For the relief and care of Her

nig, or Hapture.
Do AMOS G HULL, having witnessed, during twenty the years practice in Burgery, the distress and missey attending the disease of Rupture, and the fatal consequences frequently insident it and being constitutions. quently incident to it, and being convinced that the unhappy effects were generally the result of badly conany, was prompted from feelings of professional duty, and an anxious deire to witness a more effectual reme dy, to devote a share of his time to the construction of an instrument for that purpose. He is now satisfied that rought into successful operation a Truss, constructed on a new principle and adapted to all cases of Rupture in both sexes; always, with out an exception, fulfilling the indi cation of confining or keeping up the howel, and often, especially in young ersons and recent cases. effecting a permanent cure.

Let it be observed that the pad of his truss, instead of being convex like that of all other Trusses, is slightly concave, like the open palm of the hand. This pad being placed over the rupture and the spring of the trues exerting its power upon the centre of it, the strong pressure is made by its circular margin, around the rupture opening and a diminished Maryland.

20th June, 1827.

In compliance with the charter of the Farmers Bank of Maryland, and unites the ruptured part so as to effect radical cure of the complaint.

The following testimonials in its fa your, are submitted to the public. Extract from the second edition of

"Thutcher's Modern Practice of Physic," Boston 1826. "A great variety of Trusses, formed on different principles, have been from time to time, introduced to public notice; but with one exception it may be asserted, that they have been found altogether deficient in those just principles upon which such instru-ments ought to be formed. It is withn a few years that a Truss has been nvented by Dr. A G Hull, a respec Pable Physician and Surgeon of New York, and late President of the Onei da Medical Society, which is incorparably superior in its principles and properties to any of those previously n use. Dr Hull is exclusively enti-led to the credit of first adapting the rue surgical principle for the radical He happily conceiv ed the idea that the pad of the Trues should be so constructed as simply to support the muscular fibres around the ring or aperture as much as pos maintained in perfect health. Unless this be attained the parts can never recover their natural tone, whatever

may be the degree of pressure appli Valentine Mott, M D Professor of Surgery in the University of New

York deposes: "The great and signal benefits which are produced by this Truss, result from its strict subservance to, and accordance with Scientific and Surgical principles. Its mechanical adaptation to the parts, the simplicity of its construction the limited motion nicely graduated by experiment, to the different attitudes of the body. and to the action of the muscles; the permanency of its location on the bo dy, and its pressure on the circum ference of the abdominal ring, are qualities, the tendency of which is to trengthen and restore the weakened parts, to contract the aperture, and ultimately to accomplish a cure of the

"The operation and effects of this Truss is therefore directly the reverse of all Trusses heretofors in use; which being convex tended to enlarge the dimensions of the rupture open ing." 'I have adopted it in my own before the 15th day of August nest; and am of opinion that the union of provided a copy of this order be in serted once in each of three successive ture in this instrument render it what practical surgeons in Europe and A-

merica.
T. W Hunter, M. D of N. York deposes as follows, "In two very interesting cases of Scrotal" Hernia which is the worst and most difficult kind) that came under my care, it was work with perfect comfort, and effected a complete cure of both in less than twelve months. This Truss is approved of by the most eminent Surgeons in the United States and Europe particularly by the celebrated Sir Astley Gooper, of London.

Joseph Evans, late of Philadelphia, Joseph Evans, late of Philadelphia, Leather Merchant deposes as follows.

"Having been ruptured about seven years ago, I applied to Dr. Hull, in person, who furnished me with one of his Trusses, and after wearing it a bout six monthe, I found myself en tirely cured, so much so that I can walk about with safety, without wear ing the Truss; and in my opinion it is

one of the greatest improvements and blessings to mankind that is known. Extract from the Medical Review and Journal, conducted by Professors Eberie and M Ciellan, Philadelphia,

"We have applied Dr. Hill's Trus-ses upon eight different patients, two of which were affected with Double Scrotal Hernia, and the results of our experience have been so satisfactory

> PROPOSAL FOR PRINTING

The Journals of the Conventions of the Province of Maryland,

Held in the City of Annapolis, in the years 1774, 1775 and 1776.

IF Sufficient encouragement be of ered, the Subscriber proposes to pub-ish, in one volume octavo, the Jour als of the Conventions of the Province of Maryland in the years 1774, '5 and '6. It is believed that there are not more than two copies of these Journals now extant; and from the circumstance that they were printed in pamphlet form, and unbound, it may be fairly concluded that they, too, must in a few years be destroyed by the mere decay of time. These Journals are the only authentic evidence of the Political History of Maryland, during that interes-ting and unquiet period. Although we have, in abundance, histories of Maryland, as connected with the asso ciation of Provinces and Colonies, at that time formed, for mutual protection against the improper assumption of power on the part of the Muther Coun rv. vet none of these works embrace what may be termed its Domestic and Internal Political History.

This part of the history of Marvdown to posterity, not only on account of its deep interes, but as a public State Record of the voluntary sacrifices, daring spirit, and determined resolution, of her citizens, during this period of doubt and dismay.

In the confident expectation that th citizens of Maryland will consider the proposed publication of sufficient im-portance to entitle it to their patron-age, the Subscriber is induced to issue these proposals.

The Price per Copy, not to, er eed 82 00. J. GREEN. ceed 82 00.

DECISIONS

Court of Appeals of Maryland. PUBLISHED

By Subscription.

the decisions OF THE COURT OF APPEALS OF

MARYLAND, To be Reportedby Thomas Harris, Require. Clerk of the Court of Ap.

peals, and Reverdy Johnson,

Esquire, Attorney at Luw. These Decisions will form a conti nuation of the first volume of Reports already published by Messrs. Harris and Johnson, which closes with the year 1805. It is proposed to publish the Decisions in a Series of Numbers, each to contain not less than one hun dred and twenty five pages, and four numbers to constitute a volume. The last number of each volume will con tain a full and complete Index. This mode of publication, it is conceived, possesses advantages which give it a decided preference to that of publish ing the Reports in bulky volumes It ensures the earlier publication of the Reports, and as not more than four numbers will be published in anyear. the expense will not be so sensibly felt.

TERMS The price of each number of the Reports will be 41 25, payable on de livery

. Subscriptions to the shore work are received at GEO SHAW'S Store, the Maryland Gasette Office and the respective Offices of the Coun

To the Publica

From the very generous support I received from my friends and fellow citizens, at the last election for Sheriff of Anne-Arundel county, I aminduced to offer myself a Candidate at the ensuing election, and solicit the suffrage of those friends, and the public, who so zealously and actively, used their exertions towards me. Should I be the choice of the people, nothing shall be wanting on my part to give general astifaction.

U. S. Telegruph. WHEELING, Va. 25th June, 1827. Sa-The public mind having es, for months, extremely agitatin consequence of a letter of ne to a friend of Fayetteville, N. in March last, published in the per of that place, I take pleare, indeed, of gratifying them with ull communication of all the cirtances developed to me by Gen.

from me in reference to it It will be seen that his communiion embraces infinitely more subt, than was contained in my letter; d, indeed, it goes more fundamenly into the whole train of matter, nected with the subject. After ing variously attacked by these detable, hireling, scurrilous printers the west, in various directions, servient as they are to Mr. Clay d Executive purposes; this letter in the General may be supposed relief to me. I feel, indeed, highgratified in receiving it. And, actly calculated upon, yet, as the the anxiety is great to reach the

opportunity given me of drawing the long to both point and ternation. I have written on to Gen. ison, informing him precisely of course and bearing of the sub-Mr. Clay having peremptorily positively denied the whole, as regards himself and his rade, will, of course, bring the cir-naturce fully and fairly out. I not, myself, have the smallest sible doubt about the issue. You be pleased to publish the short Tespondence I had with Mr. No-Zane, of this place, and his note me, with the certificate respecting Clay's denial. I beg that the may be at once published. Clay having got a copy of Gen. retation or approbation at all, I delay in its publication by me-

e course pursued to obtain the co-taken by Mr. Clay with him, is, y spinion, altogether insorrect hiproper, and I endeavoured to it it before the copy what made but as to the little and the same to

ekson, which gave rise to the let-

but, as it will be seen by the en- th
