To the Editor of the Mt. Gazette.

Mr. Editor—By publishing the following, and the returns\* from Loweriania, you will oblige A Subscriber.

LOUISIANA ELECTION.

The prevailing impression among some people seems to be, that the House of Representatives of Louisiana consists of fifty members.

This opinion is erroneous.

That state is represented according to her population.

The members of the House of Representatives are chosen every two years, and the number to which each county is entitled, is regulated by a law growing out of an enumeration of its inhabitants, which is made every four years.

The last enumeration was made in the year 1825, and the consequent law fixes the number of representatives at forty-eight.

This number cannot be increased until after the next census, which, agreeably to the constitution, does not take place until the year 1830.

The election returned, therefore, given in this day's paper, so far as they relate to the number of representatives, are complete.

They that correctly designate the party to which each gentleman belongs, who is elected, we believe is generally admitted.

The state of parties in the new House of Representatives is, twenty-five Jackson men, and twenty-three administration men—A majority of two in favour of the Jackson party.

In the House, last year, there was a majority of eight for the administration.

A considerable part of the unfinished bank below the village of St. George, indicating a decided tendency to be abandoned.

The drain itself had never been fully excavated.

That process is going on, and when effected, will improve the health and comfort of the neighbourhood, objects to be desired by the company, and which it has studied and promoted.

They have been placed on the main road, and forms a very substantial and safe bridge, on a much frequented road.

The drain itself had never been fully excavated.
