

Foot Ball and county rate in England...

Maryland Gazette

ANNAPOLIS: Thursday, April 22, 1830.

EXECUTIVE COUNCIL.

There will be a meeting of the Executive Council on Friday, 3d May.

Voters of Anne Arundel county.

Voters in each of the Election districts of Anne Arundel county, who are disposed to the administration of the general government, are respectfully requested to meet in several districts, to appoint five delegates to meet in General Convention at the tavern, on the third Saturday of May, for the purpose of recommending candidates to represent the county in the Legislature of Maryland.

MANY VOTERS.

On the 20th of March, 27 Surgeons, Adjutants, Majors, and Sub Adjutants, received their commissions for the expedition against Algiers, and they have had notice that the day of their departure will be fixed upon hereafter.

The Count de Rossi has written letters to several of the Paris papers, stating that he is married to the late Madame de Sontag.

Spain.—The new Expedition to Mexico. A letter from Cadiz of March 5, says: "The Spanish expedition to Cuba has not yet sailed, but is to be ready to put to sea by the 8th."

El Saor Don Edmundo Morat has the contract for provisions, and he is actively engaged in affording them a supply for at least 15 months. It is now well known that it is a Spaniard, and not the Mexicans, that conquered Barradas. It is this gentleman who is to have the contract for the grand expedition also, which is to be ready to put to sea in August, and to consist of 22,000 land forces, all destined for Mexico, and there is not a doubt entertained here of its success. The quotas which are to be raised are being raised in Cadiz.

Portugal.—Private letters from Leghorn, dated 8th March, state that Lord Cochrane was on the point of embarking for Terceira, where he was to take the command of the expedition projected by the Emperor Don Pedro against Portugal.

It is stated that an autograph letter of Don Pedro has, within a few days, been sent to the sovereigns of the different courts of Europe, notifying to them the establishment of the Portuguese Government, under Donna Maria, at Terceira, to which island the Marquis de Palmella has lately gone.

Egypt.—A letter from Alexandria (Egypt) says: "Public rejoicings have just taken place on occasion of the Circumcision of three young Princes, two of whom are sons of the Pacha, and the other of his son Ibrahim. The fetes lasted seven days, and in the evenings there were illuminations and fireworks. Only two foreigners were invited with the Mussulman guests—the Consul-General of Sweden, and Mr. Briggs, an English merchant. Most of the European ladies were dressed in male attire. There was a press for Cotton at Alexandria, in February, and several houses offered important sums as advances, in order to gain a preference in the disposal of it. The crop of Cotton has been diminished for several years. This is to be attributed to the disappointment which the Vice Roy has experienced in the adventures made on his own account. The distaste thus created, has caused the neglect of this cultivation, which has conducted so much to the wealth of Egypt, and contributed powerfully by its abundant production to the resources of the government. All this exhibits distinctly the inconvenience of monopoly."

Although the cotton crops were much injured by the inundation of the Nile last season, yet the produce was estimated at 80,000 bales.

Navarra.—Navarra, March 1.—Naples has lately been desolated by earthquakes, which were renewed for several days. Some of the houses could not resist the violence of the shocks. We have not felt them on this coast.

HAVANA.

By the brig Spark the editors of the American have received a letter from Havana, under date of 3d instant, which says: "The late Correo, (No. 3) from Cadiz, brought intelligence that the ninety gun ship Hero was to sail immediately after ship Hero to relieve these garrisons, weakened by loss of men whose term of service has expired. She and her convoy are daily expected. The frigates Casilda sails to-morrow for Cadiz, in company with seventeen Spanish vessels. The frigate Restauration has returned from her cruise, and nothing more is heard of any privateer on the coast of the Island. The Spanish brig Doris, from New York is missing, but probably foundered or wrecked, and possibly captured. The U. S. frigate Brandywine arrived on the 1st instant. The Fal-mouth is at Key West, to be here on the 5th. Of the late conspiracy nothing is now said. It is of no importance—we are perfectly quiet. We have no news here of the approach of a new governor, except from extracts from Madrid papers, copied into the American papers. No change is desired; none for the better could be made."

The whole surface of France is 107,405,600 acres, of which nearly one-eighth is covered with wood, one-sixth of which belongs to government, and derive from them a net revenue of 23,000,000 francs.

JEWISH SCRIPTURE MSS.

In transcribing the sacred writings, it has been a general rule with the Jews, that whatever is considered as corrupt, shall never be used, but shall be burnt or otherwise destroyed. A book of the law, wanting but one letter, with one letter too much, or with one error in one single letter, written with any thing but ink, or written on parchment made of the hide of an unclean animal; or on parchment not purposely prepared for that use; or prepared by any but Israelites; or on skins of parchment tied together by useless strings, shall be held to be corrupt; that no word shall be written without a line first drawn on the parchment, no word written by heart, or without having been orally pronounced by the writer; that before he writes the name of God, he shall wash his pen; that no letter shall be joined to another, and if the blank parchment cannot be seen all around the letter, the roll shall be corrupt. There are certain rules for the length and breadth of each sheet, and for the space to be left between each letter, each word, each section. These Maimonides mentions as some of the principal rules to be observed in copying the rolls. Even to this day it is an obligation on the persons who copy the sacred writings for the use of the synagogues, to observe them. Those who have not seen the rolls used in the synagogue, can have no conception of the exquisite beauty, correctness, and equality of the writing.

THE MURDER AT SALEM.

The evening Gazette of Saturday gives the following additional particulars. Upon opening the body of Mr. White some of the stabs were found to be three quarters of an inch wide by a flat instrument, sharp on both edges—and the other stabs, by a triangular instrument of rather smaller dimensions—and that three ribs of the deceased were broken.

Mr. Joseph White, with his antiquated notions, had been for many years known to be in the constant habit of keeping a large sum of specie by him in his bed chamber. No doubt every robber has had this money in his mind's eye for many years—and this must have been the fatal lure that cost him his life. If, accidentally, the robbers have not got so much plunder, it is because on going to the Merchant's Bank a large sum of specie, believed to be full of gold, which it had been his habit to keep in his bed chamber, and which has ever since remained upon special deposit in that Bank. It is not certain that the robbers took nothing. It appeared in evidence, at the Coroner's inquest, that Mr. White stated to a member of his family, about three weeks since, that he had a thousand dollars in specie in his house—and yet the only specie now found there is between thirty and forty dollars.

He retired to bed on Tuesday night soon after 9 o'clock. It was the opinion of the physicians at the opening of the body, that two different persons stabbed the deceased. The funeral of Mr. White took place on Friday afternoon, and was attended by an immense concourse of people.

By the imprint of the murderer's foot it is supposed that he is a small person, and that the impression was probably made with an Indian rubber shoe or a stocking upon the foot, as there is no indentation of the heel of a boot or shoe.

A highly spirited meeting, at the town hall in Salem, took place on Friday evening, called at short notice—upwards of 5000 people attended—and the most spirited measures were adopted.—Stephen C. Phillips, Esq. was called to the Chair, and Jonathan P. Saunders was chosen Secretary. A voluntary watch was forthwith raised, and such was the spirit manifested that it went into actual operation on the same night. The number that volunteered was very large. The Rev. Mr. Colman made a feeling speech on the occasion which was listened to with almost breathless anxiety.—Mr. Huntington and the Chairman also made very appropriate remarks. There never was a meeting held, where all were more feelingly spirited and vigilant.

A Committee of vigilance, consisting of seven from each ward, was raised, with full powers to search every house, and interrogate every person, on any point that could lead to the detection of the murderer.

From the Kingston Jamaica, Chronicle. Information from a highly respectable source, has reached this Island, that His Majesty's government have unity of purchasing consideration the practicability of purchasing the slave property in the West Indies. To effect this object, the proposition is to fund all duties, arising from colonial produce, for six years, and to make up the defalcation of the revenue, for the three, by other means, and they have calculated that 500,000 negroes, attached to properties in the West Indies, will, at a valuation of £30 sterling enable them to pay that sum off at the end of 5 years; and the amount of taxation, for the sixth year, will be sufficient to pay the same valuation for domestic slaves belonging to towns, &c.

On the 20th November, the brig Pacific, bound from Havre to the Canary Islands, picked up a little skiff which had hoisted a white flag, and from which were rescued 12 men, two women, and a child, who were almost starved to death. Twelve days previously they had left St. Michael's for St. George's Island, distant only a few leagues. A north easterly gale had driven them out to sea, without any other provisions than what they had thought necessary to prepare for a passage of 24 hours. When they met the Agave, they had been six or seven days without food or water, and were nearly 200 leagues from their original point of departure.

POSTERIOUS FAME.

The copy of the minor poems of Lord Byron's minor poems was recently sold by auction in London, and Murray became the purchaser, for 5,700 guineas.

SUICIDE.—"ALL FOR LOVE."

We learn that a Mr. Wood, a married man, aged 50, living in the vicinity of Painted Post, fell so violently in love with a neighbouring female, that on hearing she had agreed to be married to a Mr. Nichols, left his wife's bed, went to the stable, and hung himself with a halter. Farmer's (Steuben county) Advocate.

NEW SOCIETY.

The ladies in a part of New York, have formed an "anti-wife-whipping society."

METEOROLOGICAL JOURNAL.

JOSHUA W. DORSEY, Ex'r. April 22. 6w

BY-LAW.

A Supplement to the By Laws chap. 12 & 103, regulating Carriages of burthen and pleasure, within the City of Annapolis, and precincts thereof.

WHEREAS: It is represented to this Corporation, that great inconvenience obtains in granting license to persons owning Carriages of pleasure and burthen, in this City, in consequence of the want of an enactment requiring said licenses to be taken out at certain stated periods, for remedy whereof.

1. Be it established and ordained by the Mayor, Recorder, Aldermen and Common Council men of the City of Annapolis, That the license heretofore granted to owners of Carriages, Carts and Drays, in this City, in compliance with the provisions of the By Laws, of which this is a supplement, shall expire on the first day of September next, and on the 1st day of September each and every year thereafter. Provided, That all persons whose license shall not have expired by the first day of September next, shall be credited for all that portion of time necessary to complete the year.

2. And be it established and ordained by the authority aforesaid, That the clerk to the Corporation, shall be required to give notice in some newspaper published in Annapolis, and that in said notices require renewing, and that in the event of the failure of the parties so to renew the clerk shall give information thereof either to the Mayor, Recorder, or one of the Aldermen, who shall immediately issue a precept imposing the penalty prescribed in the above recited By-Laws.

3. And be it further established and ordained by the authority aforesaid, That it shall be the duty of the said clerk to grant a certificate for all licenses issued by the said corporation, and that for all licenses so granted, he shall be entitled to demand and receive the same fees prescribed in By-Law, Chap. 85, sec. 4, passed April 27, 1826, appointing a clerk for the Corporation, designating his duties, &c.

4. And be it further established and ordained by the authority aforesaid, That any person who may wish to take out license in the course of the year, shall be entitled to, and may obtain a license on paying therefor a ratable allowance, and every such license, shall be limited to and expire on the first day of September next thereafter.

D. CLAUDE, Mayor. April 22. 6w

TEACHER WANTED.

By the Trustees of the Free School of Anne Arundel county, who can come well qualified to teach the Latin and Greek Languages, and also well versed in Mathematics, and all the various branches of the English Language. The situation is one very desirable, as it is in a neighbourhood where the population is considerable. The application will be made to the Trustees of the Free School, near Annapolis, Anne Arundel county, April 15.

The National Intelligencer will publish the above once a week for three weeks, and forward the account to the Maryland Gazette.

10 DOLLARS REWARD.

LOST DOG.

A WHITE POINTER, long tail liver coloured ears and rump and an oval spot about two inches across, nearly on the top of his rump. The said Dog went in the Steam Boat from Baltimore to Annapolis on the 5th March, and is supposed to have followed a gentleman from hence the next day. The above reward, and a reasonable charge for all trouble, will be paid to the person who shall deliver the said Dog either at the U. S. Barracks at Annapolis, or at Baltimore's Landing Baltimore. April 15. 3w.

DR. HULL'S TRUSS.

FOR the relief and cure of Hernia or Rupture. This Surgical instrument is now so well known to the Medical profession, and so extensively used by unfortunate sufferers labouring under the disease of Hernia, that a particular account of its mechanical construction of its surgical effects is thought unnecessary. The subjoined remarks from Physicians and Surgeons of high respectability in our country, are the results of much practical experience in the use and application of this truss.

James Thatcher, M. D. author of the Modern Practice, in his second edition, under the subject of Hernia, remarks "Dr. Hull is exclusively entitled to the credit of first adapting the true Surgical principle for the radical cure of Hernia. He happily conceived the idea that the pad of the Truss should be so constructed as simply to support the muscular fibres around the ring or aperture as much as possible, in the state in which they are maintained in perfect health. Unless this be attained the parts can never recover their natural tone, whatever may be the degree of pressure applied."

Samuel Ackerly, M. D. in his excellent edition of Hooper's Medical Dictionary, under the head of "Truss," after enumerating the evils resulting from the use of the defective trusses formerly worn, says, "Dr. Hull's Truss, of New York, turned his attention to the subject, and by his improvement in the construction of trusses, has rendered it certain that all recent ruptures and those of children, may be permanently cured, and those of old people and of long standing, may, in many cases, also be remedied. The pad of Dr. Hull's Truss is convex and not convex and hence the raised circular margin. By proper adaptation, presses upon the sides of the hernial opening, and tends to close the aperture and cure the hernia."

M. L. Knapp, M. D. late Physician and Surgeon to the Baltimore General Dispensary, in a communication to Doctor Hull, says: "I have applied your trusses in several hundred cases during the last three years. A great many upon whom I have applied your trusses, have been radically cured, and some of these were cases of long standing, where all other trusses had failed. I send you a note of thanks from Mr. P. a citizen of great respectability, who was cured of a bad scroful rupture, of thirty five years standing, by wearing one of your trusses for two years. He had worn other trusses twenty nine years. His son, also, aged 16 years, ruptured from his infancy, was cured under my care in less than two years."

A case of scroful rupture, of twenty years standing, in a labouring man forty years old, was cured under my notice by one of your trusses in six months. A case of groin rupture, from lifting, in a labouring man, thirty years old, was cured under my notice by one of your trusses in three months. Experience alone, can make known to the Surgeon the full powers and excellence of these instruments. Your trusses are exclusively preferred by the Professors in both of the Medical Schools in this city, and the Faculty in general.

Baltimore, January, 1830. Valentine Mott, M. D. Professor of Surgery, says, "The great and signal benefits which are produced by this Truss, result from its strict subservience to, and accordance with Scientific and Surgical principles."

"The operation and effect of this Truss is directly the reverse of that of the Truss in use; which being convex, tended to enlarge the dimensions of the rupture opening. I am of opinion that the union of Surgical design & mechanical structure in this instrument render it what has long been the desideratum of Practical Surgeons in Europe and America."

Professor Mott also is referring upon Hernia, recommends Dr. Hull's Truss to the exclusion of all others.

Apply at the office of Dr. KNAPP, 37, Fayette street, east of Monument Square, Baltimore. March 11. 3M
