

ANNAPOLIS: Thursday, May 23, 1833.

At a Convention of Delegates friendly to the National Administration...

On motion, the following preamble and resolutions were adopted:

Resolved, That it is inexpedient to make a nomination at this meeting...

Resolved, That it be recommended to our friends in the five wards in Baltimore...

Resolved, That the proceedings of this meeting be published.

ABNER LINTHICUM, Chairman. SOU. PINKNEY, Secretary.

APPOINTMENTS BY THE EXECUTIVE OF MARYLAND.

J. W. McCulloh, Esq., Ex-Governor Chas. Goldsborough, and Hon. B. S. Forrest, Representatives of the State in the Joint Stock Companies in which the State hold stock.

The General Assembly of the Presbyterian Church in the United States, commenced its annual session at Philadelphia on Thursday last in the Seventh Presbyterian Church.

From the Richmond Virg. May 17. EPISCOPAL CONVENTION.

The Protestant Episcopal Convention for the Diocese of Virginia, assembled in this city to-day.

COLONIZATION.

At a meeting of the New York Annual Conference of the Methodist Epis. Church, held at Poughkeepsie last week, the following resolutions, submitted by the Rev. Dr. Bangs, were adopted unanimously.

Resolved, That the American Colonization Society, by transporting to Africa, with their own consent, the free people of colour, and providing a home for them on that Continent, performed an act of benevolence to this class of our population, and of patriotism to our country.

Resolved, That this Conference consider the manifestations of Providence, in the establishment and success of the Colony at Monrovia, as indications of mercy to Africa, and particularly in the influence that attachment exerts in abolishing the slave trade and spreading the blessings of civilization, and of Christianity over the African Continent.

Resolved, That we recommend to the Preachers, and the Congregations of this Conference, to take up collections on or about the ensuing 4th of July, in aid of the American Colonization Society; and that the Preachers of this Conference be requested to preach a sermon on the occasion.

During the Conference the cause of missions was advocated by the Rev. Dr. Bangs in a forcible address delivered to a crowded audience.

MAP AND GEOLOGICAL SURVEY OF MARYLAND.

The Legislature at its last session, with a liberality which reflects much credit upon the state, passed a resolution directing the governor and council to appoint a competent Engineer to collect and prepare the various surveys of the state which have been made by its own authority, or by incorporated companies, with a view to Internal Improvement, and to make such other survey as may be necessary to exhibit a complete Geographical and Topographical Chart of this state.

WALDIE'S CIRCULATING LIBRARY.

We believe we have not hitherto noticed the New Series of this well conducted and beautifully printed periodical.

by Sarrans; 'The Gentle Recruit,' by Gleig; the author of 'The Subalterns'; 'A Family Tour through Holland, &c.' by Col. Batty; 'Lives and Exploits of Banditti and Robbers,' by Macfarlane; 'Observations of an Italian Exile in England,' by Count Peccio; 'Memoirs of Hortense Beauharnais'; 'Journal of a Nobleman, being a narrative of his residence at Vienna during the Congress'; 'Letters of the (first) Earl of Chatham'; 'Vacosta, or the Prophecy,' by the author of Ecarte; and 'Journey from Calcutta to Europe via Egypt,' by Mrs. Lushington.

The 'Library' is edited by a gentleman of education and taste, who displays in the works he selects for publication, much discernment and discrimination; and it is to be published under the circumspection and control of a competent printer.

Resolved, That it be recommended to our friends in the five wards in Baltimore, and the third, fifth, and sixth Election Districts in Anne Arundel county, not to represent in this Convention.

Resolved, That the proceedings of this meeting be published.

reference with the metaphysical and professional reader. The trial continues to be conducted with strict propriety, and with all the fairness which can be expected of the carping profession of the law.

The counsel on both sides are indefatigable in the discharge of their arduous duties. Today seventeen witnesses have been examined by the Attorney General for the prosecution, (ten men and seven females) making the whole number of witnesses already examined against the prisoner forty seven.

We have just had intelligence here, of a suicide from poison, committed by a young lady in Providence, of a highly respectable family there, in wealthy circumstances.

The papers from the North, by the mails of this morning, furnish melancholy details of the effects of the late rains. Our intelligence reaches to Salem, Washington county.

At Troy, at eleven o'clock on Wednesday morning, the flood had risen from seven to eight feet above the steam boat dock, and was still rising.

At Troy, at eleven o'clock on Wednesday morning, the flood had risen from seven to eight feet above the steam boat dock, and was still rising.

We learn that the canal was completely covered at Canajoharie, and that it has sustained considerable damage.

The latest account from Albany is contained in the Journal of last evening—that paper contains the following:

The most painful accounts begin to be received of the destructive effects of the freshet. The river continued rising till about 10 o'clock this forenoon, when it was a foot higher than in the Spring.

It is impossible to estimate the loss of our citizens, which is much greater than the occurrence of such an extraordinary flood at an unusual season.

Upwards of two hundred coils of wood were swept away from one yard this morning. The quantity of lumber lost is very great.

Many of our merchants found the water in their stores yesterday morning, before they had an article of their goods removed.

Since the above was in type, we have seen two gentlemen from Canada, who have been detained two days on their way in consequence of the state of the roads.

The Connecticut river, on Tuesday, was seventeen feet above low water mark and was still rising.

It was mentioned yesterday, on the authority of an Albany paper, that a forwarding house at Troy had lost 25,000 dollars.

The Columbia (Penn.) Spy states that the Susquehanna river on Friday evening was falling slowly.

At Columbia but little damage was experienced, the lumber having been piled in a place of security.

Mr. Daniel Cook, of Marietta, was drowned while endeavouring to have a raft of lumber down the river before he was relieved from his perilous situation.

The executive committee appointed at a town meeting for the relief of the sufferers, by the late fire at Cumberland, met on several occasions for the purpose of receiving the amount collected in the several wards, and now beg leave to lay the following statement before their fellow citizens, which embraces all the returns to this date:

Table with 2 columns: Ward name and Amount. Total \$5856 23

In addition to the above, one hundred and fifty dollars was remitted to Cumberland by a gentleman in the 6th Ward, and a like sum by a gentleman in the 7th ward, making the total amount contributed by Baltimore, Six Thousand One Hundred and Fifty Six Dollars and Twenty Eight Cents.

In conclusion the committee beg leave to state that the amount paid over to them, has been remitted by the Mayor to the committee appointed on behalf of the citizens of Cumberland to receive donations.

Mr. Benjamin M. Prichard, a native, we believe, of Mason county, but for many years past, a citizen of Montgomery, tarried a short time in Maysville last week, and created no little curiosity, particularly among the children, because of his enormous bulk.

REMARKABLE PRESERVATION. Captain Chester, of the whaling ship Ann Maria, of New London, Connecticut, on her late voyage round the East Cape, met with the following adventure.

The entire levee was attended by the Bavarian, Prussian, Swedish, Wirtemberg, Mexican, Hanoverian, Belgian, Saxon, Dutch Ministers; the Sardinian, United States, and Turkish Charges d'Affaires, &c.

The British House of Commons adjourned on the 4th, to meet again on the 15th for the Easter holidays.

The British Government is always to be depended on for its own affairs without

quarterly report of the revenue is looked for with deep interest by all who take any part in public or come in the way of taxation—The London Observer of the 7th inst. —The

The Revenue of the financial year, which commences on the 1st of April, would give a little reason to anticipate an extraordinary reduction of taxation. The surplus is, on the whole, united with the savings in a mill-pond to be applied to the dimmution of the public burthens.

PRESENT FROM THE GRAND SEIGNIOR. Sir Stratford Canning, late British Ambassador at Constantinople, has conveyed to the Emperor of Turkey, a present of a Diamond Snuff-box, of exquisite workmanship, in testimony of the Emperor's Scientific work illustrating the Holy Scriptures.

THE PEACH TREE. From a desire to encourage the culture of the Peach Tree, we offer the following as a result of experiment and observation.

It is generally known that worms, near the surface of the earth, destroyed then by the bark; the object is therefore to find a preventive, in order that the trees may be saved in a healthy state.

It is evident that these worms pass through the common change, and assume the form of millers, early in the summer, and deposit their eggs in the bark as low as they can find access to it; and that the worms proceeding from them begin to operate in the latter part of the summer; when they have been found the size of a common pin.

About the first of May remove the bark from the body of the tree, and shirk it to a height of 15 or 16 inches, in such manner to exclude the millers, burying the other part of it in the earth.

Remove about the first of September, we have sometimes found the young worms in the upper part of the straw, being then rarely discovered on the surface of the bark, covered by a little gum.

HOLLAND. The following Privy Correspondence of the London Times is published in that paper of the 4th of April; and although some of the articles speculate, which we have omitted to insert, indicate that he is a warm partisan, and strongly opposed to the measures of the British Ministry in relation to Holland, yet the facts that he states go far to show that the prospects of continued peace in Europe is daily diminishing.

LATEST FROM ENGLAND. The packet ship Monongahela, at Philadelphia brings Liverpool papers to the 8th of London to the 31st of April. The New York Commercial contains extracts from London papers to the 4th April, received by the English packet boat Ogle, at Boston.

NEW MINISTERS. It will be perceived from the extracts from the 'Court Newsmen', that the change in the British Ministry was more extensive than was expected or intimated by our last advices.

THE KING'S LEVEE &c.—Soon after the clock yesterday, his Majesty, attended by Sir Herbert Taylor, arrived at St. James's Palace at Windsor.

His Majesty then held a Privy Council at which Lord Stuart de Ros was sworn a Privy Councillor, as was also Charles Bagot.

Mr. Rilice was introduced and sworn in as Privy Councillor, and took his seat at the Board accordingly.

Mr. Stanley was sworn into office as Secretary of State for the Colonial Department.
