IMPROVEMENT:

In the six of building Chimneys, and altering those already built, in such manner as to prevent of cure their smoking.

From the time that chimneys were first introduced, the building them has been but a series of experiments. The best vortagen have only succeeded, when accidentally approximating the principles, now first systematized and offered to the public. That this subject should have been involved in mystery till the present time, can only be attributed to the imperfect state of Chemical Science until within the last few years. The progress recently made

GROCERIES

DR. HULL'S TRUSS. ture. This Surgical instrument to now sewell known to the Medical fersion, and so extensively used by unfuturant subcrease labouring under the disease of Hernig, that a particular account of its mechanical construction of its surgical effects is thought unnecessary. The subjoined remarks from Physicians and Surgeons of high respectability in our constru Surgeons of high respectability in our country, are the results of much practical experience in

he use and application of this truss.

James Thatcher, M. D. author of the Modrn Practice, in his second edition, under the subject of Hernia, remarks "Dr. Hull is exclusively entitled to the credit of ant adapting Survices principle for the radical cure clusively entitled to the credit of aget adapting the true Surgical principle for the radical cure of Hernia. He happily conceived the idea that the part of the Truss should be so constructed as simply to support the meaching fibres around the ring or aperture as much as possible, in the state in which they are maintained in perfect health. Unless this be attained the parts can apper recover their natural tone, where we never recover their natural tone, whatever may be the degree of pressure applied."

Samuel Ackerly, M. D. in his excellent addition of 'Hooper's Medical Dictionary,' under the head of 'Truss,' after enumerating the evils resulting from the use of the defective trusses. formerly worn, says, 'This evil was not ful-ly remedied until Dr. Amos G. Hall, of New York, turned his attention to the aubject, and by his improvement in the construction of trus ses, has rendered it certain that all recent rep-tures and those of children, may be permanent ly cured, and those of old people and of long We the subscribers, the Sheriff, Clerk, and Treasurer of Susquehanna Co. Pa. Do certify that A. H. Raad, Esq. the patentee above named, is a Gentleman of respectability, and established character for honesty and probity. & we have no doubt of his faithfully complying with any contract he may make.

have applied your trusses in several hundred cases during the last three years. A great many upon whom I have applied your trusses, have been radically cured; and some of these were cases of long standing, where all other trusses had failed. I send you a note of thanks from Mr. P. a citizen of great respectability, who was cured of a bad serotal rupture, if thirty-five years standing, by wearing one of your trusses for two years. He had worn other trusses twenty nine years. His son, also, aged 16 years, ruptured from his infancy, was cured under my care in less than two years. -ding, in a labouring man forty years old, was cured under my notice by one of your trusses in six months. A case of groin rupture, from lifting, in a labouring man, thirty years old, on whom I applied one of your trusses, the day after the injury, was cured in three months - Experience alone, can make known to the Surgeon the full powers and excellence of these instruments. Your trusses are exclusively preferred by the Professors in both of the Medi al Schools in this city, and the Faculty in gen-

Baltimore, January, 1850.

Valentine Mott, M. D. Professor of Surge ry, says, 'The great and signal benefits which are produced by this Truss, result from its strict subservience to, and accordance with Scientific and Surgical principles.

'The operation and effect of this Truss is directly the reverse of all Trusses heretsfore in use; which being convex, tended to enlarge the dimensions of the require operator.' I am

the dimensions of the rupture opening." I am of opinion that the union of Surgical design & mechanical structure in this instrument rend is what has long been the desideratum of Prac-tical Surgeons in Europe and America.

Professor Mott also in lecturing upon Her is, recommends Dr. Hull's Truss to the exlusi a of all others.

Apply at the office of Dr. KNAPP. 57, Fayette street, east of Monument Square, Bal-March 11

THE STEAM BOAT

MARYLAND

HAS commenced the Season, and will persee her Routes in the following manner:—Leave Easton every Wednesday and Saturday morning at 7 o'clock, and proceed to Cambridge, and thence to Annapolis, and thence to bridge, and thence to Annapolis, and thence to Baltimore, where she will arrive in the evening Leave Baltimore, from the Tonacco Inspection Warchouse wharf, every Tuesday and Friday morning at 7 o'clock, and proceed to Annapolis, thence to Cambridge, if there should be any passengers on-board for that place, and these to Baston; or directly to Easton; if no passengers for Cambridge.

She will leave Baltimore every Monday morning at all of clock for Chesterdown, calling at the Company wharf on Corsica creek, and creaking these Chesterdown to Baltimore the same day, calling at the wharf on Corsica creek.

All baggage and Parkages to be at the risk the owners.

MISCELLANEOUS.

From the Kentucky Reporter. Let no one mourn when I am dead, Let no one mourit when I am dead, My weary wanderings o'er For then, at least, my aching head Will threb and think no more. Let no one weep when I am dead, For then my tears shall cease; Reposing on no restless bed, 111 find a lasting peace. Let 20 one griere when I am dead, On then, my grief how calm! No more my heart, by anguish led, Shall seek for friendship's balm. Let them but say, 'Her heart was kind,

Her spirithigh and pure;—
That e'en the calm and patient mind Not slways can endure. Let them but say-Her weary feet, At last, have ceased to roam;
Thist, with unrest, in Heaven she'll seek,

What earth denied-a home. AUTUMNAL EMBLEMS. By William Howit. . THE THISTLE DOWN.

Lightly soars the thistle down; Lightly doth it float; Lightly seeds of care are sown— Little do we note. Lightly floats the thistle down; Par and wide it flies; By the faintest zip by blown Through the shining skies.

Watch life's thistles bud and blow, Oh! 'tis pleasant folly! But when all our paths they sow, Then comes melancholy.

INTERESTING NARRATIVE.

In travelling through the Western States. I have heard and seen a few things which I hive deemed worth recording. In another journal of this city, I have published some them: the following if you think proper,

I will thank you to insert in the Chronicle The individual whose story is given helow, I met in the State of Indiana, and learnei by mere accident, that his life had been smewhat peculiar. He at first refused to gire me his history; and I had to use some aldress to overcome his obstinacy. It was with manifest repugnance that he entered upon the relation, pleaded haste, and finally let me unsatisfied as to some parts. Gentle-igen present assured me that I had been pardarly fortunate-that they had never known him so communicative on these subjects before, but that I might, in their opiniplace implicit reliance in his statements as his character for veracity was fair. I will endeavour to give his narrative, as nearly as his own words, assisted by a few hasty oles, will enable me

STORY OF GEORGE ASH. My father, John Ash, was one of the car-

liest emigrants to Kentucky, and settled near Baristown, Nelson county, many miles from any other white settlement. In the from any other white settlement. In the month of March 1790, when I was about ten years of age, we were attacked by the Shawnee Indians, a part of the family were killed, the rest taken prisoners. We were separated from each other, and excepting a younger sister, who was taken by the same party that had me in possession. I saw none of my family for seventeen years. My sister was small they carried her two or three days, but she cried and gave them trouble, and they tomahawked and scalped her, and left her lying on the ground. I was after fils transferred from one family to another, with times, and treated barshly, and called a prite dog! till at length I was domesticated in a family, and considered a member of it. After this, my treatment was like that of other children of the tribe. The Shawnees, at this time, lived on the Big Here we continued until Gen. Clark came out and attacked us and laint our town. We then reproved to St. Mary's and continued there done years. While here, Gen. St. Clair same outsgainst us. Eight hundred and affy warriors went out to meet him; and on their way, were joined by fifty Kickapoos. The two armies met about two hours before The two armies met about two hours before unisot. When the Indians were within allient half a mile of St. Clair, the sples came faming back to inform us, and we stopped. We concluded to meaning it was too late, they said to begin the plack. They would feler the sport till the next the Gen. Blue sacket was our commander. After dark he called sit the chiefs around him, to listen to that he had to say "Our fathers," said he used to do as we now do not this incide to tight other tribes—they could trust to their awa strength and their numbers, but in this
