—THREE DOLLARS PER ANNUM.

THE JOURNAL  
OF  
**BELLES LETTRES.**  
AND STRIKING CHARACTER ADDED TO  
**WALDIE'S**  
CIRCULATING LIBRARY.

Extract from the minutes of the meeting of the Board of Managers of the *Journal of Belles Lettres*, October 24th, 1833.  
Resolved, That this board trusts that contemplated settlement on Cape Palmas, Maryland colonists under the auspices of the Maryland State Society, will effectually promote the great object of that Society in relation to their own state, and prove to extraordinary at large, the great benefits of the colonization scheme, and contribute to the civilization and happiness of the African Continent.  
Resolved further, That this board is of opinion that the Maryland Society shall send their emigrants (until prepared to make their settlement of their own) either at Monrovia, Grand Bassa, upon the same terms and conditions, and subject to the same regulations, as now exist as to their colonists settled at Sierra Leone, under the resolution of the 24th of May last.  
A true copy from the minutes.

**SAMUEL C. ATKINSON**  
PROPOSES to issue from the office of the Saturday Evening Post, in the month of May, 1833, the 1st number of a monthly publication, entitled, The

**BOOK OF NATURE.**  
Edited by an Association of Scientific Gentlemen of Philadelphia.

EACH NUMBER WILL CONTAIN FROM EIGHT TO TEN FINELY ENGRAVED QUARTO COPPER PLATES,  
In the various departments of Natural History, each plate to contain from four to ten distinct figures, making from 50 to 100 figures in each number. With a view to diversify the publication as much as possible, a selection of one plate from each of the following subjects will illustrate each number:  
1. QUADRUPEDS, 8. VERMES & ZOO  
2. BIRDS, 9. PHYTES,  
3. AMPHIBIA, 10. BOTANY,  
4. FISHES, 11. VEGETABLE ANATOMY,  
5. CRUSTACEA, 12. GEOLOGY,  
6. INSECTS, 13. MINERALOGY.

Each plate will be accompanied with a brief but satisfactory description of every subject or figure it may contain, so written as to convey a good idea of the subject, without being either of tiresome length, or so technically written, that all may be read with pleasure. Every department of the great field of Natural History will be explored, its beauties and its subtleties unfolded, and the thousand "secrets" which nature has hid from our eyes, will be brought to the light of day. The power of the pen, the pencil, and the press, will be laid before the eye of the intelligent admirer of the great works of a Divine Architect. No collection of engravings more valuable, so far as scientific purposes are concerned, has ever been offered to the public at so cheap a rate. More than one hundred of these fine engravings will be given annually to the man of taste, who will furnish subjects which he can admire from year to year, and present with pleasure to his friends; the artist, and the student in Natural History, may confidently refer to them on all occasions of dispute, while the juvenile portion of society will become acquainted with the inhabitants of the air, the ocean, and the earth. Geography can be learned only from maps or from travel. "The Book of Nature," without taking any assistance from the book-shelf or the closet, will unfold to the common eye, and to the eye of the whole earth. The increased taste for this study, which the public love of late years evinced, induces the publisher to hope for extensive patronage for a work, which necessarily involves great expenditure, and which will combine great interest, accuracy and beauty.

As the subjects embrace the whole range of Natural History, in order to make it as complete as possible, several scientific gentlemen have been engaged at a great expense to conduct the work; their united researches, it is believed, will render this periodical extremely valuable.

One great source of the patronage anticipated by the proprietor is from schools and colleges, and as the figures represented will be most elegant and correct, and drawing it will form a work for consultation by the Painter, Engraver, Drawing Master and Student, and will be of inestimable advantage to the profession of their practice. In short, it will be adapted to the capacity and need for the use of every class in the community, from the earliest naturalist to the early beginner—for the one a book of reference, and for all a source of pleasing study, amusement and instruction.

This work is not put up with a view to temporary popularity, or to a subscription of two years, in which case the price would be considerably higher. It will, on the contrary, be so compiled as to be valuable as long as the plates last. After the term of two years, the price will be greatly enhanced, thus making the advantage on the side of those who now come forward to patronize an extensive and novel enterprise.

**TERMS.**  
"The Book of Nature," will appear near the first of every month, with from eight to ten fine engraved plates in each number, making about 100 engravings in each volume, which will contain from five hundred to one thousand separate figures. The price will be five dollars per annum. Agents or clubs remitting \$20 will be entitled to five copies. No subscriber will be received without payment in advance, or satisfactory reference. Single numbers 50 cents, to those who wish to examine the work previous to subscribing. Address (always free of postage),  
**SAMUEL C. ATKINSON,** Philadelphia.

No subscription received for a shorter period than one year or volume.  
May 25.

**FOR RENT**  
For the ensuing Year.  
The Tavern known as the Half-way House between Baltimore and Annapolis. **ONLY ONE DOLLAR A YEAR.**  
**PROPOSALS**  
For Publishing by Subscription, at Bel-Air, Harford county, Maryland,  
A HUMOROUS PUBLICATION,  
TO BE ENTITLED  
**THE MIRROR OF MIRTH.**

"Mirth that wrinkles care derides,  
And laughter holding both its sides."

THIS subscriber, fully aware himself, that innocent mirth tends more to blunt the arrows of adversity, and promote health and happiness among mankind, than almost any other means which can be used, is induced to try the experiment of starting a publication which will bear the above title. It is unnecessary, perhaps, to state, that he will expect, before he commences the publication, the names of a sufficient number of persons to pay all the expenses which will be incurred; and when he assures his friends that his calculations on the score of expense are not very extravagant, he hopes the public may be the more inclined to favour the contemplated publication.

The pages of the MIRROR OF MIRTH will be perfectly free from all party spirit, whether in religion or politics. And while the most scrupulously devout will find nothing to condemn, those who make no profession of religion will find in every line something to please, to a muse, and delight.

The publication will contain witty Anecdotes, pithy Epigrams, Bon Mots, Engagements, Contradictions, Epitaphs, Choice Sentiments from the best writers of the age; and a collection of the best Maxims, on various subjects, which are to be found in the most approved writers. The Editor of the MIRROR OF MIRTH will strive to make it worthy of the support of the community in all parts of this State, and indeed of the country.

**TERMS**  
The MIRROR OF MIRTH, will be printed on a royal sheet of beautiful paper, and good type, and will contain 8 octavo pages weekly, at the very low price of \$1 per annum, payable on the delivery of the first No. \$1.25 if paid at the end of six months; and \$1.50 if payment be deferred until the end of the year. Fifty two numbers will comprise a year, or one volume of 416 pages.

\* Should a sufficient degree of encouragement be given, the MIRROR will be embellished, occasionally, with humorous engravings.

\* Gentlemen procuring five responsible subscribers will be entitled to a sixth copy gratis. Those who procure ten or more subscribers, and forward the money, will receive an extra copy and ten per cent. on all money which they collect.

\* If a sufficient number of names shall be obtained to justify the expense, the publication will be commenced as soon after the first of January as practicable; of which due notice will be given.

\* Persons holding subscription papers will please return the same previous to the first day of January, 1834.

\* As there is no work of the kind printed in Maryland, and as the price will suit the convenience of almost every one, the subscriber confidently calculates on a large number of patrons.

**LYNDE ELLIOTT.**  
Oct. 24.

\* Our Editorial brethren who copy the above, will confer a favour on the publisher, and thereby entitle themselves to the publication without sending their papers. Please mark the advertisement when you insert.

**LINNEAN BOTANIC GARDEN AND NURSERY,**  
FLUSHING, NEAR NEW YORK.

WILLIAM PRINCE & SONS, announce to the public, that from the immense extent of their Establishment, they are enabled to furnish such Trees of the various kinds as cannot fail to give satisfaction by their superior size, vigour, &c. and their Nurseries at present contain more than a million of Trees and Plants in the most thrifty state. Among these are above 50,000 Pear trees of 3 and 4 years growth, from the graft, comprising the most choice new Flemish and other varieties of modern origin. Their new Catalogues, with the reduced prices, will be forwarded to every applicant, and are as follows:

No. 1. Fruit and Hardy Ornamental Trees, Shrubs and Plants, p p 93.  
2. Bulbous and Tuberous rooted Plants and Dahlias, &c. p p 24.  
3. Greenhouse Trees, Shrubs and Plants, p p 50.  
4. Catalogue of Vegetable, Field and Flower seeds.

To the Proprietors of Nurseries, and to those who may wish to establish new Nurseries, they will furnish all articles desired at a liberal discount and a convenient credit; and in all other cases where large quantities are wanted, a reasonable abatement will be made. They will also supply all vendors of Seeds, and those who wish to engage in that business, with every variety of Vegetable, Field and Flower Seeds, at very low rates. These seeds possess the advantage of being raised under their own observation, or when imported, of being tested to their satisfaction, and their accuracy and utility are expressly guaranteed. Many new and choice varieties will be found in the Catalogue which have never before been offered to the public. The collection of Bulbous Flower roots and Dahlias is particularly rich and extensive, and of the latter they have a specimen bed covering an acre of ground, and comprising 600 varieties now in full splendour. Bulbous roots and Dahlias can be easily transported, and may be vended in a dry state in seed stores, &c. and an establishment for the Sale of these articles ought to exist in every town in the Union.—It will be readily perceived that the great number of Trees, &c. always in the Nurseries, enables the Proprietors to make superior selections, and secured to all applicants this particular advantage.

It is desired that all orders be sent direct per mail to the Proprietors, and the utmost attention will be given to forwarding them by the speediest route, &c.

Catalogues may be seen at this office.
