By the adoption of a kind and parental demeanour, on the part of the Officers, it is hoped that such extreme cases will be avoided; and from the various advantages of location for the College, it is believed, that few places promise this immunity, in a higher degree, than the City of Annapolis. Its population is not large—the situation is central—its healthfulness, is surpassed by that of no place in the Southern States—access to the College, from all parts of the Union, by which parents would wish to hold communication with their sons, is most frequent and easy, and the expenses of living are comparatively small.
