The study of the Modern Languages, shall be so arranged, as not materially to interfere with the College course.

The officers of instruction, will endeavour to make the course of study as thorough as possible; and in no case will a Scholar be allowed to pass, to an advanced standing, till he shall have sustained all the previous examinations, to the satisfaction of the Faculty.

In the Departments of Chemistry and Natural Philosophy, instruction will be given, and Lectures will be delivered, as heretofore, by the Principal, and the other Professors, until those Chairs shall be permanently supplied. Particular attention will be given to exercises

in Rhetoric and Oratory; and one forenoon of each week, will be spent, drilling the Students, in a thorough course of Reading and Speaking.

These exercises will be conducted by the Principal; and the Members of the Senior Class, will always be required to declaim pieces of their own composition. The Classification, which takes place at each general Examination, subjects those who are deficient, to the necessity of remaining in a lower grade; while, on the other hand, the hope of reaching a high standing, in a shorter than ordinary period, is held out to all who are ambitious to advance at a more rapid rate, than the usual average of a Class. A permanent record of the relative standing of the Members in each Class, is kept by the Faculty, and serves as a guide, in awarding the honors of the College. The principal test of the Student's proficiency, will be found in the Lecture Room, where he will undergo an Examination of one hour's duration, for each Lesson; and those Members of the higher Classes, who are permitted, under the discretion of the Principal, to have their rooms out of College, will be visited by the Principal, and the Professors during the hours appointed, for their encouragement and aid in the prosecution of their studies. They must not be absent themselves from their rooms, during the hours of study, especially in the evening, except by permission from the Faculty; and a strict attention will be paid to the habits of the Students, that good morals may be cultivated and preserved.
