esolution to stand by them and share their fate; that he would be the last man to quit the rock; and that while this was his determination, where was the man among them who would forget himself so far as to dare to stir one step? The effect of Lieut. Stewart's example was electric. The men seemed to lose sight of their sufferings, and to be actulose sight of their schieffings and self-devo-ated by one spirit of heroism and self-devo-tion. The boat conveyed away the remain-ing officers except Lieut. Stewart. The enwith the departure of the box's and the situation of the wretched beings, marked as it were for destruction, grew momentarily more perilous. The fog increasing, shut out the ing officers except Lieut. Stewart. perilous. The fog increasing, shut out the hight of the sun. The biting north-east blast added to the severity of the cold, which was still further increased by the breaking of the still further increased by the degree still further increased by the breaking of the surf over the men. They lay huddled together for warmth. As may naturally be supposed, but little communication was hold among them, each appeared intensely reflecting that the Reform Bill was rejection.

beiving suffered shipwrock. Lie.c. Stewart, with a degree of produce and foresight, which under the circumstances of his situation would seem almost miraculous, strictly charged the soricint to conceal this circumstance from his fellow soldiers, for a knowledge of the soricint of the division took place. Lords Wynford, Eddon, Lyndhurst, Tenerden, the Arch B.shipper of the division took place. Lords Wynford, and Stringer of the Arch B.shipper of the division took place. Lords Wynford, the Control of the Control lodge of it would only bave aggravated their horrors, and might probably have driven them to desperation.—While this awaiting their end with a resignation scircley parallelled, a vessel appeared breaking the line of fog—the men could at first hardly believe their son as, and when the ship became clearly visible, the length of the following in proposing a measure that he deemed essential to the tranquility of the country. The burst of joyful exultation beggars description. They were matched by the over-ruling hand of Divine Mercy, from what to them appeared inevitable destruction, and in proportion to their former despair was their The effects of Lieut. Stewart's foresight

and prudence soon became apparent; the jul-ly-boat, after conveying the last freight to the second rock, proceeded in search of land, giving up the unfortunate men on the sunker rock as overwhelmed in the doop. The boat soon came in sight of two vessels, one of which immediately proceeded to the rescue of those on the second rock while the other went in search of Lieut. Stewart's party, with scarcely any hope of finding even one of them alive. But that God who worketh in secret had otherwise ordained—the wind blowing from the north east, though it aggravated their sufferings for a time, saved from a watery grave. Had it blown from any other quarter, the tide would have risen to its usual height, and they must have pe The survivors were all safely landed at Hallfax.

papers, or where economy is a great object as in the printing of school-books, tracts, as in the printing of school-books, tracts, wski, appointed Governor General of the king-down of Poland, who, on the 20th September, Treadwell, also of Boston, is too costly for the object. For book-work, especially of the higher order, the Treadwell Press (the same which is driven by steam in our office, and is now at work on the American State Papers, and the Register of Debates,) if not the Nerseau of the Autocrat—the blood which she has we prefer the Adams Press to any other Press of which we have any knowledge. It is work ed by hand, the labour of turning the wheel not much greater than that of turning a common grindstone. The sheets are placed on and taken of the State State Papers, and taken of the State Papers, and the sheets are placed on land—brave but the 20th September, which set who and three hours; but care must be taken that he does not fall asleep. After this, remove the extra covering from off the between two and three hours; but care must be taken that he does not fall asleep. After this, remove the extra covering from off the between two and three hours; but care must be taken that he does not fall asleep. After this, remove the extra covering from off the state by the Emperor, has appeared, which establishes a provisional Government in Poland. Consisting of a President and four members. Poland is no longer a nation—she is a yassal to the Autocrat—the blood which she has poured forth in rivers, in the sacred cause of liberty and home, has availed not—every friend of humanity must mourn over the fate of Polands. The sheets are placed on land—brave but the fate of Polands and three hours; but care must be taken that he does not fall asleep. After this, remove the extra covering from off the taken that he does not fall asleep. After this, remove the extra covering from off the taken the and there hours, and he will drop into a slumber, which is a yassal to the Autocrat—the blood which she has a vasial accompanied by a gentle perspiration. When he awakes, he will find himself weak; but the disease will have entirely left him; and he will drop into a slumber, with the labour of Debates, of the same that the constitution of the mon grindstone. The sheets are placed on and taken off the friskets by young women or boys, of whom four are required for each Press. The number of copies which the press is capable of turning off in an hour exceeds one thousand, and the average number of impressions at usual regular work on our Press, is about 890.

Feeling ourselves indebted to the Technology of the state of Poland—brave but unfortunate Poland—her name is blotted from the map of nations. From Belgium we learn, that the Armistice between that country and Holland, which expired on the 16th Oct., was further prolonged to the 25th October. In the Belgian characteristics, after a warm discussion, a proposition to enquire into the
