was attacked  
by a pulmonary disease, which baffled  
the skill of eminent medical practi-  
tioners, and a voyage to a milder cli-  
mate was recommended as a last re-  
sort; but this too has failed, and the  
grave has closed over one who prom-  
ised fair to be an ornament and  
bright example to any society in which  
his lot might have cast him. His cha-  
racter was of the most decided stamp;  
steadfast in the pursuit of every thing  
that is considered noble, honourable  
and manly, he seemed destined to ran-  
his course with equal credit to him-  
self, his family, friends and country;

but an all-wise Providence has called  
forth a mandate to which it becomes  
his duty to bow with reverential awe,  
and all that remains for us to express  
our admiration of his virtues, and our  
deep regret for his early fall.

Died, at Fair Hill Farm, Cecil coun-  
ty, Maryland, on Saturday morning,  
the 31st, in the 35th year of her age,  
Mrs. MARY H. MITCHELL, consort of  
Col. George E. Mitchell, late of the  
U. S. Army, and Representative in  
Congress from that district.

On Monday following her remains  
were interred in the family burying  
ground, attended by a very large as-  
ssemblage of friends and acquaintances,  
who tenderly sympathized with her  
weeping relatives, and gave every tes-  
timony in their power of their respect  
for her character. A very appropriate  
discourse was delivered on the occa-  
sion by the Rev. A. K. Russell.

Thus torn away in the bloom of life  
by the pestilential hand of death, has a  
tender husband been deprived of a du-  
tiful, affectionate and amiable wife.  
Seven small children (one of whom an  
infant, but a few weeks old) of a kind  
mother, who watched over them with  
tender solicitude for their welfare and  
many accusations of a candid, gen-  
erous and faithful friend. Indeed, in  
paying this tribute to departed worth,  
seldom have we to deplore the loss of  
an individual, which will be more se-  
verely felt by her family and in the  
circle of her acquaintance, than with this  
truly amiable woman. Possessed of a  
refined and sympathetic mind, a kind  
and affectionate disposition, open and  
engaging manners, her animated coun-  
tenance beamed with a cheerfulness  
and sensibility, which conciliated the  
affections of all with whom she was ac-  
quainted, and rendered every one hap-  
py around her. Her departure in the  
meridian of life, for that far distant  
country, from whose borne no traveller  
returns, furnishes another impressive  
evidence of the instability of human  
things, and admonishes us, the survivors,  
in terms the most forcible, of the  
infinite importance of being at all  
times ready to give an account of our  
stewardship.
