Of similar works, embracing the Universe, it may with truth be said of the most voluminous of them, that they are neces arry brief, and greatly dencient in reference o our own country. This is undeniable—nor could it be otherwise in a work, which in the compass of 800 or 1000 pages, comprises so wide a field.

The work will be handsomely printed in Foolscap 8 vo. on good paper, cold-pressed, neatly bound in Merocco Cloth, lettered; exidence of the impartiality of the selection:
