MILITARY AND NAVAL MAGAZINE.

PROPOSALS

For publishing by subscription, A Military and Naval Magazine, of the United States.

Noffering a new enterprise to the notice of the public, the successful prosecution of which must essentially depend upon the encouragement which that public may be disposed to bestow up in it, the Editor feels bound to accompany it with a brief, but plain and distinct exposition of his plan, and the reasons which have induced him to think it worth the attention of his fellow citizens. He would be sorry to entrap any one into the support of a work, the objects of which were hidden or undefined, or capricious: on the contrary. strong in the integrity of his motives and pur-pose, he hopes for the most liberal patronage from those who shall be most fully acquainted with the view- and designs they are called up

on to approve and encourage.

The Editor is not swere that any such work as that now proposed to be published, at present exists, or has ever been attempted, in the United States; he does not, therefore, wittingly interfere with the labours of another. Per haps, heretofore, the times have been consider ed as unpropitious, or such a work was not sup posed to be needed: whatever may have been the deterring cause, the Editor does not per

possesses advantages, not enjoyed by other localities, for the establishment of such a work, it is persuaded, will be no readily conceeded, that to point them out would be ner less.

As its title indicates, the Military and Naval Magazine will be principally deleted to the diffusion of useful information, in all the branches of their respective professions, among the officers of every rank in the two services It is, therefore, chiefly to these two classes of his fellow citizens, that the Editor addresses himself for the support necessary to animate and encourage him in his labours. But though the work will be avowedly professional in its shiall be his duty, and he w hereby required to attend at the market house, saily, at the usual regulations, directed to be observed by any number not exceeding twenty atripes, ny minance of this corporation, touching said of market. See, of Madb it established and originated by the adviction of the exceeding twenty atripes, in the discretion of the authority, That the market master to pay strict attention of the market master, to pay strict attention of the market master, to pay strict attention of the see That the provisions of this by law and provided and originated of the duty of the City Constables and Medical months of March. April. September and October, from five o'clock, and during this of the duty of the City Constables and Medical months of March. April. the courfest of the Departments, aided by an extensive correspondence, may enable him to

Procure. United Service Journal' of Great Bri tain—a work of extensive and deserved cele-brity—has been adopted as, in some measure, the model upon which the Military and Naval Magazine will be conducted; and a portion of each Number will be given to the re publica tion of the most interesting articles of that

The original and domestic department-for which competent assistance has been secured will consist of essays, letters, notes and problems on the multifarious matters embraced in Military and Naval science; narratives of in teresting voyages, cruises, marches, and cam paigns; biographical sketches of deceased Miitary and Naval officers; notices, analytical and critical, of new publications on any sub-ject connected with military or nautical stulies; a monthly chronicle of remarkable events in the two services, changes of stations, arri vals and departures; and lastly, a register of deaths, resignations, courts-martial, dismis

sions, and promotions.

It will hardly be expected that the whole of this extended plan can be developed in a single number—ex granis fit acervus—the volume must be made up of paris; and it is only when the several parts are brought together, that the George Gale nature or value of the structure can be fully discerned or fairly comprehended. To con clude, the Editor will make it his unremiste study, to render the Military and Naval Ma gazine, a repository of every thing that may be supposed, in any way, to conduce to the in struction or recreation of the gallant defenders Lloyd Johnson

THE MILITARY & NAVAL Elizabeth Lewis MAGAZINE OF THE U. S.

WILL be published in monthly numbers of ixty four pages Octavo each, upon superfine medium paper, and forwarded to subscribers the first day of every month.

The first number will be issued on the first of January, 1833, provided 500 subscribers shall have been obtained prior to the first of

TERMS-Five Dollars per annum .- Subscribers who remit to the publishers one year's subscription in advance, shall receive

their numbers per mail free of postage.

The numbers for Naval officers upon service on Foreign Stations, will be deposited at the Navy Department, to be forwarded with de-Navy Departnent, to be forwarded with despatches from the Government Orders for the work to be transmitted per mail (post paid) prior to the 1st of November, 1832, to
THOMPSON AND HOMANS,

Washington, D. C. Sept. 20.

THE ARMY AND NAVY JOUR-

NAL.
We observe that proposals have been issued by Messrs. Thompson & Homans, of this city, to publish an Army and Navy Journal, upon the plan contemplated by our prospect-us, which has been for some months before the public. It is probable that these gentle-men supposed that we had relinquished the work. So far from doing so, we have obtained a sufficient subscription to justify the commencement, and have contracted for a press and paper large enough to publish a sheet containing sixty four pages, and intend to issue it as an extra from the Telegraph; thus reducing the postage to one and a half cents per sheet of sixty-four royal octavo pages.— The first number will appear about th of December or before. Editors with whom we exchange will do us a favour by copying this notice. - U. S. Telegraph. Sept. 20.

GENERAL.

AGRICULTURAL & HORTICUL-TURAL ESTABLISHMENT:

Comprising, a Seed and Implement Store, a General Agricultural Agency, and the Office of The AME-RICAN FARMER, in the basement of Barnum's City Hotel, Baltimore: in connexion with a Stock and Experimental Farm, a Garden and Nursery in the vicinity.

I. IRVINE HITCHCOCK and GIDEON B. SMITH

H AVE commenced the above named establishment, and solicit for it the attention and patronage of farmore, perdeners, nurserymen, and the public generally. The objects we have particularly in view, are two:—First, to keep and furnish carrowary to all who will favour us with their custom,

GARDEN AND FIELD SEEDS of the very lest quality; and second, to produce from all possible sources, foreign and domestic, such things as promise to be of utility to our country, for either the field or garden; to test by experiment daptation to our climate and soil; and if found valu

able, to disseminate them over the country! able, to disseminate them over the country!

The latter of those objects is the legitimate end and purpose of Agricultural and Horticultural Societies, the want of which in this central part of the United States being severely felt, we have undertaken to supply their place, so far as lies in our power. In pursuance of this determination, we have attached to the Farmer Establishment an

EXPERIMENTAL FARM.

on which G. B. S. has located himself, and to the su-perintendence of which he will, in connection with his editorial duties, devote his attention. Another principal branch of our farming opera-tions, will be the cultivation for the Store, of every valuable kind of GARDEN SEEDS to which our elivaluable kind of GARDEN SEEDS to which our eli-mate is adapted; and for this purpose, such prepara-tion has been made, by the importation and collection of the most excellent kinds, as shall insure the good quality of all we shall produce; so that the most im-plicit reliance may at all times be placed upon the excellence and genuineness of kind, as well as upon the freshness and good quality of all seeds bearing the label of this establishment. As time and means permit, we shall establish an

EXTENSIVE NURSERY.

and further extend and improve our FRUIT and FLOWER GARDEN; and in the management of these departments, as in that of Garden Seeds, we shall attend more to the good quality of the productions than to the number of our varieties—for me are well aware that half a dozen really good kinds are worth more than half a hundred that are merely passable.

An extensive assortment of BOOKS and PERI-ODICALS on Agricultural, Horticultural and Vete-riars subjects, will be always on our shelves, or at

AGENCY.

Any of the above mentioned articles, also FIELD SEEDS of all kinds, AGRI-CULTURAL IMPLEMENTS AND MACHINES, DOMESTIC ANI MALS of choice kinds or improved breeds, FRUIT and ORNAMENTAL TREES, SHRUBS, PLANTS, Vines, ROOTS, &c.

shall, when not on hand, be procured to order, from any place designated, or if left to our selection, from that which we deem best for the article wanted. It he latter case we hold ourselves responsible for the quality.) We are special agents for most of the principal nursery and gardening establishments in the Union, among which are—Prince & Sons', at Flushing, and Mrs. Parmentier's, at Brooklyn, New York; Carr's, and Hibbert and the state of the state o shall, when not on hand, be procured to order, from

grails.

All orders, for not only our own but for any other establishment, shall be strictly adhered to, and promptly and faithfully executed. On those for others

than our own, we charge a commission of from five to ten per cent. according to circumstances. For other particulars, reference is made to our ca-talogue and to the American Farmer, where the adventisements of the establishment from time to time

and to the American Farmer, where the advertisements of the establishment from time to time indicate its supplies.

(Psubaerisers and customers will please observe that G. B. Smith resides and spends most of his time at the farm, and I. I. Hitchcock superintends the store, office and signey in town—hence, for the sake of convenience and despatch, it is respectfully requested that all letters of business appertaining to either department of the establishment, be directed to "L. Irvine Hitchcock, American Farmer Establishment, Baltimore, Md."

G. B. S. however, will not deny himself the pleasure of direct correspondence with his agricultural and horticultural friends, and hopes for he continuance. It is only in business correspondence, and for the sake of despatch, that the above request is made. This arrangement, it must also be understood, will make no difference in the transaction of business; as all branches of the establishment will; as herestofore, receive the personal attention of book the persons shore named.

THE AMERICAN FARMER b a neat Weekly Periodical, published at this Establishment, by L. IRVINE. HITCHCOCK, Proprietor—GI-DEON B. SMITH, Editor.

This work is devoted exclusively to the interest of the American cultivator of the soil. It treats of practical Agriculture, Horticulture, and Rural and Domestica Agriculture, Horticulture, and Rural and Domestica Economy. Its contents consist mainly of original articles, written explainly for it, by intelligent practical farmers residing in all parts of the Union, desiling, soil speculations and theories, but TRIES PAGENTIN IN SECTION OF THE PROPERTY OF THE
