Dr. Hull's Truss.
For the relief and cure of Hernia, or Rupture.
Dr. AMOS G. HULL, having witnessed, during twenty five years practice in Surgery, the distress and misery attending the disease of Rupture, and the fatal consequences frequently incident to it, and being convinced that the unhappy effects were generally the result of badly constructed Trusses, or the neglect to use any, was prompted from feelings of professional duty, and an anxious desire to witness a more effectual remedy, to devote a share of his time to the construction of an instrument for that purpose. He is now satisfied that he has brought into successful operation a Truss, constructed on a new principle and adapted to all cases of Rupture in both sexes; always, without an exception, fulfilling the indication of confining or keeping up the bowel, and often, especially in young persons and recent cases, effecting a permanent cure.
Let it be observed that the pad of this truss, instead of being convex like that of all other Trusses, is slightly concave, like the open palm of the hand. This pad being placed over the rupture and the spring of the truss exerting its power upon the centre of it, the strong pressure is made by its circular margin, around the rupture opening, and a diminished pressure by its centre. It thereby not only prevents the escape of the bowel, but approximates, and often unites the ruptured part so as to effect a radical cure of the complaint.
The following testimonials in its favour, are submitted to the public.
Extract from the second edition of "Thatcher's Modern Practice of Physic," Boston 1825.
"A great variety of Trusses, formed on different principles, have been from time to time, introduced to public notice; but with one exception it may be asserted, that they have been found altogether deficient in those principles upon which such instruments ought to be formed. It is within a few years that a Truss has been invented by Dr. A. G. Hull, a respectable Physician and Surgeon of New York, and late President of the Oneida Medical Society, which is incomparably superior in its principles and properties to any of those previously in use. Dr. Hull is exclusively entitled to the credit of first adapting the true surgical principle for the radical cure of Hernia. He happily conceived the idea that the pad of the Truss should be so constructed as simply to support the muscular fibres around the ring or aperture as much as possible, in the state in which they are maintained in perfect health. Unless this be attained the parts can never recover their natural tone, whatever may be the degree of pressure applied."
Valentine Mott, M. D. Professor of Surgery in the University of New York deposes:
"The great and signal benefits which are produced by this Truss, result from its strict subservance to and accordance with Scientific and Surgical principles. Its mechanical adaptation to the parts, the simplicity of its construction, the limited motion nicely graduated by experiment, to the different attitudes of the body, and to the action of the muscles; the permanency of its location on the body, and its pressure on the circumference of the abdominal ring, are qualities, the tendency of which is to strengthen and restore the weakened parts, to contract the aperture, and ultimately to accomplish a cure of the disease."
"The operation and effects of this Truss is therefore directly the reverse of all Trusses heretofore in use; which being convex tended to enlarge the dimensions of the rupture opening." "I have adopted it in my own practice to the exclusion of all others and am of opinion that the union of physical design and mechanical structure in this instrument render it what has long been the desideratum of practical surgeons in Europe and America."
T. W. Hunter, M. D. of N. York deposes as follows, "In two very interesting cases of Scrotal Hernia (which is the worst and most difficult kind) that came under my care, it was worn with perfect comfort, and effected a complete cure of both in less than twelve months. This Truss is approved of by the most eminent Surgeons in the United States and Europe, particularly by the celebrated Sir Astley Cooper, of London."
Joseph Evans, late of Philadelphia, deposes as follows:
"Having been ruptured about seven years ago, I applied to Dr. Hull, in person, who furnished me with one of his Trusses, and after wearing it a short six months, I found myself entirely cured, so much so that I can walk about with safety, without wearing the Truss; and in my opinion it is one of the greatest improvements and blessings to mankind that is known."

Chancery sale
of
VALUABLE LAND.
By virtue of a decree of the Court of Chancery, the subscriber will expose to public sale, at Hager's Tavern in the city of Annapolis, on Friday the 23d day of June next, if fair, if not the next Friday thereafter, parts of several tracts of land whereof Mary Dorey died seized called Best Success, Wright's Land, Point Lookout, Rockhold's Purchase and Hunting Quarter, supposed to contain in the whole about 2772 acres. These lands lie on Curtis-Creek, on the Patuxent River, and are near or adjoin the residence of Amasa Lithinham. It is deemed unnecessary to give a further description of the above property, as it is presumed those inclined to purchase will view the premises. Terms of sale—One third of the purchase money to be paid in six months, one third in nine months, and the remaining third in eighteen months from the day of sale, each instalment to bear interest from the day of sale, to be secured by bond with approved security. On the ratification of the sale, and payment of the purchase money, the subscriber authorized to execute a deed. Sale to commence at 12 o'clock.

PROPOSAL
FOR PRINTING
The Journals of the Conventions of the Province of Maryland,
Held in the City of Annapolis, in the years 1774, 1775 and 1776.
If sufficient encouragement be offered, the Subscriber proposes to publish, in one volume octavo, the Journals of the Conventions of the Province of Maryland in the years 1774, '75 and '76. It is believed that there are not more than two copies of these Journals now extant; and from the circumstance that they were printed in pamphlet form, and unbound, it may be fairly concluded that they, too, must in a few years be destroyed by the mere decay of time. These Journals are the only authentic evidence of the Political History of Maryland, during that interesting and unquiet period. Although we have, in abundance, histories of Maryland, as connected with the association of Provinces and Colonies, at that time formed, for mutual protection against the improper assumption of power on the part of the Mother Country, yet none of these works embrace what may be termed its Domestic and Internal Political History.
This part of the history of Maryland it should be her pride to hand down to posterity, not only on account of its deep interest, but as a public State Record of the voluntary sacrifice, daring spirit, and determined resolution, of her citizens, during this period of doubt and dismay.
In the confident expectation that the citizens of Maryland will consider the proposed publication of sufficient importance to entitle it to their patronage, the Subscriber is induced to issue these proposals.
The Price per Copy, not to exceed \$2 00.

THE DECISIONS
OF THE
COURT OF APPEALS OF MARYLAND,
To be Reported by Thomas Harris, Esquire, Clerk of the Court of Appeals, and Reverdy Johnson, Esquire, Attorney at Law.

These Decisions will form a continuation of the first volume of Reports already published by Messrs Harris and Johnson which closes with the year 1805. It is proposed to publish the Decisions in a Series of Numbers, each to contain not less than one hundred and twenty five pages, and four numbers to constitute a volume. The last number of each volume will contain a full and complete Index. This mode of publication, it is conceived, possesses advantages which give it a decided preference to that of publishing the Reports in bulky volumes. It ensures the earlier publication of the Reports, and as not more than four numbers will be published in a year, the expense will not be so sensibly felt.

TERMS
The price of each number of the Reports will be \$1 25, payable on delivery.
Subscriptions to the above work are received at GEO. SHAW'S Store, the Maryland Gazette Office, and the respective Offices of the County Clerks of this State.

To the Public.
From the very generous support I received from my friends and fellow citizens, at the late election for Sheriff of Anne Arundel county, I am induced to offer myself as a Candidate at the ensuing election, and solicit the suffrage of those friends, and the public, who so zealously and actively, used their exertions towards me. Should I be the choice of the people, nothing shall be wanting on my part to give general satisfaction.

To all whom it may concern:
Cabinetary evidence having been produced to me, that Stephen Law Lawson, is appointed Vice Consul of His Majesty the King of Sweden and of Norway, for the port of Baltimore, in the State of Maryland, I do hereby recognize him as such; and declare him free to exercise and enjoy such political powers and privileges as are allowed to the Vice Consuls of the most favored nations, in the United States.

Testimony whereof, I have caused these letters to be made in patent, and the Seal of the United States to be hereunto affixed.
Given under my hand, at the city of Washington, the 17th day of May, 1827, and of the Independence of the United States of America the fifty first.
J. Q. ADAMS,
President.

Secretary of State.
