GENERAL AGRICULTURAL & HORTICULTURAL ESTABLISHMENT:

Comprising, a Seed and Implement Store, a General Agricultural Agency, and the Office of The AMERICAN FARMER, in the basement of Barnum's City Hotel, Baltimore: in connexion with a Stock and Experimental Farm, a Garden and Nursery in the vicinity.

I. IRVINE HITCHCOCK and GIDEON B. SMITH

HAVE commenced the above named establishment, and solicit for it the attention and patronage of farmers, gardeners, nurserymen, and the public generally. The objects we have particularly in view, are, two—First, to keep and furnish UNIFORMLY to all who will favour us with their custom,

GARDEN AND FIELD SEEDS

of the very best quality; and second, to procure from all possible sources, foreign and domestic, such things as promise to be of utility to our country, for either the field or garden; to test by experiment their adaptation to our climate and soils; and if found valuable, to disseminate them over the country.

The latter of these objects is the legitimate end and purpose of Agricultural and Horticultural Societies, the want of which in this central part of the United States being severely felt, we have undertaken to supply their place, so far as lies in our power. In pursuance of this determination, we have attached to the Farmer Establishment an

EXPERIMENTAL FARM,

in which G. B. S. has located himself, and to the superintendence of which he will, in connexion with his editorial duties, devote his attention.

Another principal branch of our farming operations, will be the cultivation for the Store, of every valuable kind of GARDEN SEEDS to which our climate is adapted; and for this purpose, such preparation has been made, by the importation and collection of the *most excellent kinds*, as shall insure the good qualities of all we shall produce; so that the most intelligent reliance may at all times be placed upon the excellence and genuineness of kind, as well as upon the freshness and good quality of all seeds bearing the label of this establishment.

As time and means permit, we shall establish an

EXTENSIVE NURSERY,

and further extend and improve our FRUIT and FLOWER GARDENS; and in the management of these departments, as in that of Garden Seeds, we shall attend more to the *good quality* of the productions than to the number of our varieties—for we are well aware that half a dozen *really good kinds* are worth more than half a hundred that are merely passable.

An extensive assortment of BOOKS and PERIODICALS on Agricultural, Horticultural and Veterinary subjects, will be always on our shelves, or at our command.

AGENCY.

Any of the above mentioned articles, also

FIELD SEEDS of all kinds, AGRICULTURAL IMPLEMENTS AND MACHINES, DOMESTIC ANIMALS of choice kinds or improved breeds, FRUIT and ORNAMENTAL TREES, SHRUBS, PLANTS, Vines, ROOTS, &c.

shall, when not on hand, be procured to order, from any place designated, or if left to our selection, from that which we deem best for the article wanted. (In the latter case we hold ourselves responsible for the quality.) We are special agents for most of the principal nursery and gardening establishments in the U. States; among which are—Prince & Sons', at Flushing, and Mrs. Parmentier's, at Brooklyn, New York; Carr's, and Hibbert and Buist's, at Philadelphia; Winship's, and Kenrick's, near Boston, and *generally*, for all others in the country. Catalogues of most of the above named establishments, may be had from us gratis.

All orders, for not only our own but for any other establishment, shall be strictly adhered to, and promptly and faithfully executed. On those for others than our own, we charge a commission of from five to ten per cent. according to circumstances.

For other particulars, reference is made to our catalogue and to the American Farmer, where the advertisements of the establishment from time to time indicate its supplies.

☞ Subscribers and customers will please observe that G. B. Smith resides and spends most of his time at the farm, and I. I. Hitchcock superintends the store, office and agency in town—hence, for the sake of convenience and despatch, it is respectfully requested that all letters of business appertaining to *either department* of the establishment, be directed to "I. Irvine Hitchcock, American Farmer Establishment, Baltimore, Md." G. B. S. however, will not deny himself the pleasure of direct correspondence with his agricultural and horticultural friends, and hopes for its continuance. It is only in *business correspondence*, and for the sake of despatch, that the above request is made. This arrangement, it must also be understood, will make no difference in the transaction of business, as all branches of the establishment will, as heretofore, receive the personal attention of both the persons above named.

THE AMERICAN FARMER

Is a neat Weekly Periodical published at this Establishment, by I. IRVINE HITCHCOCK, *Proprietor*—GIDEON B. SMITH, *Editor.*

This work is devoted exclusively to the interest of the American cultivator of the soil. It treats of practical Agriculture, Horticulture, and Rural and Domestic Economy. Its contents consist mainly of original articles, written expressly for it, by intelligent practical farmers residing in all parts of the Union, detailing not speculations and theories, but THEIR practice in every department of husbandry. It contains also a great number of useful recipes; so much of the news as relates to the foreign and domestic markets for Agricultural products, and a correct statement of their prices current in both, at the time of publication; but nothing connected with party politics is at any time permitted to appear in its columns. Farms, Agricultural Stock, productions, machines, and implements, are advertised, noticed, or described, many of which are illustrated by expensive engravings.

The American Farmer is very neatly printed on fine paper, in quarto form, with a direct view to being bound. The numbers for a year make a handsome volume of 416 pages, and the last one is accompanied by a title page and a copious and minute index.—When a number fails of reaching a subscriber, or becomes damaged in the mail, another shall be sent, if requested. This completion of files need not, however, be deferred much beyond the ending of the volume.

The volume, or regular subscription year, begins and ends in March. Though not indispensable, it is much preferred by the publisher, and generally by subscribers too, that at whatever period of the year a subscription be sent in, it should take date from No. 1 of the volume, as the back numbers can then be sent; but cannot in all cases be made up after the year is ended.

The current volume or year is the fourteenth of its publication, and few American periodicals circulate more extensively. Any gentleman desiring to see a specimen of the work, shall be gratified on furnishing the publisher with his address, for that purpose. Communications and advertisements connected with any of the subjects of the work, will be gratefully received and promptly attended to.

In order to render the Farmer pleasant and profitable both to its publisher and its patrons, it is hoped that gentlemen will assent *practically* to the necessity and propriety of a careful compliance with the following

TERMS OF SUBSCRIPTION.

1. Price five dollars per annum; due at the middle of each year of subscription, provided that no balance of a former year remain unpaid.
2. The manner of payment which is preferable to any other for distant subscribers, is *remittance by mail of current Bank notes*; and to obviate all objections to this mode, *the publisher assumes the risk.*
3. Subscriptions are always charged *by the year*, and never for a shorter term. When once sent to a subscriber, the paper will not be discontinued (except at the discretion of the publisher) without a special order, on receipt of which, a discontinuance will be entered, to take effect *at the end* of the current year of subscription.
4. Price of advertising—One dollar per square, and in the same proportion for more than a square, or more than one insertion.

N. B. Direct letters as already prescribed.

AGENTS.

☞ All Postmasters are requested to act as agents for the Farmer, and to require a strict compliance by subscribers with the above terms, especially the third item. They are authorised to retain $1 for each new subscriber, and 10 per cent. on *all other* collections. The list of special agents is published in the Farmer on the first Friday in each month.

THE FARMER

IN VOLUMES AND COMPLETE SETS.

Many subscribers receive the work in bound volumes when completed, instead of weekly by mail. The advantage of this method is, that the work is preserved clean and neat, the paper being pressed and not disfigured by having been folded and sent by mail. The price, payment and terms of the work in this form, are the same as when sent by mail. Directions for sending the volume must be explicit.

Although a considerable surplus of copies beyond the current subscription list, has at all times been printed, and of some of the volumes a second, and even a third edition have been issued, yet such has been the demand for the back volumes, that *only a small number of full sets* (complete from the commencement) *can hereafter be made.*

The price of the work in sets is Five Dollars per volume, half bound and lettered. Most of the volumes may be had single at the same price.

REMARKS.

The following is an extract from an editorial notice which appeared recently in a highly respectable journal. It expresses precisely the sentiment that has been repeatedly uttered by many of the most enlightened farmers of our country, as well as by nearly all of its cotemporary periodicals:

"The 'American Farmer' has reached its fourteenth year, and, although we have been familiar with its pages from the commencement, *it still increases in interest*; the great subject on which it is engaged is not exhausted. Some may be disposed to ask what new lights can be shed upon agriculture at this late period, and after all that has already appeared in various works upon a subject which only requires *practical* knowledge? Such we refer to the pages of the 'Farmer' from its commencement, and, in every number, they will find enough not only to reward them for their time and labour, *but in many single numbers information of sufficient value to compensate them for a year's subscription.*"

A NEW, CHEAP AND POPULAR PERIODICAL,

ENTITLED THE

SELECT CIRCULATING LIBRARY,

CONTAINING

Equal to FIFTY VOLUMES *for* FIVE DOLLARS.

PROSPECTUS.

IN presenting to the public a periodical, entirely new in its character, it will be expected that the publisher should describe his plan, and the objects he hopes to accomplish.

There is growing up in the United States a numerous population, with literary taste, who are scattered over a large space, and who, distant from the localities whence books and literary information emanate, feel themselves at a great loss for that mental food which education has fitted them to enjoy. Books are cheap in our principal cities, but in the interior they cannot be procured as soon as published, nor without considerable expense. To supply this desideratum is the design of the present undertaking, the chief object of which emphatically is, to make *good reading cheaper*, and to put it in a form that will bring it to every man's door.

Books cannot be sent by mail, while the "Select Circulating Library" may be received at the most distant post office in the Union in from fifteen to twenty-five days after it is published, at the trifling expense of two and a half cents; or in other words, before a book could be bound in Philadelphia, our subscribers in Ohio or Vermont may be perusing it in their parlours.

To elucidate the advantages of the "Select Circulating Library" such as we propose, it is only necessary to compare it with some other publications.—Take the Waverly novels for example; the "Chronicles of the Canongate" occupy two volumes, which are sold at $1.25 to $1.50. The whole would be readily contained in three numbers of this periodical, at an expense of thirty-seven cents, postage included! So that more than three times the quantity of literary matter can be supplied for the same money by adopting the newspaper form. But we consider transmission by mail, and the early receipt of a new book, as a most distinguishing feature of the publication.—Distant subscribers will be placed on a footing with those nearer at hand, and will be supplied at their own homes with equal to about Fifty Volumes of the common London novel size for Five Dollars. This may not take fifty-two weeks to accomplish; for though not longer than one week will elapse between the issuing of each number, yet, when there is a press of very interesting matter, or when two or more numbers are required to contain a whole work, the proprietor will feel himself at liberty to publish at shorter intervals—fifty-two numbers being the equivalent for five dollars.

Arrangements have been made to receive from London an early copy of every new book printed either in that mart of talent, or in Edinburgh, together with the periodical literature of Great Britain. From the former we shall select the best Novels, Memoirs, Tales, Travels, Sketches, Biography, &c. and publish them with as much rapidity and accuracy as an extensive printing office will admit. From the latter, such literary intelligence will occasionally be culled, as will prove interesting and entertaining to the lover of knowledge and science, literature and novelty.—Good standard novels, and other works, now out of print, may also occasionally be re-produced in our columns.

The publisher confidently assures the heads of families, that they need have no dread of introducing the "Select Circulating Library" into their domestic circle, as the gentleman who has undertaken the Editorial duties, to literary taste and habits adds a due sense to the responsibility he assumes in catering for an extended and moral community, and of the consequences, detrimental or otherwise, that will follow the dissemination of obnoxious or wholesome mental aliment. His situation and engagements afford him peculiar advantages and facilities for the selection of books. These, with the additional channels created by agencies at London, Liverpool, and Edinburgh, warrant the proprietor in guaranteeing a faithful execution of the literary department.

It would be supererogatory to dilate on the general advantages and conveniences which such a publication presents to people of literary pursuits wherever located, but more particularly to those who reside in retired situations—they are so obvious that the first glance cannot fail to flash conviction of its eligibility.

TERMS.

"The Select Circulating Library" will be printed weekly on a double medium sheet of fine paper in octavo form, with three columns on a page, and mailed with great care so as to carry safely to the most distant post office.

It will be printed and finished with the same care and accuracy as book work. The whole fifty-two numbers will form a volume, well worth preservation, of 832 pages, equal in quantity to 1200 pages, or three volumes of Rees's Cyclopædia. Each volume will be accompanied with a title page and Index.

The price is Five Dollars for fifty-two numbers of sixteen pages each—a price at which it cannot be afforded unless extensively patronised. ☞ Payment at all times in advance.

Agents who procure five subscribers, shall have a receipt in full by remitting the publisher $20, and a proportionate compensation for a larger number.—This arrangement is made to increase the circulation to an extent which will make it an object to pay agents liberally. Clubs of five individuals may thus procure the work for $4, by uniting in their remittances.

Subscribers, living near agents, may pay their subscriptions to them; those otherwise situated may remit the amount to the subscriber at his expense.

Our arrangements are all made for the fulfilment of our part of the contract.

Subscribers names should be immediately forwarded, in order that the publisher may know how many to print of the future numbers.
