THE ARMY AND NAVY JOUR-NAL.

We observe that proposals have been issued by Messrs. Thompson & Homans, of this city, to publish an Army and Navy Journal, upon the plan contemplated by our prospectus, which has been for some months before the public. It is probable that these gentle-men supposed that we had relinquished the work. So far from doing so, we have obtained a sufficient subscription to justify the comattention of his fellow citizens. GRICULTURAL & HORTICUL-TURAL ESTABLISHMENT: Comprising, a Seed and Implement Store, a General Agricultural Agency, and the Office of The AME-RICAN FARMER, in the basement of Barnim's Ctty Hotel, Baltimore: in connexion with a Stock and Experimental Farm, a Garden and Nursery in the vicinity.

I. IRVINE HITCHCOCK and GIDEON B. SMITH P

HAVE commenced the above named establishment, and solicit for it the attention and patronage of farmers, gardeners, nurserymen, and the public generals. The objects we have particularly in view, are two:—First, to keep and furnish universally to all who will favour us with their custom.

GARDEN AND FIELD SEEDS

of the sery best quality; and second, to procure from all possible sources foreign and domestic, such thans as promise to be of utility to our country, for either the field or garden; to test by experiment their sleptation to our climate and soil; and if found valuale, to disseminate them over the country. The latter of these objects is the legitimate end and purpose of Agricultural and Horticultural Societies, the want of which in this central part of the United States being severely felt, we have undertaken to supply their place, so far as lies in our power. In pursuance of this determination, we have attached to the Farmer Emablishment an

EXPERIMENTAL FARM,

experimental Farm, on which G. B. S. has located himself, and to the superintendence of which he will, in connection with his editorial duties, devote his attention.

Another principal branch of our furning operations, will be the cultivation for the Store, of every valuable kind of GARDEN SEEDS to which our elimate is adapted; and for this purpose, such preparation has been made, by the importation and collection of the most excellent kinds, as shall insure the good quilty of all we shall produce; so that the most implicit reliance may at all times be placed upon, the excellence and genuineness of kind, as well as upon the freshness and good quality of all seeds bearing the label of this establishment.

As time and means permit, we shall establish an EXTENSIVE NIIRSERY

EXTENSIVE NURSERY,

and further extend and improve our FRUIT and FLOWER GARDEN; and in the management of these departments, as in that of Garden Seeds, we shall attend more to the good quality of the productions than to the number of our varieties—for we are well aware that half a dozen really good kinds are worth more than balf a bundred that are merely passable.

An extensive assortment of BOOKS and PERI-ODICALS on Agricultural, Horticultural and Veteriary subjects, will be always on our shelves, or at our command.
