

Dr. Hull's Truss
For the relief and cure of Hernia, or Rupture.

Dr. AMOS G. HULL, having witnessed, during twenty five years practice in Surgery, the distress and misery attending the disease of Rupture and the fatal consequences frequently incident to it, and being convinced that the unhappy effects were generally the result of badly constructed Trusses, or the neglect to use any, was prompted from feelings of professional duty, and an anxious desire to devote a share of his time to the construction of an instrument for that purpose. He is now satisfied that he has brought into successful operation a Truss, constructed on a new principle and adapted to all cases of Rupture in both sexes; always, with out an exception, fulfilling the indication of confining or keeping up the bowel, and often, especially in young persons and recent cases, effecting a permanent cure.

Let it be observed that the pad of this truss, instead of being convex like that of all other Trusses, is slightly concave, like the open palm of the hand. This pad being placed over the rupture and the spring of the truss exerting its power upon the centre of it, the strong pressure is made by its circular margin, around the rupture opening and a diminished pressure by its centre. It thereby not only prevents the escape of the bowel, but approximates, and often unites the ruptured part so as to effect a radical cure of the complaint.

The following testimonials in its favour, are submitted to the public

Extract from the second edition of "The Medical Practice of Boston 1826."

"A great variety of Trusses, formed on different principles, have been from time to time, introduced to public notice; but with one exception it may be asserted, that they have been found altogether deficient in those just principles upon which such instruments ought to be formed. It is with in a few years that a Truss has been invented by Dr. A. G. Hull, a respectable Physician and Surgeon of New York, and late President of the Oneida Medical Society, which is incomparably superior in its principles and properties to any of those previously in use. Dr. Hull is exclusively entitled to the credit of first adapting the true surgical principle for the radical cure of Hernia. He happily conceived the idea that the pad of the Truss should be so constructed as simply to support the muscular fibres around the ring or aperture as much as possible, in the state in which they are maintained in perfect health. Unless this be attained the parts can never recover their natural tone whatever may be the degree of pressure applied."

Valentine Mott, M.D. Professor of Surgery in the University of New York deposes:

"The great and signal benefits which are produced by this Truss result from its strict subservance to and accordance with Scientific and Surgical principles. Its mechanical adaptation to the parts, the simplicity of its construction, the limited motion nicely graduated by experiment, to the different attitudes of the body, and to the action of the muscles; the permanency of its location on the body, and its pressure on the circumference of the abdominal ring, are qualities, the tendency of which is to strengthen and restore the weakened parts, to contract the aperture, and ultimately to accomplish a cure of the disease.

"The operation and effects of this Truss is therefore directly the reverse of all Trusses heretofore in use; which being convex tended to enlarge the dimensions of the rupture opening. I have adopted it in my own practice to the exclusion of all others and am of opinion that the union of physical design and mechanical structure in this instrument render it what has long been the desideratum of practical surgeons in Europe and America.

T. W. Hunter, M.D. of N. York deposes as follows: "In two very interesting cases of Scrotal Hernia (which is the worst and most difficult kind) that came under my care, it was worn with perfect comfort, and effected a complete cure of both in less than twelve months. This Truss is approved of by the most eminent Surgeons in the United States and Europe particularly by the celebrated Sir Astley Cooper, of London.

Joseph Evans, late of Philadelphia, Leather Merchant deposes as follows: "Having been ruptured about seven years ago, I applied to Dr. Hull, in person, who furnished me with one of his Trusses, and after wearing it a bout six months, I found myself entirely cured, so much so that I can walk about with safety, without wearing the Truss; and in my opinion it is one of the greatest improvements and blessings to mankind that is known.

Extract from the Medical Review and Journal, conducted by Professors Eberle and M. Clellan, Philadelphia. "We have applied Dr. Hull's Truss upon eight different patients, two of which were affected with Double Scrotal Hernia, and the results of our experience have been satisfactory."

that we cannot avoid offering our testimony in favour of the new Truss, which we consider as altogether the best that we have as yet been made acquainted with."

N. B. Dr. Hull's Trusses adapted to the different species of ruptures, to which males, females and children are subject, are kept at the office of Dr. Knapp, No. 37 East Fayette street, opposite the First Presbyterian Church who will attend to their application, &c. and where those labouring under this disease are invited to call. Persons residing at a distance can be fitted by sending a measure of the body near the hip. Orders from Country Physicians and Druggists, will be duly attended to.

The American Farmer.
We wish that every friend of this journal should understand, and that they would have the kindness to make it known, that to any one who will procure four subscribers and remit on their account \$20, we will send a fifth copy of the American Farmer without charge—or, any one who will procure five subscribers will be allowed to retain \$5 on his remitting the remaining \$20. We beg also to repeat, that which is necessary to be done by any one wishing to subscribe, is to inclose a five dollar note by mail, at the risk of the subscriber, to the Editor of the American Farmer, Baltimore—and whether the money be received or not, the paper will be forwarded immediately, and the actual receipt of each number of the volume will be guaranteed by the Editor.

The American Farmer is published weekly, by J. S. Skinner, Postmaster of Baltimore, printed on fine paper the size of ordinary newspapers, folded so as to make 8 pages; about one half, or four pages, devoted to practical Agriculture, the remainder to Internal Improvements, Rural and Domestic Economy, selections for housekeepers and female readers, and Natural History and Rural Sports. A minute index and title page to the whole volume is published, and forwarded with the last number of each volume. A single number will be sent to any one who may desire to see a specimen of the publication.

To all editors who will give the above one or two insertions, we shall feel much indebted, and will gladly reciprocate their kindness.

THE DECISIONS
OF THE
COURT OF APPEALS OF
MARYLAND,
To be Reported by Thomas Harris,
Esquire, Clerk of the Court of Appeals, and Hervey Johnson,
Esquire, Attorney at Law.

These Decisions will form a continuation of the first volume of Reports already published by Messrs. Harris and Johnson, which closes with the year 1805. It is proposed to publish the Decisions in a Series of Numbers, each to contain not less than one hundred and twenty five pages, and four numbers to constitute a volume. The last number of each volume will contain a full and complete Index. This mode of publication, it is conceived, possesses advantages which give it a decided preference to that of publishing the Reports in bulky volumes. It ensures the earlier publication of the Reports, and as not more than four numbers will be published in a year, the expense will not be so sensibly felt.

Notice is hereby given,
That the subscriber of A. A. county, hath obtained from the Orphans Court of Anne Arundel county, in Maryland, letters testamentary on the personal estate of James P. Soper late of Anne Arundel county, deceased. All persons having claims against the said deceased, are hereby warned to exhibit the same with the vouchers thereof, to the subscriber, at or before the 28th day of October next, they may otherwise by law be excluded from all benefit of the said estate. Given under my hand this 20th day of April 1827.

PROPOSAL
FOR PRINTING
The Journals of the Conventions of the Province of Maryland,
held in the City of Annapolis, in the years 1774, 1775 and 1776.

Efficient encouragement being offered, the Subscriber proposes to publish, in one volume octavo, the Journals of the Conventions of the Province of Maryland in the years 1774, '75 and '76. It is believed that there are not more than two copies of these Journals now extant; and from the circumstance that they were printed in pamphlet form, and unbound, it may be fairly concluded that they, too, must in a few years be destroyed by the mere decay of time. These Journals are the only authentic evidence of the Political History of Maryland, during that interesting and unquiet period. Although we have, in abundance, histories of Maryland, as connected with the association of Provinces and Colonies, at that time formed, for mutual protection against the improper assumption of power on the part of the Mother Country, yet none of these works embrace what may be termed its Domestic and Internal Political History.

This part of the history of Maryland it should be her pride to hand down to posterity, not only on account of its deep interest, but as a public State Record of the voluntary sacrifices, during spirit, and determined resolution, of her citizens, during this period of doubt and dismay.

In the confident expectation that the citizens of Maryland will consider the proposed publication of sufficient importance to entitle it to their patronage, the Subscriber is induced to issue these proposals.

The Price per Copy, not to exceed \$2 00.
