A NEW, CHEAP. AND POPULAR PERIODICAL.

WALDIDE SELECT CIRULATING LIBBART.

THE striking features of this periodical are, that books are published in it in a form which allows of their being carried by mail, and at a rate so reasonable, that every intelligent educated person in the community can procure them. The publisher receives from England all the new books of merit; and from these, selections are made from the best class of Novels, Memoirs, Travels, Sketches, Tales, and Biography. These are printed as rapidly as an extensive printing office will admit, and forwarded by mail, carefully packed so as to carry to the most distant post office in the Union, uninjured.

This periodical commenced in October, with the popular novel of Waklstein, or the Swedes in Prague, which cost in London six dollars; it is contained entire in two numbers and a half of the Circulating Library, corting subscribers less than twenty-free cents.

tire in two numbers and a half of the Circulating Library, corting subscribers less than twenty-fire cents. This was succeeded by the Memoirs of Lavillette, which cost the publisher to import eight dollars: it was likewise contained in the same space and at the same price. The sixth number commences the travels of Mr. Vigne, costing in London &x dollars; it will be printed entire in the "Library" for at most thirty cents! This enumeration of prices the publisher trusts, with the facility of transportation by mill, will be sufficient to induce those who receive this prospectus, to use some exertion to extend the circulation of the work in their respective usighbourhoods, as, if encouraged hereafter as he has so far been, it is his intention to lay before the American public in this form all the best books which issue from the London press.

This volume will comprise at least from twenty-five to thirty entire works, pricted on good paper, and with the same accuracy as each, well worthy of preservation for reference, and a subside addition to every public and prisate library. The publisher feels confident in stating, that the write 5s numbers, when bound, will sell for more than the subscription price, as after a few more numthe subscription price, as after a few more num-are i seed, no more will be printed than will sup-

than the subscription price, as after a few more combers are i sund, no more will be printed than will supply actual paying subscribers.

Still further to increase the facilities of subscribers, the publisher has added another inducement for clubs to join together in their remittance. Twenty dollars will be received in full for the subscription of five individuals. This deduction will pay all phajage.

Those who design to patronize this new and appulsar movie of publishing good books, will oblige the subscriber by forwarding their remittance as early as practicable. A five dollar note deposited in the post office will supply good reading to a family and scribe of acquisintance for a whole year.

The gentleman who mateach's elections for this periodical, to literary taste and education, has, from his situation, facilities for knowing what is popular and of high reputation possessed by few, to this he adds a proper sense of the responsibility he has assumed in catering for an extended and moral community. The publisher therefore conductively recommends the Circulating Library to heads of families, as a work which they need have no fear of introducing into any circle

The ensuing number will contain a highly popular novel, by the English Opium Eater.
