

DR. HULL'S TRUSS
For the relief and cure of Hernia, or Rupture.

Dr. AMOS G HULL, having witnessed, during twenty five years practice in Surgery, the distress and misery attending the disease of Rupture and the fatal consequences frequently incident to it, and being convinced that the unhappy effects were generally the result of badly constructed Trusses or the neglect to use any, was prompted from feelings of professional duty, and an anxious desire to witness a more effectual remedy, to devote a share of his time to the construction of an instrument for that purpose. He is now satisfied that he has brought into successful operation a Truss, constructed on a new principle and adapted to all cases of Rupture in both sexes; always, without an exception, fulfilling the indication of confining or keeping up the bowel, and often, especially in young persons and recent cases, effecting a permanent cure.

Let it be observed, that the pain of this truss, instead of being conveyed like that of all other Trusses, is slightly conveyed, like the open palm of the hand. This pain being placed over the rupture and the spring of the truss exerting its power upon the centre of it, the strong pressure is made by its circular margin, around the rupture opening and a diminished pressure by its centre. It thereby not only prevents the escape of the bowel, but approximates, and often unites the ruptured part so as to effect a radical cure of the complaint.

The following testimonials in its favour, are submitted to the public.

Extract from the second edition of "Theater's Modern Practice of Physic," Boston 1826.

"A great variety of Trusses, formed on different principles, have been from time to time, introduced to public notice, but with one exception it may be asserted, that they have been found altogether deficient in those just principles upon which such instruments ought to be formed. It is with a few years that a Truss has been invented by Dr. A. G. Hull, a respectable Physician and Surgeon of New York, and late President of the Oneida Medical Society, which is incomparably superior in its principles and properties to any of those previously in use. Dr. Hull is exclusively entitled to the credit of first adapting the true surgical principle for the radical cure of Hernia. He happily conceived the idea that the pad of the Truss should be so constructed as simply to support the muscular fibres around the ring or aperture as much as possible, in the state in which they are maintained in perfect health. Unless this he attained the parts can never recover their natural tone whatever may be the degree of pressure applied."

Valentine Mott, M. D. Professor of Surgery in the University of New York deposes:

"The great and signal benefits which are produced by this Truss, result from its strict subservance to an accordance with Scientific and Surgical principles. Its mechanical adaptation to the parts, the simplicity of its construction, the limited motion nicely graduated by experiment, to the different attitudes of the body, and to the action of the muscles; the permanency of its location on the body, and its pressure on the circumference of the abdominal ring, are qualities, the tendency of which is to strengthen and restore the weakened parts, to contract the aperture, and ultimately to accomplish a cure of the disease.

"The operation and effects of this Truss is therefore directly the reverse of all Trusses heretofore in use; which being conceived to enlarge the dimensions of the rupture opening." "I have adapted it in my own practice to the exclusion of all others, and am of opinion that the union of physical design and mechanical structure in this instrument render it what has long been the desideratum of practical surgeons in Europe and America.

T. W. Hunter, M. D. of N. York deposes as follows: "In two very interesting cases of Scrotal Hernia (which is the worst and most difficult kind) that came under my care, it was worn with perfect comfort, and effected a complete cure of both in less than twelve months. This Truss is approved of by the most eminent Surgeons in the United States and Europe particularly by the celebrated Sir Astley Cooper of London.

Joseph Evans, late of Philadelphia, Leather Merchant deposes as follows: "Having been ruptured about seven years ago, I applied to Dr. Hull, in person, who furnished me with one of his Trusses, and after wearing it a bout six months, I found myself entirely cured, so much so that I can walk about with safety without carrying the Truss; and in my opinion it is one of the greatest improvements and blessings to mankind that is known.

Extract from the Medical Review and Journal, conducted by Professors Eberle and M. Clellan, Philadelphia, 1826. "We have applied Dr. Hull's Truss upon eight different patients, two of which were affected with Double Scrotal Hernia, and the results of our experience have been satisfactory

that we cannot avoid offering our testimony in favour of the new Truss, which we consider as altogether the best that we have as yet been made acquainted with."

N. B. Dr. Hull's Trusses adapted to the different species of rupture, to which males, females and children are subject, are kept at the office of Dr. Knapp, No. 37 East Fayette street, opposite the First Presbyterian Church who will attend to their application, &c. and where those labouring under this disease are invited to call. Persons residing at a distance can be fitted by sending a measure of the body near the hip. Orders from Country Physicians and Druggists, will be duly attended to.

Trustee's Sale.

By virtue of a decree of the Honorable the High Court of Chancery of Maryland, the subscriber will expose at public sale, on the premises ON TUESDAY THE 12th DAY OF JUNE NEXT,

if fair, if not the next fair day, between the hours of 12 and 4 o'clock.

Part of a Tract of Land Called Mountville, containing twenty acres. This land lies in Anne Arundel county, about half a mile from the Lower Ferry on the Patuxent river, within full view of the City of Baltimore, and distant therefrom about a mile and three quarters. There is a comfortable Log House on the land, and an excellent Peach Orchard. Strawberries and Raspberries are cultivated in abundance. This land is valuable on account of its contiguity to the city of Baltimore, and can be made a first rate market farm, which if attended to by the owner, would yield a handsome revenue. A further description is deemed unnecessary, as it is presumed that persons inclined to purchase will view the premises previous to the day of sale. The terms of sale, as prescribed by the decree, are, Cash on the day of Sale, or on the ratification thereof by the Chancellor. On payment of the purchase money, the trustee is authorized to execute a deed to the purchaser.

DECISIONS OF THE Court of Appeals of Maryland. PUBLISHED By Subscription.

THE DECISIONS OF THE COURT OF APPEALS OF MARYLAND. To be Reported by Thomas Harris, Esquire, Clerk of the Court of Appeals, and Beverly Johnson, Esquire, Attorney at Law.

These Decisions will form a continuation of the first volume of Reports already published by Messrs. Harris and Johnson, which closes with the year 1803. It is proposed to publish the Decisions in a Series of Numbers, each to contain not less than one hundred and twenty five pages, and four numbers to constitute a volume. The last number of each volume will contain a full and complete Index. This mode of publication, it is conceived, possesses advantages which give it a decided preference to that of publishing the Reports in bulky volumes. It ensures the earlier publication of the Reports, and as not more than four numbers will be published in a year, the expense will not be so sensibly felt.

TERMS The price of each number of the Reports will be \$1 25, payable on delivery.

*Subscriptions to the above work are received at GEO SHAW'S store, the Maryland Gazette Office, and the respective Offices of the County Clerks of this State.
