LATEST FROM FRANCE.
The packet ship Edward Quesnel, at New York, brings Havre papers to the 5th ami Paris to the 4th May. We are indebted to the office of the Coarier and Enquirer for an extra-sheet containing the following intelligence:
M. Montalivet is performing the duties of Minister of the Interior in France, in consequence of the illness of M. Perier.

Serious disturbances have broken out in the south of France
The ratification by Russia of the Belgian

It would seem, too, that an amicable arrangement has been made with France in re-lation to the occupation of Ancona, and that both the troops of Austria and France are to evacuate that part of the Papal territory si-

multaneously. The Cholera continues to make great ravages in Dublin and the County of Cork. It is also rather severe in Edinburgh, where it is said Charles K. finds himself no longer at his ease, and that he already speaks of going to country where he will have nothing to fear. He will probably set off for Italy to meet the

He will probably set off for Italy to meet the Dutchess de Berri. At London, the cholera is fast diminishing, and it is hoped that the city will soon be entirely free from it.

The London Courier says—The Russian ratification of the Belgium treaty arrived in the city resterday afternoon, but up to this moment we do not believe that the members of the conference have been convoked to ex-

change the ratifications.

We do not know if this delay is to be attributed to the absence of M. Van de Weyer, the Belgium minister who left London a few days ago on a virit to his friends in Belgium, or to some desire expressed by the Dutch Minister, that the exchange might be delayed until he has time to receive instructions from ant left.

Holland, on the line of conduct he is to adopt. M. Wallez, charge d'affairs of King and the militia had formed a junctureat Rock Leopold has probably been left in possession of full power to act in the de Weyer, and if it be so, no delay is necessary unless it be shought politic, as the King of Holland has hitherto appeared to act in concert with Ryssis, to give his minister an concert with Ryssis, to give his minister and the militia had formed a junctureat Rock Island, and Gen. It is also probable that this conciliatory conduct may be followed towards Holland, particularly if there is any foundation for the reports which have lately been in circulation of the hosdie intention of that country towards Belgium.

ENGLAND. EONDON, May I—There was a good deal of anxiety to-day in the city, on the subject of the much talked of ratification of Russia It is now known to be in the hands of Count Orleft. The courier who was bearer of it arrived in the Hamburg steamboat. He left 8t. Petersburgh the 17th April.

Some further particulars of the late disastrous skirmish in Illinois, between the American militialand the hostile Indians, are furniched in the following account from the Min-bished in the following account from the Min-souri Republican of the 22d ult. This acc-count, if correct, is a strong censure on the Major commanding the American scouting a party, as it goes to prove, that he either dis-cregarded or was ignorant of the peculiar mole of warfare pursued by the Indians, and per-mitted his corps to be decoyed, "without any regard to discipline," into an ambush of a large body of the enemy.

From the Missouri Republican of May 22. placed, we have learned the following parti-culars: The detachment concerned in the late

through St. Is men' street, we observed the fing ways literally strewed with stones, which had been thrown by the mob at the military, as no rew had previously taken place at that quarter. What shall we or whit can we add to the above. Were we to give an opinion of our own, we would be charged perhaps, as partisans. God knows that we have but little of it in our composition. We dare not give way to our feelings at this moment—but shall probably refer to the subject again—The tawn, at present, as far as we learn, is quiet, but the greatest alarm is prevalent—and we believe that the entwe of the military, including a portion of the Boysi Artillery, are under arms—ready to act at a moment's warning.

No blame can possibly attach to the military, rever did men act more calmly. With when the Indians commenced a precipitate re-

Although it was nearly dark, the whole detachment had been ordered to remount, and were met upon the route by the men who were returning. The pursuit was continued for several niles, the Indians receding as the troops advanced until they had decoyed them across Sycamore Creek, as it is called in the proclamation. This they did in disorder, and as each man successively reached. disorder, and as each man successively reached it. Being thus decoyed in the midst of the main body of the Indians, and without being allowed time to form, hostilities were commenced. The Indians showed themselves on menced. The Indians showed themselves on every quarter, mounted and armed. They commenced the attack with their guns, and alter firing them, resorted to the use of the to-mihawks and knives. As soon as their desperate situation was known, Major Sulann or dered a retreat across the creek, after an ineffectual fire at the enemy. The savages followed close upon them. No time was allowed for them to force on the operated bank of lowed close upon them. No time was allowed for them to form on the opposite bank of the creek. A company under the command of Capt. A bout half of the missing are thought to have belonged to this company. The battle was fought by monilight, in an open prairie, and the pursuit was kept up for ten or twelve miles. The survivors began to arrive a Dixon's Ferman and after the property and after and after and after a property of the property and after a supplied to the against the aga y about one o'clock in the morning; and after a sufficient time had elapsed, the next day, for them all to have come in, the roll was called

By this victory they obtained possession of the horses of the slam, and of the camp equipage, blankets, ammunition, and provisions of the routed militia; and are, more ver, encouraged to further hostili-ties by the propitious omen of a first victory.

On Tuesday last, the militia at Dixon' Ferry, amounting to 1200 men, were paraded to bury their deceased comrades. When our to bury their deceased comrades. When our informant left them, an immediate pulsus and attack of the Indians was anticipated; but we hope wiser counsels may have pre-vailed, as defeat would be almost certain to

follow such a course.

The militia are exasperated beyond all bounds at the death of their countrymen, and bounds at the death of their countrymen, and a cruel and exterminating war must be the consequence. On the other hand, the Indians have the advantage of a perfect knowledge of the country, are inured to fatigue and privations of every kind, and can at any time seek reluge in the swarps which abound in that quarter.

Fears were entertained at head quarters for the safety of two or three small parties of men, successively sent with despatches to Gen. Atkinson. Nothing had been heard of any of them; nor; indeed, was it known to what situation Gen. A. was, when our inform-

and information received here from him, states that he had effected a passage over the rapids.

Inter.—We have counter and less disastrous reports by a short steam boat passage from Galena. It was reported there, by persons who were in the engagement, that 25 or 27 men only were killed. In the other particulars the above details are nearly correct. Business was entirely suspended at Galena, and the familes in the surrounding country were moving in for protection. An proof of the rapidity with which the Indiana traverse the country, is is stated that the runner from Black Hawk and his allies bearing to the Missouri Indians news of the defeat of the millsouri Indians news of the defeat of the mil-tia, arrived at the Des Moines Rapids 24 hours before the express sent by Gav.
