M'Pherson, Bowles and Kemp.

Mr. Done, chairman of the committee on ways and means, delivered the following report:
The committee on ways and means have taken into consideration the petition of sundry citizens of Caroline county, praying the passage of a law to authorize the drawing of a lottery to raise a sum of money to build a house in the village of Denton, to be used and occupied as an academy, and make the following report:
The plan of raising money from the sale of lottery schemes and tickets, has been for a number of years adopted by the state as a source of revenue, and from the time when this plan was embraced in the system of finance, the legislature have declined granting to any applicants, with but few exceptions, the right of raising funds by lotteries for any object however laudable.

So long as the legislature shall continue the present policy of looking to this as a means of replenishing the treasury, your committee are of opinion, that it would be injurious to the interest of the state to grant any franchise of the kind for a local or private purpose; the committee therefore think that it is inexpedient to grant the prayer of the petitioners, nor can they suggest, under present circumstances, any better or other plan to aid in accomplishing the object contemplated in their petition.

Which, being read the first time, on motion by Mr. Wright of Queen Anne's it was ordered to lie on the table.
