They must not be absent themselves from their rooms, during the hours of study, especi-ally in the evening, except by permission from one of the Faculty; and a close attention will be paid to the habits of the Scudents, that gove norals may be cultivated and preserved. PUBLIC WORSHIP.

The Students will be required to attend pub ic worship, in this City, both morning and af-ternoon; and Monitors for the second Charcies will make returns of all absences, who will give an account of their absence to the Principal. The Roll will be called, as a before the daily devotions at the College. No Student will, at any time, leave the Cry, without express leave obtained from the Principal. That the public may rest assured of the presidence of no perticular sectarian influence at this College, the following clause is extracted from the Chireter; with the letter and spirit of which, the Officers of instruction, will invariably comply I'me second section of the thirty seventh chaper of the laws of Maryland, required, that "the said Contege shar or found and man tained forever, upon a most liberal plan, for the benefit of youth of every religious denomina-tion, who shall be freely admitted to equal privileges and advantages of education, and t he literary honours of the College, according to their merit, without requiring or enforcing any religious or civil test, or urging their at tendance upon any particular religious wor ship or service, other than what they have been edicated in, or have the consent and approbaion of their parents or guardians to attend."

Discretive, &c.
A record of all deficiencies t College exercises will be kept, and sent to each parent or guardian, at the close of every term. And, whenever a Student shall be found failing to secure the end for which he will have been placed at the College he may be such as placed at the College, he may be sent home privately, except in cases of a misdemeanour, or offence against the laws, when he shall be pronished by the ordinary penalties. By the adoption of a kind and parental demeanour, on the part of the Officers, it is hoped that such extreme cases will be avoided; and from the various advantages of location for the College, it is believed, that few places promise this immunity, in a higher degree, than the City of Annapolis. Its population is not large—the situation is central—its healthfulness, is surished by the ordinary penalties. By the adopsituation is central-its healthfulness, is surpassed by that of no place in the Southern States—access to the College, from all parts of the Union, by which parents would wish to nold communication with their sons, is most requent and easy, and the expenses of living are comparatively small. Annapolis is the Seat of the Government of the State; and the time of the Annual Commencements, which hap-pens during the Session of the Legislature, af-fords a high incentive to young men, to distinguish themselves, by their literary performances.

ADMISSION. Candidates for any standing in the College, will be required to bring from their teachers, testimonials of good moral character; and, in no case, will a Student be received from any other College, the beautiful from any other College, to the same standing in this, unless he shall bring, from the President, or other authority of such College, a certificate of his honor ble dicission.
