At the Twelfth Annual meeting of the American Colonization Society-Mr. Mercer addressed the meeting. Mr. Mercer addressed the meeting, and after congratulating the President and board on the return of the present anniversary, under auspices a larger ing, said that the time is not, trust, very remote, when there will sent a district, a city, or village in our country, where the success of the American Colony of Liberia will not be helied with iny. American Colony of Liberia will not hailed with joy. A place was long sought for in vain, to which the free coloured population of the United States might be transported with safety to others, and advantage to thenselvest allength, such a spot has been found, where every advantage seemed to be concentrated, which the most enlightened friend of the African race could have deaired. And Whereas, Pennsylvania is ho oursely distinguished in having led the way in benevolent efforts to improve the condition of the African race in this country, and of having seized the first moments of her independence from foreign dominion to abolish slavery as aconsistent with her benevolent instiutions, and in the eloquent language of the Legislature of that day in grate-ful commemoration of our happy deliv-erance from that state of unconditional submission, to which we were doomed by the tyranny of Britain." therefore proper, that an association of enlightened, and oblightened to some whose taxes united to form for IPEPper-sons of colour an asytum in the land of their lithers, Shoul receive the counsembly of Pennsylvania. And from the success which has already attended the try to all of those people who may choose to emigrate there, and their remova

It holds out to the Christian & philanthre pist, the hope, that by the means of this colony, the lights of Christianity and civilization may be made to shine in a land shrouded in the darkness of harbarism, and thus atonement in som measure be made for the wrongs which slavery has inflicted on Africa -As the evil which society seeks to remove, pervales the white country, it would seem to deserve the attention of those whose duty it is and who are provided with the means "to provide for the general welfare" Therefore,

Resolved, That in the opinion of this

General Assembly, the American Colonization Society eminently deserves the apport of the National Government, and that our Senators and Re presentatives in Congress be requested to aid the same, by all proper and conditutional means.

He was an attentive and affectionate husband, a fond father, an indulgent master and a kind neighbour; possessing greatintegrity of character, he filled for many years, appointments of trust and responsibility with credit to himself, and usefulness to his native county, and was at the time of his death the senior justice of the peace for Anno-Arundel county, in which capacity he had actively served for about 120 years.
