The Denton Advocate announces the name Some weeks after, however, on awakening, of Levin Soward, as van Independent anti-caucus Republican candidate,? and also a notice that Richard Chambers will be sup-

point of hes bayonet, swearing by the "im-maculate" that he had smurthered an En-glishman alive," that the knowed him for sertin, although he had changed his coat from red to black."

I am a stremmas advocate of the "Temperance." dise I should have thought myself moved by the same hallucin ations which sported in the imagination of the jolly son of Erin, when I discovered some few, although they had changed their coats and were total they had enaugh the coast were expla-tory recentations of past transgressions.— There were veciferous attempts towards reason and argument, which were as illogical as the subject was bad, and, I must acknow ledge, confusing; and from what I saw and beard, I do not believe that repeated holocousts in addition to public palinodes, will be a sufficient atonement to regain offended confidence. These transformations may be characteris-

tic of individuals, or may be brought about by such means as were attempted with me; but I am known to have been the violent opponent of all nominations, whether at a meeting called by public notice, or conjured up by two or three in a - private office or shop, and could not here subscribe to a stereotyped edition of that nomination once so obnoxious to my fastidious feelings. Truly I was opposed to the election of General Jackson, and to my fastidious feelings. Truly I was opposed to the election of General Jackson, and again, saw no cause, when elected, why an opposition should be made to him, as being against the interest of Maryland to be arrayed against the interest of Maryland to be arrayed against the general government; otherwise, I class the general government; otherwise, I could not intimately associate meanify with will hereafter be final. could not intimately associate myself with, and receive even the congratulations appropriate on the return of a prodigal son, from gentlemen whom I may consider honourable in other respects, but were so blinded by prejudice that they could not act as honest nourable officers in those stations to which the suffrages of their fellow citizens had rais-ed them. Although my nearest relatives may be urged to assail me with promises of the re-wards which how-a-days are adjudged to inconsistencies, I shall never again be enticed to a someraet, even at the risk of being debarred from filling the present vacancy in the U S. Senate. But of this I could have no U.S. Senate. But of this I could have no reasonable expectations, as it is rumoured that ex-Senator Chambers had compounded for the judgeship—calculated who should be U.S. Benator, by subtracting a State Senator, and to the remainder, adding a substitute of his own choice. Thus must I remain a Private, 22d Regiment M. M.

Mr. Editor: Since the nomination by the Young Men, after weeks since, of two che didates to represent the city of Amapolis in the next House of Delegates, a great degree of uneasiness and dissatisfaction seems to pervade the ranks of our adversaries, so much to that the twofold weapons of abuse and ridicule have been brought into requisition, in order to drive us from the contest. But permit me, Mr. Editor, to say, that our oppo mit me, our nuitor, to say, that our opponents have pursued an erroneous course altorgether; instead of meeting us upon the fair and legitimate principle of reason and argument, they have chosen that of vituperation coupled with ridicule, and have endeavoured port and the same to satisfy the public that the young men have no just ground of complaint. Now let us last, passed over land to York Factory, the to satisfy the public that the young into no just ground of complaint. Now let us last, passed over land to York Factory, the no just ground-work upon which we pre-dicate the right to a participation in the poli-tical benefits of the city. Our adversaries of farm Normal, as van Independent anticauses Republican confidable. In a few of the particular of t dicate the right to a participation of the city. Our adversaries July. Two other canoes manned by sixteen tical benefits of the city. Our adversaries additional voyageurs are daily expected at to monopolize all these benefits to the exclusion, and the remaining voyageurs and to monopolize all these benefits to the exclusions, and the remaining voyageurs and to monopolize all these benefits to the exclusions.
