THE striking features of this periodical are, that books are published in it in a form which allows of their being carried by mail, and at a rate so reasonable, that every intelligent educated person in the community can procure them. Novels, Emoirs, Travels, Sketches, Tales, and Biography. These are printed as rapidly as an extensive printing olice will admit, and forwarded by mail,
carefully packed so as to carry to the most distant

This periodical commenced in October, with the
popular novel of Waldstein, or the Swedes in Prague,
which cost in London six dollars; it is contained entire in two numbers and a half of the Circulating Liboary, costing subscribers less than twenty-five cents.
This was succeeded by the Memoirs of Lavallette,
which cost the publisher to import eight dollars; it
was likewise contained in the same space and at the
same price. The sixth number commences the travels of Mr. Vigne, costing in London six dollars; it
will be printed entire in the "Library" for at most
