The study of the Modern Languages, shall be so arranged, as not materially to interfere with the College course.  
 The objects of instruction, will endeavour to make the course of study as thorough as possible, and in the case of a scholar, be allowed to pass, to an advanced standing, till he shall have sustained all the previous examinations, to the satisfaction of the Faculty.  
 In the Departments of Chemistry and Natural Philosophy, instruction will be given, and Lectures will be delivered, as heretofore, by the Principal, and the other Professors, until the College shall be permanently supplied. Particular attention will be given to exercises

in Rhetoric and Oratory, and the formation of each youth, will be spent, in drilling the Students, in a thorough course of Reading and Speaking. These exercises will be conducted by the Principal, and the Professor of the Senior Class, who will always be required to decline those of their own composition. The Exercises, which take place at general Examinations, subjects those who are deficient, to the necessity of remaining in a lower grade, while, on the other hand, the hope of reaching a high standing, in a shorter than ordinary period, is held out to all who are ambitious to advance at a more rapid rate, than the usual average of a Class. A permanent record of the relative standing of the Members in each Class, is kept by the Faculty, and serves as a guide, in awarding the honors of the College. The principal test of the Student's proficiency, will be found in the Lecture Room, where he will undergo an Examination of one hour's duration, for each Lesson, and those Members of the higher Classes, who are permitted, under the discretion of the Principal, to have their rooms out of College, will be visited, by the Principal, and the Professors during the hours appointed, for their encouragement and aid in the prosecution of their studies. They must not be absent from their rooms, during the hours of study, especially in the evening, except by permission from one of the Faculty; and a close attention will be paid to the habits of the Students, that good morals may be cultivated and preserved.

**PUBLIC WORSHIP.**  
 The Students will be required to attend public worship, in this City, both morning and afternoon; and Monitors for the several Churches, will make returns of all absentees, who will give an account of their absence to the Principal. The Roll will be called, a week before the daily devotions at the College. No Student will, at any time, leave the City, without express leave obtained from the Principal. That the public may rest assured of the prevalence of no particular sectarian influence at the College, the following clause is extracted from the Charter, with the letter and spirit of which, the Officers of instruction, will invariably comply. The second section of the thirty-seventh chapter of the laws of Maryland, required, that the said College shall be founded and maintained forever, upon a most liberal plan, for the benefit of youth of every religious denomination, who shall be freely admitted to equal privileges and advantages of education, and to all the literary honors of the College, according to their merit, without requiring or enforcing any religious or civil test, or urging their attendance upon any particular religious worship or service, other than what they have been educated in, or have the consent and approbation of their parents or guardians to attend.

**DISCIPLINE, &c.**  
 A record of all deficiencies at College exercises will be kept, and sent to each parent or guardian, at the close of every term. And, whenever a Student shall be found failing to secure the end for which he will have been placed at the College, he may be sent home privately, except in cases of a misdemeanor, or offence against the laws, when he shall be punished by the ordinary penalties. By the adoption of a kind and parental demeanor, on the part of the Officers, it is hoped that such extreme cases will be avoided, and from the various advantages of location for the College, it is believed, that few places promise this country, in a higher degree, than the City of Annapolis. Its population is not large—its situation is central—its healthfulness, is surpassed by that of no place in the Southern States—access to the College, from all parts of the Union, by which parents would wish to hold communication with their sons, is most frequent and easy, and the expenses of living are comparatively small. Annapolis is the Seat of the Government of the State; and the time of the Annual Commencements, which happens during the Session of the Legislature, affords a high incentive to young men, to distinguish themselves, by their literary performances.

**ADMISSION.**  
 Candidates for any standing in the College, will be required to bring from their teachers, testimonials of good moral character; and, in no case, will a Student be received from any other College, to the same standing in this, unless he shall bring, from the President, or other authority of such College, a certificate of his honorable dismission.

**EXPENSES, &c.**  
 It has not been thought advisable to establish any common Board, including bedding, washing, and room rent; may be had, however, in private families in the city, for 120 dollars per annum. The charges in the regular College bills, will be, as follows: and are payable quarterly, and in advance—  
 English Department, - - - 824 do. do.  
 Preparatory Classes, - - - 840 do. do.  
 Freshman and Sophomore Classes, - - - 830 do. do.  
 An abatement of the College bills may be made, to necessitous Students; and provision is secured for the gratuitous instruction of ten Students, who may bring the proper testimonials for that purpose.

**COMMENCEMENTS.**  
 The Annual Commencements, take place in February, when all Degrees are to be conferred. The Faculty will assign to the Candidates for the Baccalaureate, and for the Master's Degree, the parts to be performed; and if any one should refuse the part assigned, or neglect to attend, his Degree may be withheld.

**VACATIONS.**  
 The regular Vacations, shall be from the last Wednesday in July, till the first Monday in September; from the 23d of December, till the first Monday in January;—from Good Friday, till the Monday week following; and the fourth of July.

The alterations, in the course of studies, which have taken place, on the late appointment of a Principal, seemed to be required, by the general advancement of Education; and, it is hoped, that the advantages for a superior and complete education with the several branches of knowledge, which the Institution now holds out to the public, will meet the wants and wishes

of its numerous friends; and especially of the numerous friends, who, in the year 1774, under the auspices of the Assembly for that purpose, established the said College, and have since distinguished themselves, in their efforts to discharge the duties of the trust devolving upon them, for the cordial approbation and co-operation of the alumni of their alma mater; and for such a portion of the public favour, as may seem due to an ancient and cherished Seminary of the State, that her existence and usefulness, may be perpetual.  
 By order of the Board,  
 A. C. MAGRUDER, President.

 VOL. LXXVI.

**PAINTED AND PUBLISHED BY JONAS GREEN, Church-Street, Annapolis.**  
 PRICE—THREE DOLLARS PER ANNUM.

**THE AMERICAN FARMER,**  
 Edited by GIBSON B. SMITH, Is published in Baltimore (Md.) by I. VAN VESSE HITCHCOCK & CO.  
 (Successors of J. S. SKINNER.)  
 In weekly numbers of eight quarto pages,—at Five Dollars per annum.

The purpose of this periodical is to be a medium through which a great number of the most enlightened and scientific practical cultivators of the soil, residing in every section of the United States, communicate the results of their experience to each other, and to the public, and receive similar benefits from the best theoretical and practical writers of foreign countries, on every subject connected with husbandry in the broadest sense of the term.  
 It is devoted exclusively to practical Agriculture; Horticulture, and Rural and Domestic Economy. The American Farmer contains also a great number of useful recipes, readings adapted to the stations of mothers and mistresses of families, and domestic markets for Agricultural products, and a correct statement of their prices current, at the time of publication, but no thing connected with party politics is at any time permitted to appear in its columns.  
 The American Farmer was the first periodical devoted exclusively to the promotion of American Agriculture, and it is by common consent acknowledged to have been hitherto its most able and efficient advocate. It is a valuable little to every farmer, and it is a more valuable body of practical information on this subject than any other extant.

The current volume of one year is the thirty-sixth of its publication, and few American periodicals circulate more extensively. It is taken and written for by men of talents and practical experience in the several departments of which it treats, in every part of the United States; and it has been subscribed for, and is regularly sent to many eminent individuals and learned societies in the different countries of Europe and America, whose unanimous testimony in the excellence of the work might be adduced, if its character was not in the opinion of the publishers, too well established to require recommendations.

The American Farmer is neatly printed on very fine paper, and many of the subjects of which it treats are illustrated by expensive wood engravings. The numbers for a year make a volume of convenient form and size, and the last one is accompanied by a title page, and minute index, completing the volume for binding.  
 When a number fails of being received by a subscriber, or becomes damaged in the mail, another shall be sent if requested.  
 N. B. The postage on each number is, when not over 100 miles, or when within the state, one cent; when over 100 miles one cent and a half.  
 Although a considerable surplus of copies beyond the current subscription list, has at all times been printed, and of some of the volumes a second and even a third edition have been issued, yet such has been the demand for the back volumes (that only a very small number can be had after the mode.)

The price of the work in sets is six dollars per volume half bound and lettered. Some of the volumes may be had single, at five dollars each.  
 Communications and advertisements connected with any of the subjects of the American Farmer, will be gratefully received, and promptly attended to.  
 In order to render the Farmer pleasant and profitable both to its publishers and its patrons, it is hoped that gentlemen will assent practically to the necessity and propriety of a careful compliance with the following

**TERMS OF SUBSCRIPTION:**  
 1. Price five dollars per annum, due at the middle of each year of subscription.  
 2. Subscribers are in all cases charged by the year, and never for a shorter term.  
 3. When once sent to a subscriber, the paper will not be discontinued till the end of the year unless he has given notice that shall be current at the time of receiving; such notice, except at the discretion of the publishers.  
 4. The risk of Mail in the transportation of both the paper, and of Bank notes sent in payment for it, is assumed by the publishers.  
 5. Advertisements connected with any of the subjects of the American Farmer, inserted at one dollar per square.

**AGENTS:**  
 All Postmasters are requested to act as Agents for the Farmer, and to require a strict compliance by subscribers with the above terms, especially the three first items. They are authorized to retain for each new subscriber, and 10 percent on all other collections.  
 The list of special Agents is published in the Farmer on the first Friday in each month. Subscriptions received at the Office of the Maryland Gazette, August 17.
