GENERAL

AGRICULTURAL & HORTICUT TURAL ESTABLISHMENT: Comprising, a Seed and Implement Store, a General Agricultural Agency, and the Office of The AME-RICAN FARMER, in the basement of Barnum's City Hotel, Baltimore: in connexion with a Stock and Experimental Farm, a Garden and Nursery in the vicinity.

I. IRVINE BITCHCOCK and GIDEON B. SMITH

HAVE commenced the above named establishment, and solicit for it the attention and patronage of farmers, gardeners, nursery men, and the public generally. The objects we have particularly in view, are two:—First, to keep and furnish URIFORKIY to all who will favour us with their custom, GARDEN AND FIELD SEEDS

of the very best quality; and second, to procure from all possible sources, foreign and domestic, such things as promise to be of utility to our country, for either the field or garden; to test by experiment their adaptation to our climate and soil; and if found valuable, to disseminate them over the country.

The latter of these objects is the legitimate end and purper of Agricultural and Horticultural Societies, the lant of which in this central part of the United States being severely felt, we have undertaken to supply their place, so far as lies in our power. In

to supply their place, so far as lies in our power. pursuance of this determination, we have attached to the Farmer Establishment an

EXPERIMENTAL FARM, on which G. B. S, has located himself, and to the su-perintendence of which he will, in connection with his echtorial duties, devote his attention.

his editorial duties, devote his attention.

Another principal branch of our furning operations, will be the cultivation for the Store, of every
valuable kind of GARDEN SEEDS to which our elimate is adapted; and for this purpose, such preparation has been made, by the importation and collection
of the most excellent kinds, as shall insure the good
quality of all we shall produce; so that the most implicit reliance may at all times be placed upon the
excellence and genuineness of kind, as well as upon
the freshness and good quality of all seeds bearing
the label of this establishment.

As time and means permit, we shall establish an As time and means permit, we shall establish an

and further extend and improve our FRUIT and FLOWER GARDEN; and in the management of these departments, as in that of Garden Seeds, we shall attend more to the good quality of the productions than to the number of our varieties—for we are well aware that half a dozen really good kinds are worth more than half a hundred that are merely passable.

An extensive assortment of BOOKS and PERI-ODICALS on Agricultural, Horticultural and Vete-rinary subjects, will be always on our shelves, or at
